

## **Suggested School Supplies**

Each year we provide a general supply list for our new families. The following is a good general list; each teacher may require a few additional items that you may wish to purchase after the first days of school.

- Backpack
- 1-2 binders (1.5" or 2" wide)
- Tabs for binder
- Loose-leaf paper
- Pencils & Pens
- A highlighter pen
- TI-84 Plus CE Calculator (with trig functions);
- Reusable and well-labeled water bottle
- One 5 subject notebook

Remember to label everything; the amount donated each year from lost and found is significant. Often a labeled lost item will find its way back to the owner.

Each new incoming student will be issued an iPad over the summer. (More information about summer unboxing sessions will come out via email).

The iPad is owned by the school, but loaned to students for their sole use while they are at Jesuit. It is the responsibility of the student to protect the iPad from damage or misuse. The IT Department will be issuing a more specific list of recommended iPad-related supplies.

Students will also be supplied with the appropriate iPad applications (apps) and eBooks for their courses. Some common apps are supplied with the device. eBooks and class-specific apps will be charged as a class fee.

Please contact the IT Department ([ithelp@jesuitportland.org](mailto:ithelp@jesuitportland.org)) if you have any questions regarding the iPad program.
