Food Service at WCCC

Atrium and Main Campuses both offer a cafeteria that serves breakfast and lunch for all students.

Meal Costs
Breakfast: $2.50
Regular Lunch: $3.85
Mustang Made To Order Lunch: $4.85
A La Carte items are also available and vary in cost by item

To Receive/Purchase Meals: Students will enter their **WCCC student ID** number at the cafeteria cashier to access their account for food items. Funds can be added to a WCCC student's account through PaySchools Central or with the WCCC cafeteria cashier by checks payable to Warren County Career Center or cash.
****Please note that change is not given and all funds presented to the cashier are placed on the student's account.**

Creating A Student Meal Account:
Accounts can be set up by visiting payschoolscentral.com with these steps.

- **If there is not an existing account**, click on Register and follow the prompts, the WCCC student ID will be needed.
- **If there is an existing PayschoolsCentral account from a different school district AND no other students on the account**: log in and completely delete the student and then re-enter the student with the WCCC information. The WCCC student ID will be needed
- **If there is an existing PayForIt account or a PaySchoolsCentral account with additional students not attending WCCC:** WCCC recommends registering for a new account with a different email address than the previously used email address. The WCCC student ID will be needed. For example, if a family has one student at Lebanon and one student at WCCC, an additional account must be set up. PaySchoolsCentral does not support multiple school districts on one account. If you only have one email address, potential solutions include creating a new free email account, or most email providers support sub-addressing or plus email addressing. To do this, users can add "+1" before the "@" sign in their email address.

  For example: JohnSmith@mywccc.org can be changed to JohnSmith+1@mywccc.org. PaySchools will recognize this as a different email account, but users will still receive emails through their regular email account.

If a user adds money to a student's PaySchools account without establishing it as a WCCC account, the funds will be placed with the student's account at the previous school district. WCCC can not access these funds and a request for refund must be filed with that school district.

Free and Reduced Meal Benefits:
Qualifying students are eligible to receive free or reduced breakfasts and lunches at WCCC. Families are encouraged to apply for Free and Reduced Meal Benefits through PaySchools Central. This is the easiest, fastest, and most direct method to apply. After setting up the PaySchoolsCentral account and adding the student, the Free & Reduced Meal Benefit Application can be completed securely on-line. PaySchoolsCentral immediately informs the user of the determination/status, and that information is automatically added to the student's account in the cafeteria. Paper applications are also available upon request in the office. Please note that a new application must be submitted each year and last year's status will only carry over for the first weeks of school before expiring. Also, an application must be submitted to WCCC since applications submitted to home schools are not automatically forwarded to WCCC. Students that qualify for free or reduced benefits may also be eligible for reduced student fees.

Please contact Jackie New at jackie.new@mywccc.org or Kathy Culp at kathy.culp@mywccc.org if you have Food Service or benefit application questions.
WCCC is an equal opportunity provider.
