GREENSBURG SALEM SCHOOL DISTRICT

Annual Public Notice of Special Education Services and Programs, Services for Gifted Students, and Services for Protected Handicapped Students

According to state and federal special education regulations, annual public notice to parents of children who reside within a school district is required regarding child find. Responsible school districts and intermediate units are required to conduct child find activities for children who may be eligible for services under section 504 of the Rehabilitation Act of 1973. Individuals with Disabilities Education Act (IDEA 2004) and gifted services as defined in the PA school code.

The Greensburg Salem School District provides a Free Appropriate Public Education (FAPE) to children with disabilities who need special education and related services. FAPE is provided to students who need specially designed instruction and have one or more of the following physical or mental disabilities:

- □ Autism
- □ Deaf-blindness
- □ Deafness
- □ Emotional Disturbance
- □ Hearing Impairment
- □ Intellectual Disability (MR)
- □ Multiple Disabilities
- □ Orthopedic Impairment
- □ Other Health Impairment
- □ Specific Learning Disability
- □ Speech or Language Impairment
- □ Traumatic Brain Injury
- □ Visual Impairment including Blindness

Screening

Greensburg Salem School District (GSSD) has established and implemented procedures to locate, identify, and evaluate children suspected of having disabilities. These procedures involve screening activities which include but are not limited to yearly review of group-based ability and achievement test scores, cumulative records, enrollment records, health records, and report cards; hearing screening, vision screening, motor screening; and speech and language screening.

Early Intervention

The IDEA 2004 also requires the provision of a Free Appropriate Public Education to children with disabilities between three years of age and the school district's age of beginners. In Pennsylvania, a child between three years of age and the school district's age of beginners who has a developmental delay or one or more of the physical or mental disabilities listed in the first section may be identified as an "eligible young child."

Eligible young children are afforded the rights of school age children with disabilities, including screening, evaluation, individualized education program planning, and provision of appropriate programs and services. The Pennsylvania Department of Education is responsible for providing programs and services to eligible young children under Act 212 of 1990, The Early Intervention Services System Act. The Westmoreland Intermediate Unit (724-836-2460) provides programs and services to eligible young children on behalf of the Pennsylvania Department of Education. Except as indicated above or otherwise announced publicly; screening activities take place in an on-going fashion throughout the school year. Screening is conducted in the child's home school unless other arrangements are necessary.

Evaluation

When screening indicates that a child may be a child with disabilities, the GSSD will seek parental consent to conduct an evaluation. "Evaluation" means procedures used in the determination of whether a child has a disability and the nature and extent of the special education and related services that the child needs. The term means procedures used selectively with an individual child and is not limited to tests administered to or procedures used with all children.

In Pennsylvania, this evaluation is conducted by a group of qualified professionals and parents. The group of qualified professionals shall include a certified school psychologist when evaluating a child for autism, emotional disturbance, mental retardation, multiple disabilities, other health impairments, specific learning disability, or traumatic brain injury. The evaluation process must be completed no later than sixty school days after the district receives written parental consent and must include "protection-in-evaluation procedures," (for example, tests and procedures used as part of the multidisciplinary evaluation process may not be racially or culturally biased.) Upon completion of the administration of tests and the collection of other evaluation materials, a group of qualified professionals and the parent of the child will determine whether the child is a child with a disability and what the educational needs are of the child. Information obtained from a variety of sources, including aptitude and achievement tests, parent input, teacher recommendations, physical condition, social or cultural background, and adaptive behavior will be documented and considered carefully. If a determination is made that a child has a disability and needs special education and related services, an Individualized Education Program (IEP) must be developed for the child.

Identification Activities

Parents who think their child has a disability may request, at any time, that the GSSD conduct a multidisciplinary evaluation. This request should be made in writing to the Building Principal or the Office of the Director of Pupil Services. If a parent makes an oral request for a multidisciplinary evaluation, the school district shall provide the parent with a form for that written request.

Parents also have the right to obtain an independent educational evaluation if they disagree with the school district's evaluation. GSSD will provide to parents, upon request, information about where an independent educational evaluation may be obtained.

