July 30, 2026

Dear Parents/Guardians,

Iroquois High School is pleased to offer Chemistry Regents Review Programs for students who will be retaking the August Regents Examination. To best support students, separate review sessions will be offered based on the version of the Chemistry Regents Examination each student is scheduled to take. We strongly encourage your student to attend the review session that corresponds with their exam, as it is designed to reinforce essential course content and help students feel confident and prepared on exam day.

Students who are taking the new Regents Chemistry Examination aligned to the New York State Science Learning Standards (NYSSLS), first administered in June 2026, should attend the review on **Monday, August 17, 2026, from 1:00 p.m. to 4:00 p.m.** The review will be held in **Room 121** at Iroquois High School.

Students who are taking the Regents Chemistry Examination aligned to the Mathematics, Science, and Technology (MST) Learning Standards, administered prior to June 2026, should attend the review on **Tuesday, August 18, 2026, from 1:00 p.m. to 4:00 p.m.** This review will also be held in **Room 121** at Iroquois High School.

During each review session, students will revisit key chemistry concepts, practice effective test-taking strategies, and work through Regents-style questions to strengthen their understanding of the material and prepare for the examination. Students should bring a writing utensil to the review session. All other review materials will be provided.

If your student is unsure which version of the Chemistry Regents Examination they are scheduled to take, please contact the Iroquois High School Student Support Office before the review dates so they can be directed to the appropriate session.

We encourage all students retaking the Chemistry Regents Examination to take advantage of this opportunity. Participation in the appropriate review session will provide valuable preparation and additional support prior to the August Regents Examination.

If you have any additional questions regarding the review program, please contact the Iroquois High School Main Office or Kimberly Ferguson in the Science Department (kferguson@iroquoiscsd.org). We look forward to supporting your student and wish them success on the Regents Examination.

Sincerely,

Iroquois High School
Science Department
