I. Introduction

The Briarcliff Manor Board of Education (“Board”) is committed to providing a safe and orderly school environment where students may receive, and district personnel may deliver, quality educational services without disruption or interference. The District is committed to:

- Ensuring each student is healthy, safe, engaged, supported, and challenged;
- Helping students develop self-discipline and social and emotional growth; and
- Guiding students in improvement and correction of inappropriate, unacceptable and unsafe behaviors.

Responsible behavior by students, teachers, other district personnel, parents and other visitors is expected, as it is essential to achieving this goal.

The District actively promotes equity, cultural competence, inclusion and academic readiness. We promote a culturally and ethnically sensitive environment where each student is valued equally and where diversity and inclusivity is the norm. In support of this culture of equity and fairness the Briarcliff Manor Union Free School District (“District”) has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, acceptance, honesty, and integrity. In addition, the District is dedicated to creating an environment that promotes student success, balanced with student rights and responsibilities. All students have the right to a safe, inclusive, and equitable education that meets their individual needs. Students share in the responsibility of establishing and maintaining a safe school environment.

All persons on school property must behave in a safe manner. When required by the District during an outbreak of a communicable disease, this may include maintaining appropriate distance from others and wearing face coverings and other personal protective equipment

The Board recognizes the need to clearly define the District’s expectations for acceptable conduct on school property and at school functions, to identify the consequences of unacceptable conduct, and to ensure that discipline, when necessary, is administered promptly and fairly, keeping in mind the goal is not to penalize, but to teach students there are consequences to actions and choices. To this end, the Board adopts this Code of Conduct (“Code”).

Unless otherwise indicated, this Code applies to all students, school personnel, parents/guardians (“parents”), and other visitors when on school property or attending a school function, whether on or off school property.

VI. Academic Conduct

To realize Briarcliff's vision of educating all students for personal fulfillment and active and responsible engagement in a global community, it is the District's obligation to ensure that our students learn that

academic integrity is the moral and ethical foundation of their educational experience and their future endeavors. In order to ensure that academic integrity is protected and upheld, the District will not tolerate academic misconduct of any kind.

In subsequent academic professional and social environments, students will be expected to operate with integrity honor, and trust. These principles should be instilled in the elementary school and reinforced throughout the educational program. Teachers and parents need to work together to ensure that students understand the seriousness of all forms of academic misconduct, including, but not limited

to cheating, plagiarism, inappropriately copying another student's work, altering records or academic materials, falsifying data or citations, assisting another student(s) in any of these activities, and other incidents of academic misconduct. These actions not only invalidate students' accomplishments, but also diminish confidence in the school and in school-wide assessments and achievements.

There will be consequences for academic misconduct commensurate with the age of the student, the nature and magnitude of the act, and the number of offenses. All offenses will result in consequences as indicated in this Code of Conduct. These consequences will be for cases of *intentional* violations, where students knowingly appropriate or present another's work as their own in a testing or assignment situation or cheat in any way. Cases of inadvertent cheating or plagiarism due to misunderstanding of instructions or lack of knowledge of proper citation standards or form will be handled at the teacher's discretion in consultation with the principal. In addition, the role and responsibility of teachers in reporting violations will be emphasized as part of the District's Code. Parents will be notified in every instance of alleged academic misconduct. Building administrators will enforce the disciplinary process and report incidents to the Board of Education. The District is committed to supporting reliable reporters of violations and will thoroughly investigate all reported violations, protecting due process rights of those who are the subject of investigation.

As stated above, examples of academic misconduct include but are not limited to:

1. Plagiarism.
2. Cheating.
3. Copying another student's work inappropriately.
4. Altering records or academic materials.
5. False Citation.

7. Assisting another student(s) in any of the above actions.
8. Other incidents of academic misconduct.

A. Generative AI Guidelines

Philosophy: The Briarcliff Manor School District thoughtfully employs innovations like generative artificial intelligence ("AI") models in lesson planning, teaching, learning, professional development, and the effective use of resources. Therefore, it is imperative that both students and staff are cognizant of what constitutes responsible use of generative AI and associated tools. The following are guidelines for members of the Briarcliff community who use, or are interested in using, AI in pursuit of Briarcliff Manor's school and work-related tasks.

This philosophy relates to generative AI using large language models. Generative AI describes algorithms, such as ChatGPT or Microsoft CoPilot and other large language models, that can be used to create new content, including text, code, and simulations. Generative AI is a rapidly evolving new technology. As such, it is anticipated that this philosophy will be updated periodically. **Student use of generative AI is further structured by the District's FAIR Guidelines. Teachers use these guidelines to set expectations for each student assignment. See the FAIR Playbook or the student, teacher, or family Guides for current FAIR Level definitions.**

Guidance for Students:

- Use of AI, in any form, must be in alignment with academic and behavioral expectations set forth in this Code of Conduct.
- **Follow the FAIR Level your teacher sets for each assignment.**
- Teachers/courses may have additional requirements and guidance for citing the use of generative AI output and for attributing AI created content. .
- Treat the use of AI as you would treat assistance from another person or source. For example, if it is unacceptable to have another person substantially complete a task like writing an essay, it is also unacceptable to have AI complete the task.
- Be transparent about the use of AI. Disclose and cite when a work product was created wholly or partially using an AI tool, in the format your teacher specifies. **Students are accountable for their use of content through AI and should be aware of the potential for misinformation and bias,** and should verify AI-generated information against a reliable source.
- Do not share personal or sensitive data and do not share identifiable student/faculty data when using AI tools.
- When in doubt about the use of AI in completing school related assignments, ask your teacher or advisor for clarification.