Educational Placement

An Individualized Education Program (IEP) describes the child's present levels of educational performance, including how the child's disability affects involvement and progress in the general curriculum; a statement of measurable annual goals, including benchmarks or short-term objectives, to enable the child to be involved and progress

in the general curriculum; a statement of special education related services and supplementary services to be provided to the child; an explanation of the extent to which the child will not participate with non-disabled children in the regular class; any modifications in the administration of assessments; the projected date for beginning services and modification; and how progress toward annual goals will be measured. For each child with a disability, beginning at age sixteen or younger, a statement of transition service needs will be included. In determining student placement, consideration will be given to ensure that to the maximum extent appropriate, children with disabilities are educated with children who are non-disabled. Classes and services that involve removal of children with disabilities from the regular environment will occur only if the nature or severity of the disability is such that education in regular classes, with the use of supplementary aids and services, cannot be achieved satisfactorily.

Services for Protected Handicapped Students

Students who are not eligible to receive special education programs and services may qualify as protected handicapped students and, therefore, be protected by other federal and state laws intended to prevent discrimination. The school district must ensure that protected handicapped students have an equal opportunity to participate in the school program and extracurricular activities to the maximum extent appropriate for each individual student.

In compliance with state and federal law, the school district will provide to each protected handicapped student, without discrimination or cost to the student or family, those related aids, services or accommodations which are needed to provide equal opportunity to participate in and obtain the benefits of the school program and extracurricular activities, to the maximum extent appropriate to the student's abilities. To qualify as a protected handicapped student, the child must be of school-age with a physical or mental disability which substantially limits or prohibits participation in, or access to, an aspect of the school program.

These services and protections for "protected handicapped students" may be distinct from those applicable to disabled or "thought-to-be disabled students". The school district or the parent may initiate an evaluation if it is believed a student is a protected handicapped student.

For further information on the evaluation procedures and provision of services for protected handicapped students, parents should call the GSSD Coordinator of Student Services @ 724-832-2906.

Services for Students Who are Gifted

PARTICIPATION IN ACTIVITIES

To participate or attend activities after the school day, a student must be present in school for at least half of the school day. Exceptions to this rule are permitted only for approved funerals or verified professional appointments. Failure to meet this requirement will result in the student being prohibited from participating in or attending the activity or event occurring that evening. Students who are suspended may not participate in or attend any school events which take place during the time of the suspension. Additionally, permission to attend after-school activities may be restricted due to previous behavior during school or activities. All dances and similar activities are open only to members of the student body of Greensburg Salem Middle School.

LOCKER PROCESS

A locker will be assigned to each student on the first day of school. The locker number and combination will be recorded in the main office. Locker combinations should not be shared with other students. Lockers may not be used by more than one student. Student lockers should be used for books, school supplies, and coats. Jewelry, money, and other valuables should not be kept in the locker. The school is not responsible for any loss incurred. However, the school will make every attempt to locate lost items. All losses should be reported to the main office. Problems dealing with locker operation should be reported to the main office. For additional information on lockers, refer to the Searches Policy in this handbook.

FIRE DRILLS

A fire drill may be held at any time. Leave books on the desk, move quickly and quietly to the exit of the building as designated for each room. Students should move a safe distance from the school and should not block the roadways surrounding the building.

PUBLICATIONS

Student names and/or photographs may be included in district and community publications to highlight student achievements. These publications may include electronic means such as web pages. Any parent choosing to not have his/her child's picture and/or name included in any form of such publications must send a written letter stating these conditions to the building principal.

TELEPHONES

The main office telephones may be used for school-related business subject to the approval of the office staff. Messages for students will be taken only in case of an emergency. Students will not be called from classes for phone calls.

TEXTBOOKS/CALCULATORS/COMPUTERS

Students are responsible for textbooks, calculators, and computers loaned to them by the school. Students must return the textbooks/calculators/computers issued to them (based on identification numbers.) Students are responsible for damaged or lost textbooks/calculators/computers.

Guidance Services

GENERAL INFORMATION

The guidance department provides services to assist students in their academic, social/emotional and career development. Students wishing to meet with their guidance counselor should secure a written transfer from their teacher, administrator, or counselor. Parents/guardians are encouraged to contact their child's counselor if they have concerns. Information regarding students will be handled in confidence as per state and federal law.

STUDENT RECORDS

The guidance counselors and administrators observe the state regulations that govern information contained in your record files. Information concerning test results, and other reports, is maintained in confidentiality and may be released only with your parents' written consent. Some basic information such as name, age, sex, and attendance may be made available to prospective employers, college admissions officers and other responsible persons without written consent. If you want further information about how your records are maintained, please see your guidance counselor.

