

We have provided an **UPDATED** tool that will allow you to see the vendors in Teams that are already approved and the cooperatives for the month of August. Often, quotes will reference pricing based on Cooperative or RFP contracts.

Here is the goal of this vendor listing tool:

- Vendors often change cooperative contracts from one month to the next month
- Using this tool, you can see what cooperatives a vendor is on and comparison shop
- Verify if a vendor you want to use is an ***approved vendor**
- Quickly identify if the vendor you are seeking is not an approved vendor

***Something to note:** Approved Vendors

Occasionally, a vendor may be found on the approved list that is no longer active. If the vendor is not tied to a specific contract or category, contact purchasing at purchasing@galenaparkisd.com. This information is for internal use only.

Link can be found at District webpage:
