MyKidsSpending

MyKidsSpending (MKS) is a convenient way to ensure students are enjoying tasty and nutritious food each and every school day.

MyKidsSpending.com has its perks!

• Students never have to carry cash!

• Students use Dining Dollars from their declining balance account to checkout at the cashier.

• Parent/guardian can use their email address and a unique password to access their MyKidsSpending account. Parents with multiple children in a school, and even across schools that use MKS, can manage all of their children's accounts through their one MKS login.

• Parent/guardian can easily access account information to view past purchases, add funds or set the declining balance account to auto-reload.

• Parent/guardian will receive an email alert if their student's account is low on funds.

• End-of-year remaining balances can be rolled over to the next school year or refunded to graduating seniors.

Here's how it works:

• Our dining services technology partner, Odin Inc., will facilitate meal plan enrollment through their website MyKidsSpending.com.

• For new/incoming students, parent/guardian will receive an email with temporary login credentials to set up their account. Each student will be issued a Dining Service ID Number. With that, you can sign up for a meal plan and deposit funds into your student's declining balance account.

• For returning students, visit MyKidsSpending.com to add funds to your existing account.

• Each student's account will be linked to their school ID, which they will use to swipe or scan at checkout.

• Additionally, the MyKidsSpending app (available for download from your mobile device's app store) makes it easy to add funds to your account, either by depositing funds from a U.S. bank account or by paying with Apple Pay (all from within the app).

• For more information, link to MyKidsSpending FAQs here.