OUTSIDE AGENCY FORMS

Occasionally, parents receive forms from outside agencies seeking teacher input. Forms should be provided to the guidance counselor. The counselor will distribute the appropriate forms (Vanderbilt, Connors, BASC, etc.) to the teachers, collect them, and then send them directly to the appropriate agency.

STUDENT ASSISTANCE PROGRAM (SAP)

Student Assistance Program (SAP) - a systematic process using effective and accountable professional techniques to mobilize school resources to remove the barriers to learning and, when the problem is beyond the scope of the school, to assist the parent/guardian and student with information so they may access services within the community.

The program provides for the monitoring of these students and for intervention and referral to outside services when appropriate. The SAP team also provides support to students returning to school after treatment and works to prevent

student problems through awareness campaigns, fostering a positive school climate, and promoting wellness in all students.
Students can be referred to the SAP team by a teacher, counselor, nurse, or administrator. Students can also be referred by other students, parents, and family members, and by themselves. If there is a concern for any student, contact any teacher, counselor, nurse, or administrator. The complete board policy 236 pertaining to the Student Assistance Program can be obtained on the district website or by requesting a copy at the district administrative office.

SCHOOL-BASED MENTAL HEALTH SERVICES

As stated above, one outcome of the SAP process might be the recommendation for services from an outside agency. To this end, GSMS has partnered with Clarvida to provide school-based outpatient services. Clarvida will work with the student insurance provider to assess, evaluate, and design treatment plans to meet the individual needs of that student. Additional support is also provided through our Therapy in Schools of Adelphoi, and interventions for at-risk students are available through St. Vincent College Prevention Project.

SUICIDE THREATS

The Greensburg Salem School District takes seriously any threat of suicide or harm to oneself. Students who have thoughts of suicide should tell a teacher or administrator immediately. If any student or staff member becomes aware of any such threat including, but not limited to, written or verbal threats, they must immediately notify a building administrator. The student who is threatening to harm themselves will be referred to the counselor and/or other designated staff member for evaluation as well as being referred to the SAP program. The student's parents will be contacted and asked to take the student to an appropriate medical facility. Police or paramedics will be called to transfer the student if the parents are unwilling or unavailable to cooperate. The complete board policy 819 pertaining to suicide can be obtained on the district website or by requesting a copy at the district administrative office.

Nutrition Services

GENERAL INFORMATION

The cafeteria is located on the ground floor. The facilities are available to all students: those who eat district provided lunches and those who carry their lunches. The Greensburg Salem Middle School qualifies for the Community Eligibility Provision. As a result, students are provided breakfast, lunch, and dinner at no cost to students. Students may purchase additional food, snacks, and drinks not provided as part of the district provided meal or if they bring lunch from home. During their assigned lunch period, all students should be in the cafeteria area.

In the operation of our food programs, no individual will be discriminated against because of race, sex, color, national origin, age, or handicap. If you believe you have been discriminated against, please contact an administrator, and write immediately to the Secretary of Agriculture, Washington D.C. 20250.

STUDENT NUTRITION PRIMEROEDGE PROGRAM

Students in all district schools use the PrimeroEdge Program at lunch and breakfast. PrimeroEdge is a computerized accounting system which can eliminate the need for parents to send money to school with their son or daughter daily to pay for food or drinks purchased in any of the district's cafeteria's.

Every student is assigned an account that can be accessed only by their student PIN (Personal Identification Number). Once given to a student, the PIN remains the same from year to year. When making a purchase at the cafeteria, the student enters his/her PIN and if there is money in the account, the price of the purchase, including ala carte items, is deducted from the account balance. Students with no funds in their account will not be permitted to charge ala carte items to their account. The district may impose charge limits for individuals who fail to keep their account current. Funds in the student's account can only be used for cafeteria purchases.

Students/parents can place money into individual account by sending a check (made payable to Greensburg Salem Cafeteria Fund) to school. In addition, families now can use www.schoolcafe.com, a service that offers a review of a child's cafeteria purchases, as well as allowing prepayment to the cafeteria account using a credit or debit card. Cafeteria purchases can only be reviewed within the most recent seven school days. Accounts on www.schoolcafe.com can be created, free-of-charge without providing credit card information, to give any parent the ability to review student cafeteria purchases. Families are not required to make deposits into their child's account using the schoolcafe service.

HEALTH ROOM PROCEDURES

All students coming to the health room must have a transfer when reporting. The school nurse (or, in his/her absence, a building administrator) will decide whether or not a student's health condition warrants an early dismissal.

