

FUTURE READY PARK HILL

BUILDING SUCCESSFUL FUTURES

In Fall of 2023, Park Hill announced Future Ready Park Hill, an initiative focused on helping students connect learning to their future. Future Ready Park Hill is meant to highlight future-ready opportunities for students, monitor student participation, and provide recognition for student success.

Starting in eighth grade, students and families are introduced to Future Ready Assets, industry and college-level credentials or distinctions that make students more marketable after graduation. By the year 2030, 100% of Park Hill seniors will graduate with a career and/or college Future Ready Asset.

FUTURE READY ASSETS

College Ready Park Hill

College Ready Assets:

- Nine or more hours of college credit*

- Internship*
- Client Connected Project*
- Entrepreneurship Experience*
- Industry Recognized Credential*
- Work Study
- Qualifying ASVAB Score
- Approved plan for post-secondary transition

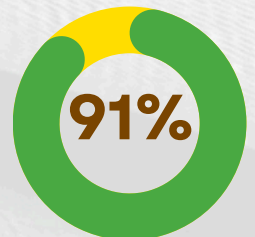

*Kauffman Foundation-recognized Market Value Assets

HOW DO WE MEASURE SUCCESS

Park Hill has a data collection process in place that measures student college and career readiness. This measurement process is called the Graduate Profile Index. Within the Graduate Profile Index data collection, Future Ready Asset attainment is populated based on course enrollment.

As a part of the ICAP process, all students starting in eighth grade select a Future Ready Asset that they plan to attain during high school. Each year, this plan is revisited with the school counselor.

**Ninety-one percent of
2026 Park Hill graduates
achieved a Future
Ready Asset**