Misuse of AI by students may be considered as a form of Academic Misconduct.

Guidance for Faculty:

- Use of AI should always align with this Code of Conduct.
- For every AI-related assignment, set and communicate the FAIR Level, name the district-approved tool(s) permitted, and specify how students must disclose their AI use. If a FAIR level has not been communicated, students may not be held accountable for AI use choices.
- Create opportunities for students to learn about the potential benefits and problems associated with using AI.
- Expectations may vary between courses and faculty members, it is important therefore to provide students with clear guidelines regarding the appropriate use of AI when completing assignments.
- Teach students how to properly cite AI in their assignments.
- Disclose to students when AI detection software will be used in the course. Please note that AI text detectors commonly produce false positives and therefore may not be used as the sole basis of determining inappropriate use. Have a discussion with students when you suspect the use of uncited AI in their work. Consider asking students questions about their work to confirm their understanding.
- When using AI, faculty members are responsible for validating the reliability and accuracy of generated content. Faculty members are accountable for their use of content through AI and should be aware of the potential for misinformation and bias.
- Be transparent about the use of AI. Disclose and cite when a work product was created wholly or partially using an AI tool.

- Do not share personal or sensitive data and do not share identifiable student/faculty data when using AI tools that have not been approved by the district.

DEFINITIONS OF ACADEMIC MISCONDUCT

All offenses occurring at the middle school or high school will accumulate until the student graduates from that school. Teachers will report all incidents of academic misconduct to the principal or assistant principal electronically via eschool or other student management system. The following consequences will be applied in those cases where there is knowing intent.

Todd Elementary School

Each student in Todd School is expected to be a responsible class citizen. Good citizenship includes demonstrating proper conduct as well as being honest and truthful when taking tests, working on assignments, and writing reports.

Students are on their honor to do their own work both in and out of class unless otherwise directed by the teacher. Examples of academic dishonesty that are not acceptable at the elementary level are:

- copying another student's work
- cheating on a test (getting or giving answers from another student, or using prohibited books or notes)
- handing in a report written by another person
- handing in a research paper that is copied directly from the Internet or other source.

Demonstrating academic dishonesty can lead to a range of possible consequences depending on the student's age and nature of the offense including, but not limited to:

- Verbal warning
- Parent notification (verbal and/or written)
- Student written reflection
- Conference with student, parents, and administrator
- Academic consequence (e.g., failure or reduced grade on the exam or assignment)

Briarcliff Middle School

Second offense - All of the above as well as written reflection, and referral to school guidance team.

Third offense - All of the above as well as suspension from participation in after-school activities.

Briarcliff High School

High School students are expected to comply with the principles of honesty, integrity, honor, and trust in all academic endeavors.

Consequences:

Demonstrating academic dishonesty in any way may lead to the following consequences:

First offense – Zero or reduced grade for the assignment or test, not a “droppable” grade, parent notification and meeting with the principal or assistant principal. In addition, the following may be imposed: suspension of eligibility for honor societies or other student distinctions, such as distinguished students of the month, for up to one academic year (10-month period, excluding the summer months).

Second offense – All of the above, as well as temporary suspension extra-curricular activity privileges, referral to support staff.

Third offense - All of the above, as well as permanent removal from honor societies, referral to support staff, withdrawal from consideration as Valedictorian or Salutatorian or other honors and awards.

I. Prohibited Student Conduct

The Board expects all students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, District personnel and other members of the school community, and for the care of school facilities and equipment with the goal of making school a community free of violence, intimidation, bullying, harassment and discrimination.

The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their mistakes or misbehavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on educating students so that they may learn from their behavior and grow in self-discipline.

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that is viewed as fair and impartial by the student. Therefore, before seeking outside assistance, teachers will first attempt to create a change of behavior in the classroom.

Disciplinary action will be firm, fair, and consistent in order to be the most effective in changing behavior. The rules of conduct listed below are intended to focus on safety and respect for the rights and property of others. Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the consequences for their behavior.

Students are required to conduct themselves on the bus in a manner consistent with established standards for classroom behavior. Conduct such as excessive noise, pushing, shoving, bullying, and fighting will not be tolerated.

G. Engage in any form of Academic Misbehavior

Examples of academic misbehavior include, but are not limited to:

3. A student may be subject to discipline for conduct constituting a crime that is engaged in off-school premises or at non-school sponsored activities to the extent that the Superintendent of Schools and/or Board of Education reasonably believes that the continued attendance in school of the student would constitute an endangerment to the health, safety, welfare, or morals of the student and/or others in our schools.
4. A student may be subject to discipline for off-campus conduct that does not involve criminality that the Superintendent of Schools and/or Board of Education reasonably believe has a nexus to the educative process, i.e., student-student, student-personnel interactions that foreseeable would have a detrimental or disruptive effect upon school programs or activities.

II. Reporting Violations

All students are expected to promptly report violations of the Code to a teacher, guidance counselor, nurse, the building principal or their designee. Any student observing a student possessing a weapon, alcohol, or illegal substance on school property or at a school function or engaging in any violent action shall report this information immediately to a teacher, the building principal, the principal's designee, or the Superintendent.

Students are prohibited from knowingly making false statements or knowingly submitting false information to school staff during a disciplinary process.