MEDICATION

Students are prohibited from being in possession of any medication, including prescription drugs, over the counter (OTC) drugs, vitamins, and supplements, on school grounds, on school buses, and at any school events or school-sponsored events.

Purpose

The Board shall not be responsible for the diagnosis and treatment of student illness. The administration of prescribed medication to a student during school hours in accordance with the direction of a parent/guardian and licensed prescriber will be permitted only when failure to take such medicine would jeopardize the health of the student or the student would not be able to attend school if the medicine were not available during school hours.

Delivery and Storage of Medications

All medication shall be brought to the nurse's office, or the main office if the nurse is in another building, by the parent/guardian or by another adult designated by the parent/guardian. All medication shall be stored in the original pharmacy-labeled container and kept in a locked cabinet designated for storage of medication. Medications that require refrigeration shall be stored and locked in a refrigerator designated only for medications. The district shall not store more than a thirty-day supply of an individual student's medication.

Medication should be recorded and logged in with the date, name of student, name of medication, amount of medication, and signatures of the parent/guardian or designated adult delivering the medication and the school health personnel receiving the medication.

Nonprescription medication must be delivered in its original packaging and labeled with the student's name.

Prescription medication shall be delivered in its original packaging and labeled with:

1. Name, address, telephone and federal DEA (Drug Enforcement Agency) number of the pharmacy.
2. Student's name.
3. Directions for use (dosage, frequency and time of administration, route, special instructions).
4. Name and registration number of the licensed prescriber.
5. Prescription serial number.
6. Date originally filled.
7. Name of medication and amount dispensed.
8. Controlled substance statement, if applicable.

All medication shall be accompanied by a completed Medication Administration Consent and Licensed Prescriber's Medication Order Form, or other written communication from the licensed prescriber. An acceptable form is available near the back of this book.

Administrative Guidelines

A. The nurse and building administrator will determine the number of doses of medication that will be maintained in the health room at one time, not to exceed 30 days as per policy.

B. Parents/guardians are responsible for informing the school of any change in the health or medication of students. When changes occur, the parent/guardian must complete a new medication form.

C. In accordance with the Pennsylvania Nurse Practice Act, the school nurse may refuse to administer a given medication. If the nurse exercises this option, he/she should meet with the building principal and appropriate Director to review the decision and the reason(s) behind it. Following this discussion, the nurse should contact the parents/guardians in a timely fashion.

D. The provisions of this policy are in effect for all District-sponsored activities and field trips and on all school buses.

E. The Greensburg Salem School District, in consideration of dispensation of prescription and nonprescription medication or monitoring of the self-administration of prescription or nonprescription medication by school nurses or duly authorized agents of the Board who are employed by the District, hereby covenants and agrees to hold harmless and indemnify all such

school nurses and duly authorized agents of the Board against any and all claims, damages, expenses, attorney's fees, suits, cause or causes of action in law or equity or any place howsoever which may be brought against any such negligent action or omission done or not done by such school nurse(s) and duly authorized agents of the Board in connection with said dispensation of prescription or nonprescription drugs.

ACCIDENTS

Accidents occurring in school or on the way to or from school are to be reported to the teacher in charge, the office, or school nurse on the same day that the accident occurred. The parent or the person who is listed on the emergency card will be called in case of a serious accident. ***THE EMERGENCY CARDS MUST BE COMPLETED AND RETURNED TO THE HEALTH ROOM THE FIRST WEEK OF SCHOOL.*** Please list two (2) persons who are available in your absence, have transportation, and can assume temporary care of your child in case of illness or injury.

EMERGENCY HEALTH/MEDICAL

The need for planning and preparing for emergency care of accidental injuries and sudden illnesses is of extreme importance in the school. To be effective, responsibility must be designated and fixed in advance. The school principal is responsible for seeing that personnel are ready to carry out the necessary duties in the administration of first aid.

Although the school nurse is responsible for health care in the schools, teachers and other staff members are often the first on the scene of the accident and must be prepared to render first aid. The first aid kits in the middle school are in the nurse's office.

If a student has an accident or becomes ill at school, the school has the responsibility of giving immediate attention to the case by:

A. Notifying the student's parents or guardian as they are primarily responsible for the care and disposition of their children. If the parent/guardian cannot be reached, the two persons listed on the emergency card as being permitted to assume temporary care of the child should be contacted. The child should not be sent home with anyone who is not on the emergency card or who the parent has not approved via writing or telephone.

