ReasonNoSPEDServices (E3174) and IDEAIndicator (E1717) Data Elements

Data Element Reporting Requirements

DR3

EligibilityDeterminationDate (E1716) indicates the month, day, and year the LEA held the admission, review, and dismissal (ARD) committee meeting about the child's initial eligibility determination for special education and related services and a decision was made and an individualized education program (IEP) was developed and implemented for a child admitted into special education.

IDEAIndicator (E1717) indicates whether or not the student was determined eligible and enrolled in a special education ~~and related services~~program as a result of the eligibility meeting conducted by the admission, review, and dismissal (ARD) committee after a full and individual initial evaluation (FIIE) ~~report and the admission, review, and dismissal (ARD) committee meeting decision.~~is conducted.

True means: Eligible for Special Education, Enrolled, and Receiving Special Education services – child is eligible for special education under the Individuals with Disabilities Education Act (IDEA) and is receiving special education services at the reporting school system.

If IDEAIndicator is "false", must submit *ReasonNoSPEDServices* data element/descriptor.

ReasonNoSPEDServices (E3174) indicates the outcome of the admission, review, and dismissal (ARD) committee meeting after completing the full and individual initial evaluation (FIIE) when the student is determined ineligible or does not enroll in the Local Education Agency (LEA) and receive special education and related services.

ReasonNoSPEDServices Descriptor	Short Description	
01	Ineligible for Special Education	Child: • Did not qualify for special education under the Individuals with Disabilities Education Act (IDEA).
02	Eligible for SPED, Not Receiving SPED, Not Enrolled in Eligible Priv Schl	Child: • Is eligible for special education under IDEA; • Has a parent who did not consent to special education services; and • Is **not** enrolled in an eligible private school.
03	Eligible for SPED, Enrolled in Eligible Private School, with ISP	Child: • Is eligible for special education under IDEA; • Has a parent who did not consent to special education services; • Is enrolled in an eligible private school; and • Has an ISP.
04	Eligible for SPED, Enrolled in Eligible Private School, No ISP	Child: • Is eligible for special education under IDEA; • Has a parent who did not consent to special education services; • Is enrolled in an eligible private school; and • Does **NOT** have an ISP.

A *child enrolled in an eligible private school* is defined as a child enrolled by a parent in a school that meets the criteria for possible educational services through an Individualized Services Plan (ISP) as described in 19 TAC, §89.1096. These children are also sometimes referred to as parentally placed private school children with a disability. Homeschool meets eligibility as a private school only when evidence shows that it incorporates an adopted elementary or secondary curriculum designed to meet basic educational goals, including scope and sequence of courses and formal review and documentation of student progress.

SPEDS Video Camera Request Submission

Background

- HB 2 Section 4.22/SB 568 Section 22 amends TEC §29.022 (q), Video Surveillance of Special Education Settings. (q) The agency shall collect through the Public Education Information Management System (PEIMS) data relating to requests made under this section and actions taken by a school district or open-enrollment charter school in response to a request, including the number of requests made, authorized, and denied.

- TEA has added a new submission to the Special Education Data System Collection, Video Camera Request Submission with three new entities:
  1. LocalEducationAgency
  2. School
  3. New - SPEDVideoCameraRequestExt

2026-2027 Timeline

2026-2027 School Year

For the 2026–2027 school year, all Special Education Video Camera Requests will be submitted in the 2026–2027 SPEDS Video Camera Request Submission.

Promotion Logic

EducationOrganization > LocalEducationAgency promotes if active in AskTED in the current school year.

EducationOrganization > Campus promotes if the campus is active in AskTED in the current school year.

Education Organization > SPED Video Camera Request promotes when SPEDVideoCameraRequestExt.RequestID is not null.

- All data elements within this entity are promoted as reported.

FAQ – Claim Sets Clarification

Which TEA claim sets will contain the SPEDS Video Camera Request entities and descriptors?

