A message to All KCSD Staff

Superintendent Search Underway

The Board of School Directors is pleased to announce the official launch of the search for Keystone Central School District's next superintendent. Following careful consideration, the Board has selected Templeton Advantage, LLC, in partnership with BLaST Intermediate Unit #17, to guide this important process.

Selecting the district's next superintendent is one of the Board's most significant responsibilities. To ensure a thorough and thoughtful search, the Board is utilizing proven best practices in educational leadership and executive recruitment.

Drawing upon decades of experience working with school districts across Pennsylvania, our consultants will assist the Board in identifying the leadership qualities and professional experiences that best align with Keystone Central's vision, values, culture, and future opportunities.

The Board is committed to keeping our school community informed throughout the search. A dedicated section of the district website is being developed and will provide regular updates as the process moves forward.

We hope everyone is enjoying a safe and relaxing summer. We look forward to the start of the 2026–2027 school year and the exciting opportunities that lie ahead.

The Board of School Directors
