Rationale:

The link between the health of students and learning is well documented. If children are to be successful in school they cannot be tired, hungry, sick, suffering from drug abuse, or worried that school is an unsafe environment in which they could become a victim of a violent act. It has become apparent that problems such as poor nutrition, lack of physical activity, substance abuse, depression, teen pregnancy, obesity, bullying, and more - can adversely affect not only a child's health but also his or her *ability to learn!* And that is precisely why a coordinated approach to school health can make a difference! A coordinated approach to school health improves kids' health and their capacity to learn through the support of families, schools, and communities working together. At its very core, a coordinated approach to school health is about keeping students healthy over time, reinforcing positive healthy behaviors throughout the school day, and making it clear that *good health and learning go hand in hand.*

Goal:

All students in Lawhon Elementary School shall possess the knowledge and skills necessary to make healthy choices that promote healthy lifestyles. All staff are encouraged to model a lifestyle of healthy eating habits and moderate physical activity as a valuable part of daily lives.

To meet this goal, Lawhon Elementary School adopts this school wellness policy with the following commitments to implementing a coordinated approach to school health. This policy is designed to effectively utilize school and community resources and to equitably serve the needs and interests of all students and staff, taking into consideration differences in culture.

In determining these goals of nutrition promotion and education, physical activity, and other school-based activities that promote student wellness, the Lawhon School Health Council has reviewed and considered evidenced-based strategies.

Nutrition Environment and Services

Lawhon Elementary School will:

- Offer a school lunch program with menus that meet the meal patterns and nutrition standards established by the U.S. Department of Agriculture (USDA) and the Mississippi Department of Education, Office of Child Nutrition Programs.
- Offer school breakfast and snack programs (where approved and applicable) with menus that meet the meal patterns and nutrition standards established by the USDA and the Mississippi Department of Education, Office of Child Nutrition Programs.
- Promote participation in school meal programs to families and staff. ● Operate all Child Nutrition Programs with school food service staff who are properly qualified according to current professional standards (Mississippi Board of Education Policy,

Code 2001).

- Follow State Board of Education policies on competitive foods and extra food sales (Mississippi Board of Education Policy, Code 2002).
- Include goals for nutrition promotion, nutrition education, physical activity and other school-based activities to promote student wellness.
- Implement Nutrition Standards as adopted by the State Board of Education in accordance with the Mississippi Healthy Students Act (State Board of Education Policy 4011).

- Healthy food and beverage choices;
- Healthy food preparation;
- Marketing of healthy food choices to students, staff, and parents;
- Food preparation ingredients and products;
- Minimum/maximum time allotted for students and staff lunch and breakfast;
- Availability of food items during the lunch and breakfast periods of the Child Nutrition Breakfast and Lunch Programs;
- Methods to increase participation in the Child Nutrition School Breakfast and Lunch Programs.

- Establish guidelines in accordance with USDA Smart Snacks in Schools for all foods available on the school campus during the school day with the objective of promoting student health and reducing childhood obesity. (see *Nutrition Environment and Services section of the Tools That Work - Your Guide to Success for Building a Healthy School Toolkit that is found on the Office of Healthy Schools website at*)
