RHS Tigers,

July 31, 2026

Welcome to the 2026-2027 school year at Roseville High School. I hope each of you had an amazing summer, with opportunities to rest, relax, travel, spend time with family and friends, and simply do the things you love. Our staff has been back to work and busy preparing to welcome our Tigers on Thursday, August 6th.

We have had an incredible summer here at RHS! We kicked summer off with a NorCal State Baseball Championship win at Historic Clancy Field the first week of summer break. Our programs have been hard at work all summer preparing for the new school year, from band to athletics to student government and so much more. Construction continues to be a main theme throughout campus. Our new classroom building is bigger and bolder than ever before, and the quad that has been formed in front of the building, taking over the old Campo Street, is truly remarkable. I cannot wait for this project to be completed later this school year, and for us to move in and fully take advantage of the hard work and design of this new building.

We have so much in store for this year at Roseville High School! As a staff, we are taking time to develop and hone our skills, ensuring every student receives high quality first instruction in every class. We continue to be an AVID National Demonstration Site, using research-based practices of Writing, Inquiry, Collaboration, Organization, and Reading across all classrooms. We also have thriving programs continuing this year through our Career Technical Education courses, Advanced Placement and Dual Enrollment courses, VAPA programs, and more. We run dozens of clubs for students to find their place here at RHS, and we continue to grow in our extra curricular programs and athletics. My hope is for every student to be connected and to thrive here at RHS. I truly cannot wait to see you next week and to welcome you back to school!

GO TIGERS!

Sincerely,

Ashley Serin
Principal
Roseville High School