All District staff that are authorized to impose disciplinary consequences are expected to do so in a prompt, fair and lawful manner. District staff that are not authorized to impose disciplinary consequences are expected to promptly report violations of the Code to their supervisor who shall, in turn, impose an appropriate disciplinary consequence, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate consequence.

Any weapon, alcohol or illegal substance found shall be confiscated immediately, if possible, and secured, followed by notification to the parent of the student involved and the appropriate disciplinary consequence if warranted, which may include long-term or permanent suspension and referral for prosecution.

The building principal or their designee will confer with the Superintendent of Schools and District legal counsel immediately and, where appropriate, immediately notify the appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the principal or their designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on the same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the Code and constituted a crime.

III. Disciplinary Consequences, Procedures and Referrals

The District believes in an approach to discipline that recognizes developmental differences based on age and grade level.

While historically, the discipline of students in schools has been largely punitive, understanding discipline as a “teachable moment” is fundamental to a positive approach to discipline with the ultimate goal of teaching pro-social behavior. Therefore, the Board authorizes and encourages restorative justice practices to be employed where appropriate, such as using conflict resolution, restitution to those harmed, and group, classroom, community and re-entry circles to address misbehaviors with the ultimate goal of teaching pro-social behavior. This approach seeks concurrent accountability and behavioral change.

The main principles of restorative justice are valuing and restoring relationships, repairing the harm done to affected parties, respecting others' opinions, and reintegrating into the school community.

In the application of restorative principles, the process is always voluntary for the students. Any parent (or student over the age of 18) can request to go to the traditional disciplinary route and not participate in the restorative process. This may happen at any time during the process. Similarly, the District may revert to the traditional disciplinary route if a student is unwilling to accept responsibility for their actions, and is not demonstrating willingness to make amends.

Consequences and, if needed, discipline are most effective when they deal directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Consequences and disciplinary action, when necessary, will be firm, fair, and consistent to be the most effective in changing student behavior. In determining the appropriate disciplinary consequence, school personnel authorized to impose disciplinary consequences will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances, which led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers and/or others, as appropriate.
6. Other relevant circumstances.

As a general rule discipline will be progressive. This means that a student's first violation will usually merit a lighter penalty than subsequent violations. However, District staff are empowered to utilize the consequence most reasonably calculated to ensure the student learns from their behavior and engages in more pro-social behavior in the future.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this Code for disciplining students with a disability or presumed to have a disability. A student identified as having a disability shall not be disciplined for behavior related to their disability, unless the discipline is consistent with the student's individualized education plan (IEP).

A. Consequences

Practices which allow educators to address disciplinary matters as opportunities for learning instead of punishment are expected by the Board, rather than a reliance on increasing punitive measures. When choosing interventions and consequences of a student's behavior, teacher, administrators, and staff must balance the District's dual goals of eliminating school disruptions and maximizing student instruction time.

Students who are found to have demonstrated inappropriate behavior may be subject to the following interventions and consequences, either alone or in combination. The school personnel identified after each consequence are authorized to assign that consequence consistent with the student's

right to due process.

In conjunction with the list below, administration (with supports from counselors) can employ conflict resolution meetings, restitution to those harmed, and group, classroom, community and/or re-entry circle. Except in limited circumstances, restorative justice practices will be considered first in dealing with disciplinary issues.

Should a parent or student over the age of 18 opt-out of participating in the restorative practices, or if restorative practices have not been effective with the student in question, the list below will be utilized to determine consequences.

1. Verbal warning, teacher/student conference, parent contact, in-class time out, brief time out of class, loss of classroom privileges - any member of the District staff
2. Written warning - guidance counselors, teachers, assistant principal, principal, superintendent, coaches
3. Written notification to parent - guidance counselors, teachers, assistant principal, principal, superintendent, coaches
4. Detention - teachers, assistant principal, principal, superintendent
5. Suspension from transportation - director of transportation, assistant principal, principal, superintendent
6. Suspension from athletic participation - coaches, assistant principal, principal, superintendent
7. Suspension from school functions including social or extracurricular activities (includes senior trip, the prom etc.) - activity director, assistant principal, principal, superintendent
8. Suspension of other privileges – assistant principal, principal, superintendent
9. In-school suspension – assistant principal, principal, superintendent
10. Removal from classroom for being disruptive or interfering with the teacher's authority over the class - teachers
11. Other removal from the classroom - assistant principal, principal
12. Short-term (five days or less) suspension from school – principal, assistant principal as designated acting principal in absence of the principal, superintendent, Board
13. Long-term (more than five days) suspension from school - superintendent, Board
14. Permanent suspension from school - superintendent, Board

B. Procedures

The amount of due process a student is entitled to receive before a consequence is imposed depends on the consequence being imposed. In all cases, regardless of the consequence imposed, the school personnel authorized to impose the consequence must inform the student of the alleged inappropriate behavior and must investigate, to the extent necessary, the facts surrounding the alleged misbehavior. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary consequence in connection with the imposition of the consequence.

Students who are to be given consequences other than a verbal warning, written warning or written notification to their parents are entitled to additional rights before the consequence is imposed. These additional rights are explained below.

1. Detention

Teachers, assistant principals, principals, and the superintendent may use after-school or in-school detention as a consequence for student misbehavior in situations where removal from the classroom or suspension would be inappropriate. Detention will be imposed as a consequence only after the student's parent has been notified to confirm that there is no parental objection to the consequence and the student has appropriate transportation home following detention.

