LEAD-IN-WATER ANNUAL NOTICE

Minnesota Statute 121A.335 requires public school buildings serving pre-kindergarten through grade 12 to test for lead in water every 5 years. Hayfield Community Schools has historically conducted and continues to conduct Lead in Drinking Water testing per the Minnesota Department of Health guidelines. If found, the district remediates lead levels following the Minnesota Department of Health guidelines and completes retesting prior to use.

For more information on Hayfield Community Schools lead reduction program and testing results, is located on the district website here: www. Hayfield.k12.mn.us.

Website Communication

Hayfield Community Schools is committed to providing a safe and healthy learning and work environment for all of our students and staff. In accordance with Minnesota Statute 121A.335, the Minnesota Department of Health and the Minnesota Department of Education, Hayfield Community Schools has implemented its Lead in Water Plan. The Plan includes a program of lead in water testing, lead hazard reduction options and communications.

Hayfield Community Schools performs lead in water testing in school buildings every five years. The testing reports for individual schools are available on the MPS website/departments/environmental health & safety/lead in water. Reports are also available by contacting the Buildings and Grounds at 507-477-3235.
