## Indoor Air Quality

Hayfield Community Schools has an indoor air quality management plan. The plan outlines specific policies and procedures that will be used in the district to address indoor air quality issues. Several staff members were involved in the development of the district indoor air quality management plan. The district health and safety committee review the plan annually.

If you have any questions concerning indoor air quality or would like to use the "EPA Tools for Schools" checklist, please contact the district indoor air quality coordinator: Superintendent at Hayfield Schools, 9 Sixth avenue Southeast, Hayfield, MN 55940.
