

Purchasing TIP #28

Keurig Dr. Pepper

Effective 10/20/2025

Reminder:

EVERYONE - Coke products - Since GPISD has an established contracted beverage agreement with Keurig Dr. Pepper and they serve as a prominent sponsor of the GPISD Education Foundation, which supports our students in many ways, we can no longer use district funds to purchase Coke products (Coke, Diet Coke, Coke Zero, Ozarka, or other non- Dr. Pepper products) for any district events.

Donations of Coke Products to a club or organization are allowed but cannot be resold.

For your convenience, I have provided an attachment with Dr. Pepper products for you to reference when making purchases. Please note that the only exception to purchasing Coke products is Gatorade and Powerade because Dr. Pepper does not have an isotonic product equivalent. Though we cannot purchase Coke products using district funds, you are more than welcome to bring Coke products from home, purchased with your personal funds.

Dr. Pepper Products

These are the **only** products that can be purchased for your campus activity funds, student activity funds, booster club funds, or general operating funds.