2. Suspension from transportation

If a student does not conduct themselves properly on a bus, the bus driver is expected to bring such misbehavior to the building principal's attention. Students who continue to exhibit misbehavior may have their riding privileges suspended by the building principal or the superintendent or their designees.

In such cases, the student's parent will become responsible for seeing that their child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance because the student is unable to find alternate transportation, the District will provide the student with the additional due process rights explained herein for a short or long term suspension.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, in all cases, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the penalty involved.

3. Suspension from athletic participation, extra-curricular activities, and other privileges.

Extra-curricular and co-curricular activities, and school functions (including dances, prom, and graduation) are privileges, not rights. A student subjected to a suspension from athletic participation, school functions, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the consequence involved.

4. In-school suspension

The Board recognizes the schools must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building assistant principals, principals, and the superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school suspension." The in-school suspension teacher will be a certified teacher.

A student who receives an in-school suspension will be provided continued educational programming and therefore is not entitled to a full hearing pursuant to Education Law §3214.

However, the student and the student's parents will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the consequence involved.

5. Teacher removal of disruptive students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques.

Teachers will first use interventions aimed at teaching appropriate and responsible behaviors so students can learn and demonstrate safe and respectful academic, social and emotional behavior. Examples of these include using affective statements, using affective questions, establishing rapport with students, giving positive directives that state expectations, and giving positive and specific feedback, etc.

On occasion, a student's behavior may become disruptive. For purposes of this Code, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority

occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.

A classroom teacher may remove a disruptive student from class for up to two days. The removal from class applies to the class of the removing teacher only.

If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why they are being removed and an opportunity to explain their version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why they were removed from the classroom and give the student a chance to present their version of the relevant events within 24-hours.

The teacher must complete a District-established Disciplinary Removal form and meet with the principal or designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.

Within 24 hours after the student's removal, the principal or another district administrator designated by the principal must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that they have the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone or email if the school has been provided with a telephone number(s) or email for the purpose of contacting parents.

The principal will require the teacher who ordered the removal to attend the informal meeting except in unusual circumstances. If, at the informal meeting, the student denies the charges, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.

The principal or designee may overturn the removal of the student from class if the principal finds any of the following:

1. The charges against the student are not supported by substantial evidence.
2. The student's removal is otherwise in violation of law, including the District's Code.
3. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

The principal or designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal meeting if a meeting is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the earlier of the principal making a final determination, or the period of removal expiring.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until they are permitted to return to the classroom.

Each teacher must keep a complete log (on a District provided form) for all cases of removal of students from their class. The principal must keep a log of all removals of students from class.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher will remove a student with a disability unless the teacher has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

6. Suspension from school

Suspensions will be limited to students who pose an immediate or ongoing threat to oneself or others, or are repeatedly substantially disruptive, or for whom restorative practices have not been effective. Suspensions will be used to the minimum degree necessary to promote improved student behavior and maximize student attendance.

Suspension from school is a severe consequence which may be imposed only upon students who are severely insubordinate, disorderly, violent or disruptive, or whose conduct otherwise poses a threat to or endangers the safety, morals, health or welfare of others.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the Code. All recommendations and referrals will be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report will be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

Students who participate in restorative practices ending in a restorative conference and written agreement may be permitted to return to school sooner than those who do not. Early return is entirely at the discretion of the District.

a. Short-term (5 days or less) suspension from school.

When the superintendent, principal, or acting principal in the principal's absence (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misbehavior, the suspending authority must provide an explanation of the basis for the proposed suspension. In addition, the suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension or to immediately suspend at the last known address for the parents. Where possible, notice should also be provided by telephone or email if the school has been provided with a telephone number(s) or email for the purpose of contacting the parents.

The written notice will provide a description of the charges against the student and the incident for which suspension is proposed or immediately imposed and shall inform the parents of the right to request an immediate informal conference with the principal and their right to question complaining witnesses. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents, If the parents have difficulty understanding the English language, they may request the charges and other communications in their dominant language. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference will take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference will take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of their decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. Only final decisions of the superintendent may be appealed to the Commissioner of Education ("Commissioner") within 30 days of the decision.

b. Long-term (more than 5 days) suspension from school.

When the superintendent or building principal determines that a suspension for more than five days may be warranted, they must give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing, the student shall have the right to be represented by counsel, the right to question witnesses against them, and the right to present witnesses and other evidence on their behalf. The superintendent may personally hear and determine the proceeding or may, in their discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before them. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations to the superintendent as to the appropriate measure of discipline. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof.

An appeal of the decision of the superintendent may be made to the Board of Education that will make its decision based solely upon the record before it. All appeals to the Board of Education must be in writing and submitted to the District clerk within 30 days of the date of the superintendent's decision, unless the parents can show that

extraordinary circumstances precluded them from doing so. The Board may adopt, in whole or in part, the decision of the superintendent. Final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

c. Permanent suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

d. Procedure after suspension

The Board of Education may condition a student's early return from a suspension on the student's voluntary participation in a restorative conference, reentry circles, counseling or specialized classes, such as anger management or dispute resolution. The Board retains discretion in offering this opportunity. If and when the student and/or parent agree to this option, the terms and conditions shall be specified in writing. However, if the student violates the agreed-upon terms and conditions within a certain time period, the unserved portion of the suspension may be re-imposed.

