

Facilities & Grounds Department Summer 2026 Project Update

The Facilities & Grounds Department has made significant progress on several summer projects in preparation for the upcoming school year. Work remains on schedule, and our team continues to coordinate closely with contractors to ensure all buildings are ready for students and staff.

Project Highlights

PVS Gym Floor

- The gym floor has received its first coat of sealer as part of the refinishing process. Additional finishing coats will be applied to complete the project before the start of school.

Salisbury Campus Improvements

- Renovations to the office, gymnasium, and music area are nearing completion.
- Painting has been completed, new flooring has been installed, and final gym floor striping is underway, including the addition of basketball court lines and enhanced red boundary accents.

Former High School Renovation

- Demolition activities have officially begun in the former high school.
- Contractors are on site, and building separation cuts are being completed as scheduled, marking an important milestone in the renovation process.

Building Readiness

- District facilities remain on schedule for summer cleaning and final preparations.
- All buildings are progressing toward being clean, safe, and ready to welcome staff and students for the new school year.