The SPEDVideoCameraRequestExt and SPED Video Camera Request descriptors will be added to the following claim sets:

- Read-Only All Resources
- SIS Vendor
- SIS Vendor with Staff Profiles
- SIS/HR Vendor
- SIS/HR/Finance Vendor

FAQ – Report of Student Level Data

Will student data be reported in this collection?

No. There is no student-level data reported as part of this collection.

FAQ – Setting Clarification

Does the term "setting" in DenialReason (C376) descriptor 02 also include special education (SPED) transportation services?

No. The DenialReason (C376) descriptor 02: Student Not 50% or More in an Eligible SPED Classroom or Setting, refers only to instructional environments where the student spends 50% or more of their day. Transportation services, such as SPED bus services, are not included.

FAQ - Operational Date for Existing Camera

Would school systems report a prior year operational date for cameras already installed in classrooms?

No. The data collection for cameras only applies to requests made during the current school year. If a camera is already present in a classroom, any new request for that room would be denied, and no operational date would be required for the existing camera.

FAQ – Camera Request Eligibility

Are only individuals listed in the CameraRequester (C374) descriptor table eligible to submit a special education video camera request?

Yes. Only individuals identified in the CameraRequester descriptor table are authorized to submit a special education video camera request.

FAQ – Multiple Camera Requests Clarification

Can there be more than one descriptor value reported for CameraRequestor (E3168) per campus?

Yes. A campus may report multiple requests, and each request can have a different CameraRequestor descriptor from (C374). However, only one CameraRequestor can be listed on each individual request record.

FAQ – Camera Request Eligibility con't

Can students aged 18 or older submit a camera request on their own behalf?

No. Students are not permitted to submit camera requests on their own behalf.

FAQ – Camera Request During SPED Evaluation

Can a parent submit a camera request while their child is undergoing special education testing?

No. A parent may submit a camera request only after the Admissions, Review & Dismissal (ARD) committee has determined the special education services a student will receive.

FAQ – Data Expectations

Are all school systems expected to submit this data or only those with a request?

Yes. All school systems (districts and charters), are expected to submit the LocalEducationAgency Entity. Each school system must indicate **'true' or 'false'** for the *SPEDSVideoCameraReporting (E3165)* data element to show whether they received any requests for video cameras in special education classrooms.

FAQ – Campus Calendar Data

Will the SPEDS Video Camera Request Submission reference the campus calendar data submitted in PEIMS Summer?

No. The three reported dates within the submission are defined in TEDS as “a school business day,” which includes any day when the campus or district administrative offices are open. There will be no validation check against calendar data to ensure a school business day is reported.

FAQ – TEAL Roles Needed

Will the SPEDS Video Camera Request Submission require additional roles or privileges in TEAL?

No. Access to SPEDS Video Camera Request will be attached to the existing SPEDS Access privilege. The SPEDS Access privilege will grant access to both the SPEDS Summer and SPEDS Video Camera Request submissions.

Key Takeaways

What Matters Most For Successful SPEDS Video Camera Request Reporting

Why It Matters

- Supports state oversight of camera requests
- Ensures transparency and consistency statewide
- Ties camera requests to actions taken by LEAs

How It Fits

- LEA – level Indicator
- Each camera request must be reported..
- CameraStatus indicates whether the camera request has been authorized, denied, or withdrawn.

Key Dates

- **Receiving** a camera request CameraRequestReceivedDate (E3167) is **different** from **Authorizing** CameraStatusDeterminationDate (E3170) a camera request.

What To Report

- Indicate whether any camera requests were received by using CameraRequestReceivedDate (E3167).
- Report each camera request once and reflect the associated final CameraStatus (E3169).

Avoid Errors

- Ensure the reported CameraStatus (E3169) accurately reflects the state of the underlying camera request.

Bottom Line

- The SPEDS Video Camera Request Submission may be new, but the logic is straightforward.
- When reporting a CameraStatus, (E3169) verify that a CameraRequestReceivedDate (E3167) exists.
- Ensure the reported data aligns with the defined business rules.