C. Minimum Periods of Suspension

1. Students who bring a firearm or weapon to school or possess a firearm or weapon in school.

Any student found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The Superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the suspension, the Superintendent may consider the following:

1. The student's age.
2. The student's grade in school.
3. The student's prior disciplinary record.
4. The superintendent's belief that other forms of discipline maybe more effective.
5. Input from parents, teachers and/or others.
6. Nature of the offense.
7. Other relevant circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing or possessing a weapon to on school property.

Any student who is found to have committed a violent act, other than bringing a firearm or weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed consequence is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal meeting given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the consequence, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of the educational process or who repeatedly substantially interfere with the teacher's authority over the classroom.

Any student who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be suspended from school for at least one day. For purposes of this Code, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by a teacher(s) pursuant to Education Law §3214(3-a) and this Code on four or more occasions during a semester. If the proposed consequence is the minimum one-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed consequence exceeds five days of suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum one-day suspension on a case-by-case basis. In deciding whether to modify the consequence, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

4. Use and/or possession of drugs and/or alcohol on school grounds, at school-sponsored activities and events, on or off school grounds, or on school-sponsored trips.

Any student who is under the influence of, or who uses, possesses, consumes, sells, distributes or exchanges alcoholic beverages or illegal or controlled substances as defined in Public Health Law Section 3306 or synthetic drugs whether specifically illegal or not, on school grounds or at off-campus school related events, including school-sponsored trips, will be suspended out of school for at least five days. (It is understood that in cases where prescription medications that are controlled substances might be required for students' use, the District's medication policy must be followed through the health office of the schools. Similarly, all over-the-counter medications must be brought to the nurse's office and monitored by the nurse.)

If the proposed consequence is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed consequence

exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the suspensions on a case-by-case basis. In deciding whether to modify the consequence, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

D. Referrals

1. Counseling

The Guidance Office shall handle all referrals of students to counseling.

2. Person in Need of Supervision (PINS) Petitions

The district may file a PINS petition in Family Court on any student under the age of 18 who demonstrates that they require supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct which makes the student ungovernable or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses illegal or controlled substances in violation of the Penal Law. A single violation of the Penal Law will be a sufficient basis for filing a PINS petition.
- d. Engaging in prostitution in violation of Penal Law §230.00 (engaging or agreeing or offering to engage in sexual conduct with another person in return for a fee).
- e. Appearing to be a sexually exploited child under Social Services Law §447-a(1)(a), (c), or (d), but the student must consent to filing the PINS petition.
- f. For students with disabilities, a CSE meeting will be held, and a manifestation determination will be made before filing a PINS petition.

For items 'a' and 'b' above, when filing the petition, the District must describe the diversion efforts it has undertaken or services provided to the student, and the grounds for concluding the allegations cannot be resolved without the petition.

3. Juvenile Delinquents and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court and to appropriate enforcement authorities.

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student at least 13, 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42).

The superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status under Criminal Procedure Law §1.20(42) to the appropriate law enforcement authorities.

IV. Alternative Instruction

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the District will take immediate steps to provide alternative means of instruction for the student. Students with disabilities will receive alternative instruction in accordance with their Individual Education Programs (IEPs). The Board of Education expects students, administrators, teachers, and parents to make every effort to maintain student academic progress in the event of removal or suspension, and support student re-entry to the classroom at the conclusion of the disciplinary action.

V. Discipline of Students with Disabilities

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities who violate this code of conduct and/or to temporarily remove a student with disabilities address disruptive or problem behavior that is substantially likely to result in injury to the student or to others. The Board expects that this will be a sparingly used option and staff will employ restorative practices, such as conflict resolution meetings, restitution to those harmed, and group, classroom or community circles, as appropriate, for a particular student. Restorative justice practices will be considered first in dealing with disciplinary issues, as long as the student with disabilities is able to meaningfully participate in the process, and such practices are allowable under their IEP.

The Board also recognizes that students with disabilities deemed eligible for special education services under the IDEA and Article 89 of New York State Education Law enjoy certain procedural protections that school authorities must observe when they decide to suspend or remove from school or class. Under certain conditions those protections extend, as well, to students presumed to have a disability for discipline purposes.

The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This Code affords students with disabilities and students presumed to have a disability for discipline purposes, who are subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

A. Authorized Suspensions or Removals of Students with Disabilities

1. For purposes of this section of the Code, the following definitions apply.

A "suspension" means a suspension pursuant to Education Law § 3214. A "removal" means

a removal for disciplinary reasons from the student's current educational placement other than a suspension, a change in the placement to an interim alternative educational setting (IAES) by a superintendent for behavior involving weapons, illegal drugs, or controlled substance and change in placement to an interim alternative educational setting ordered by an impartial hearing officer because the student poses a risk of harm to themselves or others.

"Interim alternative educational setting" (IAES) means a temporary educational placement, other than the student's current placement at the time the behavior precipitating the IAES placement occurred for a period of up to 45 school days recommended by the CSE, that enables the student to continue to progress in the general curriculum, as well as to continue to receive those services and modifications set forth on the student's current IEP, that will enable the student to meet the goals set out in such IEP, and include services and modifications, including, if appropriate, a functional behavior assessment and behavioral intervention plan, to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

2. School personnel may order the suspension or removal of a student with a disability from their current educational placement as follows:
 - a. The Board, the superintendent, the district (BOCES) superintendent or a building principal, who are authorized to suspend students under the Education Law, may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - b. The superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.
 - c. The superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misbehavior, as long as the removals do not constitute a disciplinary change of placement.
 - d. The superintendent may order the placement of a student with a disability into an IAES, another setting, or suspension for a period in excess of 10 consecutive school days if the manifestation team determines that the student's behavior was not a manifestation of the student's disability. In such an instance, the superintendent may discipline the student in the same manner and for the same duration as a non-disabled student.
 - e. The superintendent may order the placement of a student with a disability in an IAES to be determined by the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 school days, if the student (1) carries or possesses a weapon to school or at school, on school premises, or to or at a school function, (2) the student engages in conduct involving "serious bodily injury" while at school or at a school function, or (3) the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.

