HERE: Be here mentally and physically.
APPROPRIATE: Be appropriate in language, behavior, and dress.
NAVIGATE: Navigate your own path.

Community School Update for SY 2025-2026

Check out our additional news posts through ParentSquare.

Grant Focus for This School Year

- **Academic Growth**
 - Math tutor goal: Increase school ISAT scores by 5%.
- **Family and Student Engagement**
 - Provide after-school clubs twice each week.
 - Clubs are available to all students. Students who attend at least 70% of meetings may earn an elective credit toward graduation.
 - Several students were able to earn elective credits by participating in the after-school program.

- Twice a month, we will host a make-and-take class where students prepare dinner to take home for their families. Parents will be invited and encouraged to attend.
- Provide engagement opportunities for families and students, including local business demonstrations and classes on life skills such as changing a tire, completing taxes, filling out job applications, CPR, and babysitting.

Community School Coordinator Update

- Star Wars-themed Teacher Appreciation Week was held during the week of May 4, 2026.
- An advisory meeting was held to discuss Teacher Appreciation Week, prom, and ideas for next school year.
- The after-school club participated in NASA Night at Carberry Elementary, and the event was a great success.

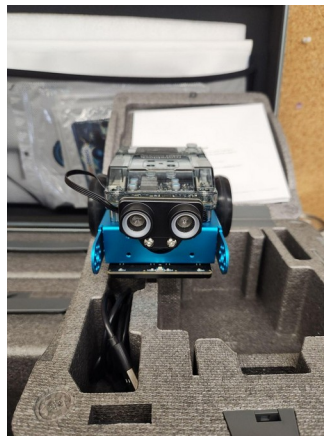

Photo Highlights

NASA Night / after-school club activity

Community engagement and student activities

Robotics and NASA Night learning activity
