A. Pledge of Allegiance led by: Robert Vincelette

B. Roll Call - Members Present: Vincelette, Hepburn, Rendon, Gutierrez, 1 Absent (Wright)

#476→C. Motion by Gutierrez, seconded by Rendon to approve the agenda, 4 yeas, 1 Absent (Wright).

VI. Reports and Communications

A. RTA report: *Absent* CSEA report: *Absent*

B. CBO Report: *Robert Irving:* All righty, I am going to be brief. I report out of my office that we are changing gears from 25-26 to preparing for 26-27, and so the time of the year will start pumping the brakes for this, here to amp up everything for next year since July 1st. So, you know that fun time of transition of, is this a current year problem or is it going to be an extra problem, or you know when and how do we try something. Thank you.

VI. Reports and Communications (Continued)

- C. Assistant Superintendent, Instruction and Curriculum: *Dr. Larry Mendez*: Good evening to everyone who joins us in person and also online. We had a training with admin leadership with Dr. Fisher, so we had the training here in the boardroom. They had opportunity to go over different topics as it pertains to leadership and also different areas to continue to visit and monitor their reflective dashboard and other such as English Learner progress. It is something that we focus on. He touched on different strategies, ideas, goals that that we can continue to incorporate for the 26-27 school year. So, we enjoyed collaborating with Dr. Fisher last week. Susan was able to also join us, Ms. Gaines, and our leadership team. So, we appreciate the time and working with Dr. Fisher. We have been planning for the 26-27 school year, collaborating on the professional development offerings, as well as ordering the books for next year and our Williams visit in August. As well as our FPM visit in the future next year, so that in terms of FPM review, and we would also like to thank our Ed Services team and everyone that has helped throughout the year for the departments that we have been collaborating with as well, like special education department, HR, business department, and IT, collaborating on different items with them, so we appreciate their support as well. I thank Ana, Hilda, Dr. Tolliver, and Yesenia. Today, we wish Yesenia well. I mean, she is not going to be too far away just down the line over here in Alt Ed, but we thank her for everything that she has contributed to all of us in one form or another in the Ed Services Department. So, we appreciate everything that Yesenia has done in helping us out, as well as our teachers that are helping us with summer school, and that helps us out throughout the year. That concludes my report. Get ready for next year.
- D. Assistant Superintendent, Special Education, Pupil Personnel: *Sheryl Taylor*: Hello, everybody. We are basically working on the same, closing out our reports for this year. I have some remaining balance on our CYBHI grant that I have to spend by the end of the month, so I am going to be doing that, getting some things for our therapist. For example, we are going to be getting iPads for them, for them to use for suicide evaluations and threat assessments, things like that. We have been working with Dr. Mendez on planning trainings for the beginning of the school year. We have, I think, a lot of great trainings planned, so I am excited about that. We are also looking at expanding our programs, and some of our people are moving around a little bit, so we are preparing new offices and things like that. So, it is going to be a busy summer, but I think we are on track to start a great new year.
- E. Associate Superintendent, Human Resources: *Leanne Hargus*: Good evening, everyone. We are busy trying to fill the last couple spots, and we just have a few spots left to fill. Then just moving into 26-27.
- F. Superintendent Report: *Barbara Gaines*: Good evening, everyone, and welcome to those of you who are joining us here in person. I just want to thank all of our parents who are sending their students faithfully to our summer school programs. It is wonderful that we are able to offer those programs, and yet to have them supported by our parents and our students makes it so much more worthwhile. I appreciate all of my administrators and teachers who are there every day. They barely had a weekend off before they started summer school, and I know it is asking a lot of them. But I so appreciate their time and their willingness to prepare for the good of the students, and we are waiting patiently for our individual school confirmed scores from the state testing. We have received some preliminaries, but they look pretty good. We are optimistic that our students did well, but we are waiting to have the official scores before we get too excited about that. So, I just wish all of our kids a safe and enjoyable summer, and our staff members as well. Before we know it, we will be right back here. As my colleagues said, they are all planning and working on 26-27. We are getting ready to have a great retreat at the latter part of July for everybody. Looking forward to getting everybody on board and starting a new school year. Thank you.

VI. Reports and Communications (Continued)

G. Board Member Communications: *Adrienne Rendon*: Thank you, everyone, for joining us. I just want to say I hope that the first session of summer school is going smoothly. I hope everyone is enjoying their summer break, even though it just may be weekends. That is okay too, and let's just all try and stay safe. That's it. *Mario Gutierrez*: Hi everybody out there. We are just prepping everything for the following year. Hope everybody has a good summer. Enjoy the vacation when you can. That's it. *Sunni Hepburn*: It is summer. Hydrate, stay hydrated. I live right by Westpark, and I love the way it looks over there. It looks pretty awesome. I cannot wait to walk onto the new area and really lurk. Other than that, I am really looking forward to our community garden coming together very soon, and it is always a good time to plant seeds, guys. Anytime, just keep them going, okay? And have fun. Enjoy the summer. Enjoy the pool. Bring snacks. Bring a chair, and we will see you soon. Thank you, guys, for being here. *Robert Vincelette*: Thank you for being here. Thank you to the folks who are coming in. Hopefully, the next school board meeting we will have a very interesting session going on because we will be using our new system that we have here. We have the monitors, the microphones, they are these little round shapes in the ceiling, and it covers the whole place. You can see speakers are up there. They are done. They have a little bit more, a few more things to do. One of them is that anybody that comes in and does a presentation, you can bring your own laptop. You need to be sitting wherever you are at and giving your presentation without having to move around or whatever, and having to use one laptop. I was assured by Curtis, that it will be easily operated. So, we are going to see how well we get a tester. Alma will be a tester, but I am pretty sure things will work out as well. Okay, and so we have that. The other is that Dr. Mendez mentioned Dr. Fisher. Dr. Mendez had been talking about block training and so forth. Well, the military has been doing block training forever, and I am starting to find out certain things. Dr. Mendez and I went out and I bought a book on program instructional program, and he went out and bought the same book. So, we are going to be comparing notes on this thing here, but I believe that is probably where we are getting our program instruction. I brought a book over for Dr. Fisher to look at. It was dealing with a military piece of hardware, and Dr. Fisher saw what building block screening is about, at least from the military's part, and I think we are seeing that we are going that route with the map. And I believe that I do the same thing with Dr. Tolliver. So, Dr. Fisher, when he comes back, I guess I know we are going to spend a little more time discussing that particular area. So, I am looking forward to it because I am getting excited, and I hope you get me excited as well with your math program. I hope so. I made a comment to Mrs. Gaines last night. I am hoping one benefit will be that parents will help with homework at home. There is a sheet that goes home with the students to help them with their daily assignments. I think there is a lot of us in the same way, but I am really excited because the benefit is that if we have parents that are struggling with math, this may just help them out as well. So, fingers crossed.

H. Sub-Committee Communications/Updates: No updates were given.

Comments from the Public: None

#477→VII. Motion by Gutierrez, seconded by Hepburn to approve consent items A-M, 4 yeas, 1 Absent (Wright).

- A. Ratified June MIDA \$896,000.54
- B. Approved Purchase Orders 260964-260996, Pay Vouchers 261190-261317
- C. Approved KCSOS Write from the Beginning and Beyond PD LCAP Goal 1, Action 25 – \$21,434.20
- D. Approved Paxton Patterson Quote #QUO-05536-D0S3K5 Rare Earth High School – \$73,134.80
