Stefan Belevic, Class of 2026

"The bonds and relationships you can build here at this school are so important, and I really appreciated that."

I would say one of my favorite memories was probably when I first came here during SOLI as a new student, those first couple days are just for the new dorms students to learn the school and adjust to being in the U.S. I met so many people and at that time everyone was so open to getting to know one another and talking to each other… when I was a prefect this past year and in charge of the SOLI camp, I got to let the new students know everything about MCI and what we have to offer, and genuinely that experience was just so fun for me.

Favorite Memory: Helping New Students at SOLI
Favorite Sports: Soccer and Tennis
Favorite Classes: English and Modern Band
