

The schools shown on this map are current District 11 sites with on-site Certified Academic Language Therapist (CALT) or Certified Academic Language Practitioner (CALP) providers.

Support for students who show indicators of dyslexia is also available across D11 schools through the MTSS process, using evidence-based Tier 2 and Tier 3 intervention programs. Dyslexia exists on a spectrum, and intensive therapy is not always the best fit – your child's school team can help determine the most appropriate level of support.

Tier 2 and Tier 3 programs and supports aligned with the science of reading that are currently in use across District 11 include:

- Heggerty Phonemic Awareness (K, 1, 2)
- Institute for Multi-Sensory Education (IMSE) Orton-Gillingham
- Lexia PowerUp Literacy
- Neuhaus Basic Literacy Skills
- 95% Group Solutions
- Scottish Rite BUILD (K-1)
- SIPPS
- UFLI

Program availability varies by school. Alternate or additional programs require approval through Curriculum and Instruction prior to purchase or implementation.
