Annual AHERA Notification
Haddon Township School District
2026-2027 School year

Dear Parents, Guardians, and Staff,

In accordance with the Asbestos Hazards Emergency Response Act (AHERA), we are required to notify parents, guardians and staff of the availability of the asbestos management plans and the response action we are taking to maintain the integrity of the asbestos in our school.

Since the original inspection took place and the condition of the asbestos was evaluated all appropriate actions have been taken to ensure that all asbestos is maintained in good condition.

Every six months a periodic surveillance of the building occurs. Additionally, formal re-inspections are completed every three years. Copies of inspections are available in the maintenance office.

If you wish to review The Three Year Asbestos Management Plan it is available in the maintenance office.

There was no removal during this school year.

AHERA Coordinator
