2026-2027

The Greenwich Public Schools does not discriminate in any programs or activities on the basis of race, color, religion, national origin, gender, sexual orientation or disability.

Greenwich High School Strategic Direction

Mission

Greenwich High School is a collaborative community of learners dedicated to academic excellence, personal integrity and interpersonal responsibility.

Academic Excellence

Students actively participate and take responsibility for their own learning in order to build a strong foundation for future success.

Personal Integrity

Students will demonstrate ethical behavior in their academic and social endeavors and take responsibility for their own actions.

Interpersonal Responsibility

Students contribute to their school and community and form strong relationships that demonstrate character, acceptance, and respect in all interactions.

Goal

To prepare students to function effectively in an interdependent global community with a core body of knowledge and the individual capacities defined in the Vision of the Graduate.

Rigorous

Instructional practices require every student to construct meaning through the active exploration of information and ideas and focused practice of key skills and capacities.

Innovative

Culture and structures within the school explicitly encourage individuals and teams to develop and pursue ideas that will enhance the quality, effectiveness, and meaning of learning experiences.

Responsive

People within the school flexibly interact to ensure the allocation of resources, collaboration of teams, and design of learning experiences that maximize every student's opportunity to learn.

Vision of the Graduate

Greenwich Public Schools are committed to preparing students to function effectively in an interdependent global community. Therefore, in addition to acquiring a core body of knowledge*, all students will develop their individual capacities to:

- Pose and pursue substantive questions
- Critically interpret, evaluate, and synthesize information
- Explore, define and solve complex problems
- Communicate effectively for a given purpose
- Advocate for ideas, causes and actions
- Generate innovative, creative ideas and products
- Collaborate with others to produce a unified work and/or heightened understanding
- Contribute to community through dialogue, service, and/or leadership
- Conduct themselves in an ethical and responsible manner
- Recognize and respect other cultural contexts and points of view
- Pursue their unique interests, passions and curiosities
- Respond to failures and successes with reflection and resilience
- Be responsible for their own mental and physical health

**The core body of knowledge is established in local curricular documents, which reflect national and state standards as well as workplace expectations.*