- 1) "Weapon" means the same as "dangerous weapon" under 18 U.S.C. §930(g) (w) which includes "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except [for] a pocket-knife with a blade of less than 2 ½ inches in length." While a pocket-knife with a blade of less than 2 ½ inches in length is not a weapon for purposes of Commissioner's Regulation §201.7, the student will, however, be subject to discipline under the Code of Conduct, including suspension from school.
 - 2) "Controlled substance" means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.
 - 3) "Illegal drugs" means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
 - 4) "Serious bodily injury" means bodily injury which involves a substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss or impairment of the function of a bodily member, organ or mental faculty.
3. Subject to specified conditions required by both federal and state law and regulations, the Board of Education may initiate a "dangerousness" impartial hearing. An impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 school days at a time, if maintaining the student in their current educational placement is substantially likely to result in injury to the student or others. This authority applies whether or not the student's behavior is a manifestation of the student's disability.

B. Change of Placement Rule

1. A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:
 - a) For more than 10 consecutive school days or
 - b) For a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
2. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, serious bodily injury, illegal drugs or controlled

substances.

C. Special Rules Regarding Suspension/Removal of Students with Disability

1. The District's CSE shall:

- a) Conduct functional behavioral assessments to determine why a student engages in a particular behavior and develop or review behavioral intervention plans whenever the District is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from their current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.

If one or more members of the CSE believe that modifications are needed, the school District shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the CSE determines necessary.

- b) Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made by the Superintendent of Schools to place a student in an IAES either for misconduct involving weapons, serious bodily injury, illegal drugs or controlled substances or a decision is made by an impartial hearing officer to place a student in an IAES in a dangerous situation, or a decision is made by the Board, Superintendent of Schools or building principal to impose a suspension that constitutes a disciplinary change in placement.

2. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the District is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the District is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

- a) The superintendent, building principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
- b) A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either:

- conducted an individual evaluation and determined that the student is not a student with a disability, or
- determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the District which can include suspension.

3. The District shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, serious bodily injury, illegal drugs or controlled substances or because maintaining the student in their current educational setting is substantially likely to result in injury to the student or others, or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.
4. The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal meeting available to parents of non-disabled students under the Education Law and this Code.
5. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this Code.
6. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive school days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.
7. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations

incorporated into this Code.

D. §504/ADA Disability

For a student solely with a disability under §504 of the Rehabilitation Act of 1973 ("§504")/Title II of the Americans with Disabilities Act (hereinafter referred to as the "ADA"), the §504 multi-disciplinary committee must make a determination whether the conduct underlying the charges was a manifestation of the student's disability.

- If a nexus is found between the disability and the conduct, no additional discipline shall be imposed, and the record of discipline imposed to date shall be expunged.
- If no nexus is found, yet a disability is indicated, or has been identified, discipline may be imposed upon remand to the §3214 hearing officer. A change in placements i.e., a suspension, removal, or transfer in excess of ten (10) school days, must be preceded by notice and an evaluation conducted by the §504 team.
- Students with a recognized §504/ADA disability who are known to be currently engaged in the illegal use of drugs or alcohol or who are found to be using or in possession of alcohol or drugs may be disciplined, regardless of their disability status, in the same manner and to the same extent as non-disabled students.

E. Expedited Due Process Hearings

1. An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this Code, if:
 - a. The District requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in their current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in their current educational placement during such proceedings.
 - b. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
1. During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the District agree otherwise.
2. If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in

placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES, by a hearing officer in an expedited due process hearing where the District maintains that it is dangerous for the student to remain in their current educational placement.

3. An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, they must mail a written decision to the District and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

F. Referral to Law Enforcement and Judicial Authorities In accordance with the provisions of IDEA and its implementing regulations:

1. Consistent with its authority under applicable law and regulations, the District may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are reported in accordance with the Family Educational Rights and Privacy Act (FERPA) and transmitted for consideration to the appropriate authorities to whom a crime is reported.

VI. The Dignity Act

The District is committed to providing an educational environment that promotes respect, dignity and equality in accordance with The Dignity Act, and creates and maintains high behavioral standards and expectations.

All students have the right and responsibility to attend and participate in school regularly, be respectful and considerate of others and follow the Code of Conduct in school buildings, on school grounds, on school buses, field trips, and at all other school functions and events. Students are expected to treat others as they would like to be treated. All students have the right to feel safe at school, to grow and learn without worry or fear of physical or emotional harm.

To that end, the administrators, faculty, staff and students will participate in activities designed to support a school climate of caring and respect, and to proactively prevent discrimination, harassment, and bullying, including cyberbullying. These developmentally appropriate activities are designed to foster an acceptance and understanding of differences, provide alternative behaviors and responses, and build the capacity to prevent and reduce bullying.

