8th Grade (Orange and Red)

Advanced Algebra 1, Algebra /Geometry 8, and Advanced Geometry: 3-ring binder, pencils

- Recommended, but not required, is a Texas Instrument (TI) Graphing Calculator - TI 83+, TI-84, or TI-84+. Although not required, purchasing a graphing calculator is a good investment. These calculators are approved for use in high school and college math courses as well as on standardized tests such as the PSSA, Keystone, SAT, and ACT.
    - An engraver is available at school if you wish to have your calculator marked. Students who do not own a graphing calculator will be provided one for use at school as needed.
- Art: 2-pocket folder, a 9x12 sketchbook or 15 pages of unlined printer paper, four #2 pencils to be donated and used in the art classroom
- Social Studies: 3-ring binder or folder to keep handouts, pencils, highlighter, and charged Chromebook, 1 set of wired earbuds ** (Please see Chromebook note below.)
- English: Charged Chromebook, 3-ring binder or folder for papers, pencils, 1 set of wired earbuds** (Please see Chromebook note below.)
- Academic Literacy: Charged Chromebook, pencils
- Music: Charged Chromebook, 1 set of wired earbuds **(Please see Chromebook note below.)
- Science: 1 folder, 1 composition-style notebook with pages bound (No spiral notebooks- the pages rip too easily, and this notebook will need to stay intact the entire year), either college rule or graph paper, pencils

All students should have and maintain an ample supply of #2 pencils, erasers, pens (blue and colored for self-correcting), highlighters, and loose-leaf wide-ruled notebook paper.

*** Since all eighth graders will be using Chromebooks in school, we are asking that all students purchase one set of personal earbuds to keep at school. The earbuds will be needed daily for classroom computer activities that require the use of sound and for music keyboard activities. (As a reminder, AirPods are not permitted for use in school.)
