

Levy Fact Sheet

The November 2026 Replacement levy renews fundamental programs and staff.

We just approved a levy, why are you asking us again?

Most districts in Idaho run levies because the state funding formula fails to cover operational costs. Levies must be renewed every 1 or 2 years. This is a replacement of our current levy, which expires in June 2027.

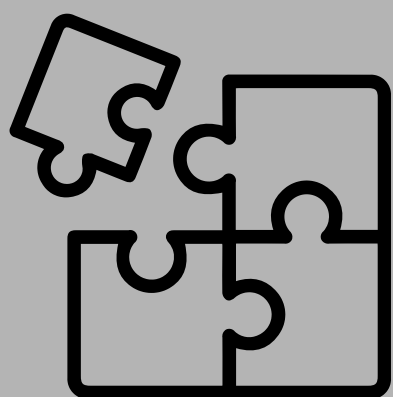

How much money is being levied?

The proposed levy is \$6,783,098 per year for two years. Due to growth in our town, the average Post Falls homeowner's school district taxes are projected to remain relatively flat.

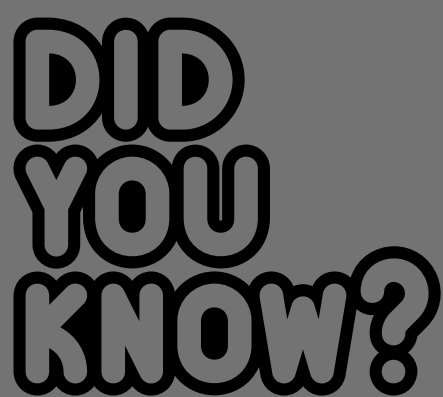

What programs are paid for with levy funds?

- ~ Extracurricular student activities and athletics
- ~ Kootenai Technical Education Campus (KTEC)
- ~ School buses
- ~ Staff salaries
- ~ Safety, security, counseling & nursing support
- ~ K-3 early literacy support staff
- ~ Student behavioral support staff

How does Idaho school funding work?

Idaho school funding is based on students' average daily attendance (ADA), not enrollment.

How does ADA funding impact PFSD?

In 2026, PFSD had 92.6% ADA; therefore, over \$4 million of necessary operational funding was withheld due to student absences. Average lost funding = \$51.58 per absence.

3 ways to vote

1. Vote by absentee ballot - request yours now!
2. Early in-person voting begins October 13
3. Levy election date = November 3
