

Solana Beach School District
Responsible Use Agreement
(Grades 4-6)

My Technology Agreement

At Solana Beach School District schools, students use technology to enhance the learning experience and help students spark curiosity and creativity. It is essential to develop good technology habits for a successful future in learning and life. Using technology is a privilege, and any privilege comes with responsibility. Here are the expectations for using technology at our school:

Digital Citizenship

Communicate with Respect and Integrity

- I will always communicate truthfully, verify facts before sharing, and post items I create using my own name.
- I will choose kind, supportive, and inclusive words that help others feel valued, safe, and safe from discrimination or harassment.
- I will consider my audience and how my comments, images, or messages might be received globally and locally.

Respect Privacy and Ownership

- I will keep private details, such as full names, locations, contact info, and personal lives, safe and confidential for myself and others.
- I will give full credit to original authors and sources when referencing their work or ideas.
- I will always ask for clear permission before capturing, using, or sharing photos, videos, or media featuring other people.

Practice Healthy Habits

- I will step away from devices and transition to off-screen activities whenever asked by a teacher or trusted adult.

Learning and Curiosity

- I understand that school technology and networks are primarily provided to help support my learning and curiosity.
- I will use technology to learn, organize, and apply new things.
- I will use my device to check information and verify its accuracy.

Personal Responsibility and Safety

- I know that school devices and internet communication tools must be used properly and responsibly.
- If I find inappropriate or harmful content on the internet, I will notify a teacher or a trusted adult.
- I will take care of the school devices and all technology equipment as if they were my own.
- I will respect the district network's security measures and only download apps or content I have permission to access.
- I will only log in to the device or network with my own username and password.

I understand that using any school technology, networks, or school devices is a privilege I am offered when I demonstrate responsible use. I also know that students make mistakes as we are learning something new. If I do something with my device that does not follow this agreement, I will let a teacher or trusted adult know and ask them to help me make it right. If I cannot consistently keep my part of this agreement, I understand that privileges may be removed for a period of time and that I may have additional consequences.