B. Taking care of the student until the parent or medical authority assumes responsibility.

C. In extreme cases, calling 911 for the ambulance. This decision should be made by the school nurse; however, if the school Nurse is not in the building, the decision should be made by the principal, assistant principal, or head teacher.

D. Guiding parents, whenever necessary, to the source of treatment.

E. In obvious minor injuries (scratches, bruises, abrasions, slight cuts, blisters, etc.) the student will remain in school after first aid has been administered.

FIRST AID

The Greensburg Salem School District makes every effort to provide a safe school environment. If a child is hurt in an accident, first aid will be administered. The school interprets first aid as being the immediate temporary care given to an injured person. Children are to report any injury to the teacher.

In the event an injury or illness occurs that may require emergency ambulance service, the school district officials will use prudent judgment in contacting ambulance service, but the parents and/or their insurance *(NOT THE SCHOOL DISTRICT)* will assume the cost of such emergency services.

ALLERGIC REACTION

In the case of a severe allergic reaction (anaphylaxis) with symptoms of flushing, apprehension, syncope, tachycardia, rash, urticaria, angioedema and respiratory difficulty including wheezing and/or dyspnea, the school nurse, associate principal, and/or head teacher may administer EpiPen Jr. to an elementary or middle school student and EpiPen Sr. to a high school student or adult. The ambulance should be called immediately with the onset of an anaphylactic reaction. When an EpiPen is used, hospital care must be obtained immediately.
The Greensburg Salem School District shall permit students to possess EpiPens (epinephrine auto-injectors) and to self-administer the prescribed medication to treat anaphylaxis when such possessions and use is prescribed by a physician and is parent authorized.
Possession and use of EpiPens by students shall be in accordance with the laws of the Commonwealth of Pennsylvania and Board policy. Please contact the building administrator for complete permission forms and policy information.

ALTERNATIVE MEDICATIONS

Vitamins, herbal extracts, homeopathic/alternative therapies, are not to be given to any student or staff member by the school nurses or any other school personnel. Only FDA approved medications are to be given in school, according to the district's medication policy.

Alternative medications including vitamins and herbal supplements will only be administered to a student if the order is written by a licensed medical doctor.

Under the Pennsylvania Health Regulations, every teacher and principal must immediately exclude from school any child or other person "showing an unusual skin eruption, swelling about the neck suggesting mumps, soreness of the throat, or having symptoms of whooping cough or diseases of the eye."

Code of Conduct

RULES AND REGULATIONS FOR STUDENT BEHAVIOR

The Greensburg Salem School District believes that our schools should provide a varied environment conducive to learning the basic values and standards incorporated in the community. These include the development of self-discipline and individual responsibilities fundamental to a democratic society. Because irresponsible behavior and violations of good conduct can substantially disrupt or interfere with that kind of learning environment, it is necessary to establish and enforce consistent disciplinary regulations and procedures.

Accordingly, the following guidelines for student behavior were drafted after careful study by the Greensburg Salem School Board acting upon the recommendations of a representative group of faculty and administrators.

BEHAVIOR

Rules, procedures, and expectations are communicated to the students at the onset of each school year. The guiding principles for student behavior are respect for others, property, and learning.

Each teacher will establish a set of guidelines and classroom rules within their classroom. Positive Interventions and consequences can be implemented by the classroom teacher at any time with students who do not effectively change their behavior. Behaviors specified in the Guidelines for Student Behavior or behavior deemed to be defiant; blatant disrespect and acts of aggression will result in an immediate referral to the office.

Middle school students go through many changes in their growth and development on a physical and emotional level. It is our hope to help all students understand the impact of their choice in their behavior towards themselves and others and make positive choices to be respectful.

Students who develop a plan of action and change their behavior will return to class without additional consequences. Continued incidents of repeated behavior within a class or across multiple classrooms can result in the following: student conference, parent contact, parent conference, classroom consequences, detention, or suspension.

Investigation Process for Allegations of Misconduct

1. A behavior concern or referral can be submitted to the Greensburg Salem School District personnel through multiple forms. Teacher reports are submitted to the principal and or counselor by written notification using a behavior referral form. If a behavior is immediately harmful to an individual, the observed or reported misconduct may be reported by phone followed by written referral. Alleged misconduct can also be reported by students, parents, and community members. Students can report their concerns to a classroom teacher, guidance counselor, or directly to the main office. Parents' and community members' concerns are received through various means of communication, phone calls, personal visits, and through e-mail.

