Suggested Summer Reads:

Our initial primary text in August is the play, *Eurydice*, by Sarah Ruhl which is a modern adaptation of the Greek myth of Eurydice. Because of this, I suggest that you read some modernized Greek Mythology. There are many, many books to choose from, but here is a list of options for you:

Most of these books are readily available on Amazon or from your local library.

Again, these are just suggested and not required. However, if there is a book that you would like to read, but it's not an affordable option, please email me and I will see what I can do to get that book into your hands!
