WINN

WINN stands for **W**hat **I** Need **N**ow. The daily schedule allows time for students to receive more individualized instruction. The extra help will be provided during the students' WINN Time. Students will work in small groups on specific skills with which they need assistance. Information and data from the classroom teacher will be used to determine the skills that will be reinforced during WINN. The classroom teacher, other grade level teachers, instructional assistants, and the Title 1 Team will be working with students in small groups in reading, writing, and math.

Progress will be monitored through a combination of summative and formative assessments and classroom observations. This will allow for constant feedback and growth. Your child may have different WINN groups throughout the year.

Title 1 Program

Title 1 is a federally funded program created to help students that need more assistance in reading and writing. Additional help will be provided as needed throughout the school year. The goal of this program is to give students extra support needed in reading and writing.

Based on testing data and teacher recommendation, students with the greatest need will receive extra support in reading and/or writing. The Title 1 Team will work with children in small groups or individually on various skills. This support is in addition to the instruction they are receiving in the classroom.

Our objective is to meet students where they are and help them reach their educational goals. An important part of your child being successful at Monrovia Elementary will be through individualized, extra support, and small learning groups.