All students have the responsibility to treat each other with caring and respect. No student shall be treated differently or unfairly because of actual and/or perceived differences. This includes saying hurtful words and/or doing hurtful things either in person, on a computer or other electronic device, or in any other way. Students who feel uncomfortable and/or unsafe because of the words or actions of others should immediately speak with a teacher, administrator, coach, or other adult.

The School District, in accordance with The Dignity Act, specifically prohibits discrimination, harassment,

bullying, taunting, hurtful teasing, and cyberbullying that negatively impact the ability of a student to focus on schoolwork and participate in school activities.

Definitions:

Bullying: A form of harassment (see below).

The harassing behavior may be based on any characteristic, including but not limited to a person's actual or perceived: race (including traits historically associated with race, such as hair texture and protective hairstyles, including but not limited to braids, locks, and twists), color, weight, national origin, ethnic group, religion, religious practice, disability, sex, sexual orientation, or gender (including gender identity, gender expression and transgender status).

VII. Corporal Punishment and Physical Restraint

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment does not include the use of physical restraints to protect the student, another student, teacher, or any other person from physical injury when alternative procedures and methods cannot reasonably be employed to achieve these purposes. Corporal punishment of any student by any district employee is strictly forbidden.

The district will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

VIII. Student Searches and Interrogations

The Board is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary consequence on a student may question a student about an alleged violation of law or the District Code. Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the Board authorizes the superintendent, building principals, the assistant principals, the school nurse and district security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code. Whenever practicable, a second authorized person should be present at any search.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than District employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety.

Certificated professional employees will be presumed to be reliable informants. Before searching a student or the student's belongings, the authorized school official should encourage the student to voluntarily admit that they possess physical evidence that they violated the law or the District Code, or urge the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

The rules in this Code regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places, including computers. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places, including computers, may be subject to search at any time by school officials, without prior notice to students and without their consent.

B. Personal Electronic Devices

Beginning September 2025, there will be a “bell to bell” ban on personal electronic devices. In all grades K-12, personal devices including but not limited to: cellphones, smart watches, fitness trackers, earbuds and other personal electronic devices, must be turned off and out of sight prior to entering the school building and for the entirety school day. This includes instructional and non-instructional times such as homeroom, study halls, lunch, recess, and hallway transitions. **Exceptions are limited to approved medical devices and a student’s individualized education plan.*

In Case of Emergency or Important Communication:

- **Students may request access to a school phone if needed.**
- **Parents/guardians should contact the school’s main office** if they need to reach their child during school hours.
- **Students may only access a device if** it is required by an approved IEP or 504 Plan, needed to manage a documented medical condition as authorized by the school nurse or principal, or explicitly permitted by a teacher or administrator for an educational purpose.
- **BHS students will be provided with a designated cell phone location to make approved calls.**

Teachers and administrators are authorized to confiscate student personal electronic devices that are being used in violation of law, regulation, or this Code of Conduct. Teachers and administrators are permitted to look at the screen of the device with the students consent or if there is reasonable suspicion to do so and can request the student’s cooperation to search the device further or to conduct such further search if there is reasonable suspicion to do so. Without a student’s permission or reasonable suspicion to do so, teachers and administrators should not undertake a more extensive search until conferring with the Superintendent or school attorney.

Personal electronic devices are defined as a device which can be connected to the internet, other devices or networks via different wireless protocols, that can operate to some extent interactively and autonomously.

Consequences:

Possessing a personal electronic device in violation of the above will lead to the following consequences:

First offense – Teachers will give a verbal warning to put the device away.

Second offense - Teachers will confiscate the phone and notify parents. Students can pick up their phone at the end of the day from school administration.

Third offense – Teachers will confiscate the phone and notify parents. Parent/guardian will be asked to pick up their child's phone at the end of the day from school administration. Referral to counseling.

Subsequent offenses – All of the above, for second offense, as well as a disciplinary consequence.

C. Documentation of Searches

The authorized school official conducting the search is responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and their title and position.
7. Witnesses, if any, to the search.
8. Time and location of search.
9. Results of search (that is, what items(s) were found).
10. Disposition of items found.
11. Time, manner and results of parental notification.

The building principal or the principal's designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The principal or designee shall clearly label each item taken from the student and retain control of the item(s), until the item(s) is turned over to the police. The principal or designee shall be responsible for personally

delivering dangerous or illegal item(s) to police authorities.

D. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function.

Before police officials are permitted to question or search any student, the building principal or designee must first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search or the parent does not consent, the questioning or search shall not be conducted. The principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school by police officials. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

E. Child Protective Services Investigations

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to child protective services (CPS) when they have reasonable cause to suspect that a student has been abused or maltreated or educationally neglected, the District will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, maltreatment, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to the building principal or their designee. The principal or designee shall set the time and place of the interview. The principal or designee shall require professional identification from the CPS worker and also request the CPS worker to identify the specific child or children they are seeking to interview. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations.

If the nature of the allegations is such that it may be necessary for the student to remove any of

their clothing in order for the CPS worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview. No student may be required to remove their clothing in front of a CPS worker or school district official of the opposite sex. The CPS worker must provide official identification.

