Instructional Technology Plan - 2026-2029 Instructional Technology Plan**V. NYSED Initiatives Alignment**

Page Last Modified: 03/25/2026

V. NYSED Initiatives Alignment

1. How will the district's use of instructional technology support a comprehensive and sustained effort to improve student performance and academic standards, while also addressing the need to provide equitable learning opportunities “everywhere, all the time” (National Technology Plan)?

The Romulus Central School District integrates instructional technology to support rigorous, standards-aligned instruction, continuous improvement, and equitable access for all students. Aligned with district priorities, technology enhances personalized, student-centered learning experiences and ensures all students can access high-quality learning opportunities both in and beyond the classroom. Teachers intentionally integrate digital platforms, learning management systems, and adaptive programs to design and deliver instruction that promotes multiple entry points for student engagement and varied methods for demonstrating understanding. These tools are also used to facilitate formative assessment, monitor student progress within MTSS frameworks, and adjust instruction in response to student needs. The effectiveness of technology integration is evaluated through analysis of student performance data, progress monitoring results, and usage metrics from instructional platforms, ensuring that instructional decisions remain responsive and data-driven.

Students use technology to access content, collaborate, and demonstrate mastery, while benefiting from multiple pathways to learning through multimedia resources, assistive technologies, and adaptive tools. This ensures equitable access for all learners, including students with disabilities and those requiring additional support.

To provide learning “everywhere, all the time,” the district maintains a 1:1 device program and ensures internet access for all students, including hotspots as needed. Reliable infrastructure and partnerships with BOCES support connectivity, instructional systems, and cybersecurity.

2. **At the start of the 2026-27 school year, will the district offer full-time virtual instruction to any students? (Select all that apply)**

- ☐ Yes. Our district operates a full-time virtual instruction program.
- ☐ Yes. One or more of our students will attend a program operated by a BOCES or another public school district.
- ☒ None of our students will participate in a full-time virtual instruction program.
- ☐ Other

3. If the district files or has filed a Smart Schools Investment Plan (SSIP) to apply for Smart Schools Bond Act funds, all responses in this survey align with the district's response to any related question(s) in the SSIP.

Yes
