

WELCOME!

TO

Mrs. Stapleton's Sixth Grade Class!

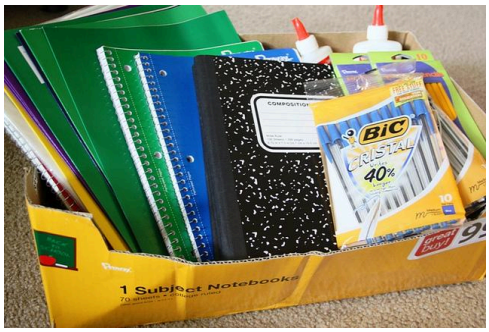

Welcome to Room 21! My name is Mrs. Stapleton, but many of my students call me "Mrs. Stapes." I am excited that you are part of the Class of 2027! I cannot wait to get to know you and I'm looking forward to an awesome school year. Let me tell you a little bit about myself. I have been teaching sixth grade at Antolini since 1998! I live in Barkhamsted with my family. My husband teaches social studies in the middle school at Northwestern. I have a twenty-year-old son, named Brayden (he is entering his junior year at UCONN this month), and a seventeen and a half-year old daughter, named Kylie. She is a senior at Northwestern. I also have two dogs. Murphy is nine. He's a mini labradoodle. Milo is one and he is a mini goldendoodle. Much of my summer has been spent traveling and spending time with my family. We went to Disney World in July and also visited colleges with my daughter. When I am home, I spend my time reading, cleaning, listening to Taylor Swift, and enjoying time with family and friends. Some of my favorite things are: anything related to Disney, Taylor Swift, lilacs, the beach, traveling, books (you will see evidence of this in our classroom), Target, coffee, Hey Dude shoes, online shopping, math, science, and so much more. I can't wait to hear about all of your favorites.

Sixth grade is a very exciting year for students at Antolini. You will be the leaders of the school and all of the younger students will look up to you. You will also learn about many different topics. In science, we will study weather, geology, energy, and the living environment. Social Studies starts with geography and the Civil War and moves all the way through World Wars 1 and 2. In math, you will start with geometry, move into ratios and percentages, and even study algebra! Language Arts will cover Greek mythology, design thinking, and the accomplishments of remarkable people during the Space Race. You'll read books such as, The Lightning Thief, The Boy Who Harnessed the Wind, and Hidden Figures. Those are just the academic subjects. In other areas, you will learn much, much more! Be ready to work hard and have fun!

Again, I look forward to seeing you at the start of the school year. Enjoy the rest of your summer. I can't wait to get to know you and hear about all of your summer adventures!

See you soon!

Mrs. Stapleton

Sixth Grade Team