A CPS worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if they were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

IX. Visitors to the School

Since schools are a place of work and learning, and to ensure safety and security in the schools, limits must be set for visits to the campuses. The building principal or their designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the school will be considered a visitor.
2. All visitors to the school must enter through the designated single point of entry and report to the office of the principal upon arrival at the school.
3. There they will be required to present photo identification, sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in school or on school grounds. The visitor must return the identification badge to the principal's office before leaving the building.
4. After school hours, visitors attending school functions that are open to the public, such as parent teacher organization meetings or public gatherings, are not required to register.
5. Parents or citizens who wish to observe a classroom or school activity while school is in session are required to arrange such visits in advance with the classroom teacher(s), so that class disruption is kept to a minimum.
6. Teachers are expected not to take class time to discuss individual matters with visitors.
7. Any unauthorized person on school property will be reported to the principal or designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
8. All visitors are expected to abide by the rules for public conduct on school property contained in this Code.

X. Public Conduct on School Property

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the Code, "public" shall mean all persons when on school property or attending a school function including students, teachers, and District personnel.

The expectations for public conduct on school property and at school functions contained in this Code are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are important to the objectives of the District. The purpose of this Code is to maintain public order and prevent abuse of the rights of others.

All persons on school property or attending a school function shall conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school function are expected to be properly attired for the purpose they are on school property.

5. Intimidate, harass, or discriminate against any person on the basis of actual or perceived race (including traits historically associated with race, such as hair texture and protective hairstyles), color, creed, religion, religious practice, national origin, ethnic group, weight, sex, gender (including gender identity, gender expression, and transgender status), sexual orientation, or disability.
6. Enter any portion of the school premises without authorization or remain in any building or facility after it is normally closed.

10. Possess, consume, sell, offer, manufacture, distribute, or exchange alcoholic beverages, illegal or controlled substances, including synthetic drugs whether specifically illegal or not, or be under the influence of any of such items on school property or at a school function.

12. Smoke, vape and/or ingest cannabis or concentrated cannabis (including cannabis products) or smoking cannabinoid hemp (except for lawful medical cannabis use in compliance with state law and regulation).

14. Loiter on or about school property.
15. Spit or engage in other unhygienic behavior on school property or at school functions.

16. Gamble, including on-line gambling, on school property or at school functions.
17. Refuse to comply with any reasonable order of identifiable District officials performing their duties.
18. Willfully incite others to commit any of the acts prohibited by this Code.
19. Violate any federal or state statute, local ordinance, or Board policy while on school property or while at a school function.

B. Consequences

Persons who violate this Code will be subject to the following penalties:

1. Visitors. Their authorization, if any, to remain on school grounds or at the school function will be withdrawn and they will be directed to leave the premises. If they refuse to leave, they will be subject to ejection.
2. Students. They will be subject to disciplinary action as the facts may warrant, in accordance with the due process requirements and provisions of this Code.
3. Tenured faculty members. They will be subject to disciplinary action as the facts may warrant in accordance with Education Law §3020-a or any other legal rights that they may have.
4. Staff members in the classified service of the civil service entitled to the protection of Civil Service Law §75. They will be subject to immediate ejection and to disciplinary action as the facts may warrant in accordance with Civil Service Law §75 or any other legal rights that they may have.

Staff members other than those described in subdivisions 3 and 4 will be subject to warning, reprimand, suspension or dismissal as the facts may warrant in accordance with any legal rights they may have.

C. Enforcement

The building principal or their designee shall be responsible for enforcing the provisions of this Code.

When the building principal or their designee sees an individual engaged in prohibited conduct, which in their judgment does not pose any immediate threat of injury to persons or property, the principal or their designee will tell the individual that the conduct is prohibited and attempt to persuade the individual to stop. The principal or their designee will also warn the individual of the consequences of failure to stop. If the person refuses to stop engaging in the prohibited conduct, or if the person's conduct poses an immediate threat of injury to persons or property, the principal or their designee will have the individual removed immediately from school property or the school function. If necessary, local law enforcement authorities will be contacted to assist in removing the person.

The District will initiate disciplinary action against any student or staff member, as appropriate, according to the "Consequences" section above. In addition, the District reserves its right to pursue a civil or criminal legal action against any person violating the code.

XI. Dissemination and Review

A. Dissemination of Code of Conduct

The District will work to ensure that the community is aware of this Code of Conduct by:

1. Providing copies of the Code to all students at a general assembly or class meeting (as appropriate at each grade level) held at the beginning of each school year.
2. Providing access to the Code to all parents, students, faculty, staff and the community through the District website.
3. Mailing a summary of the Code written in plain language to all parents of district students before the beginning of the school year and making this summary available later upon request.
4. Providing all current teachers and other staff members with electronic access to the Code and any amendments to the Code as soon as practicable after adoption.
5. Providing all new employees with electronic access to the current Code when they are first hired.
6. Providing a printed copy of the Code of Conduct to parents, students, faculty and staff, and community members upon request.

The District will sponsor an in-service education program for all District staff members to ensure the effective implementation of the Code. The superintendent may solicit the recommendations of the District staff, particularly teachers and administrators, regarding in-service programs pertaining to the management and discipline of students. The Code of Conduct is available on the school web site at www.briarcliffschools.org.

The District will review this Code every year and update it as necessary. In conducting the review, the Board will consider how effective the Code's provisions have been and whether the code has been applied fairly and consistently.

The Board may appoint an advisory committee to assist in reviewing the Code. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel and other school personnel.

Before adopting any revisions to the Code, the Board will hold at least one public hearing at which school personnel, parents, students and any other interested party may participate.

The Code and any amendments to it will be filed with the Commissioner no later than 30 days after adoption.