2. Once a concern has been reported a school representative (Principal, Associate Principal, Guidance Counselor, or other school personal) will investigate the allegation of student misconduct through interviews with the reporting party, the alleged victim, and potential witnesses.

3. The information gathered through the investigation will be evaluated to determine the burden of proof and apply the components as outlined in the Code of Conduct.

4. Interventions resulting from the investigation can result but are not limited to in school discipline, counseling, behavior contracts, parental contact, loss of privileges, exclusion form an activity, counseling recommendations and referral to civil authorities.

STUDENTS RIGHTS

Human rights and equal opportunity are intended for every citizen according to the United States Constitution. Laws are designed to protect individual and group rights. They work well if (1) everyone knows the laws and (2) everyone respects and obeys the laws. The enforcement of the following regulations is in compliance with the procedures provided by law and the *Student Rights and Responsibilities Policy* as adopted by the school board. Parents are encouraged to become familiar with their children's rights by borrowing a copy of the *Regulations and Guidelines on Student Rights and Responsibilities* which is available in the principal's office and school library.

Administration of Medication During Field Trips and Other School-Sponsored Activities

The Board directs planning for field trips and other school-sponsored activities to start early in the school year and to include collaboration between administrators, teachers, nurses, appropriate parents/guardians, and other designated health officials.[10]

Considerations when planning for administration of medication during field trips and other school-sponsored programs and activities shall be based on the student's individual needs and may include the following:

1. Assigning school health staff to be available.
2. Utilizing a licensed person from the school district's substitute list.
3. Contracting with a credible agency which provides temporary nursing services.
4. Utilizing licensed volunteers via formal agreement that delineates responsibilities of both the school and the individual.
5. Addressing with parent/guardian the possibility of obtaining from the licensed prescriber a temporary order to change the time of the dose.
6. Asking parent/guardian to accompany the child on the field trip, with proper clearances.
7. Arranging for medications to be provided in an original labeled container with only the amount of medication needed.

Security procedures shall be established for the handling of medication during field trips and other school-sponsored activities.

POSSESSION/ADMINISTRATION OF ASTHMA INHALERS/EPINEPHRINE AUTO-INJECTORS – 210.1

Authority

The Board shall permit students in district schools to possess asthma inhalers and epinephrine auto-injectors and to self-administer the prescribed medication in compliance with state law and Board policy.[1][2]

The Board shall authorize the district to stock epinephrine auto-injectors in the name of the school district for emergency administration by trained employees to a student believed to be experiencing an anaphylactic reaction.[3]

Definitions

Anaphylaxis - a sudden, severe allergic reaction that involves various areas of the body simultaneously. In extreme cases, anaphylaxis can cause death.

Asthma inhaler shall mean a prescribed device used for self-administration of short-acting, metered doses of prescribed medication to treat an acute asthma attack.[4]

Epinephrine auto-injector shall mean a prescribed disposable drug delivery system designed for the administration of epinephrine to provide rapid first aid for students suffering from the effects of anaphylaxis.

Self-administration shall mean a student's use of medication in accordance with a prescription or written instructions from a licensed physician, certified registered nurse practitioner or physician assistant.

Delegation of Responsibility

The Superintendent or designee, in conjunction with the school nurse(s), shall develop procedures for student possession and self-administration of asthma inhalers or epinephrine auto-injectors and emergency response, and for the acquisition, stocking and administration of stock epinephrine auto-injectors, and training of school employees responsible for the storage and use of epinephrine auto-injectors.

The Superintendent or designee shall annually distribute to students, parents/guardians, and staff this policy along with the Code of Student Conduct by publishing such in handbooks and newsletters, on the district's website, and through posted notices and other efficient methods.[1][5][6][7]

The school physician shall be the prescribing and supervising medical professional for the district's stocking and use of epinephrine auto-injectors. The Superintendent or designee shall obtain a standing order from the school physician for administration of stock epinephrine auto-injectors.

The school nurse shall be responsible for building-level storage of and administration of stock epinephrine auto-injectors.[3]

The building principal shall annually notify parents/guardians of their right to opt-out of the provisions of this policy related to the administration of a stock epinephrine auto-injector. To opt-out, a parent/guardian shall sign and return the district's exemption form to the school nurse. The signed opt-out forms shall be maintained by the school nurse, and the school nurse shall provide trained school employees with the names of students whose parents/guardians have returned a signed opt-out form.[3]

Guidelines

Administration of asthma inhalers and epinephrine auto-injectors shall comply with Board policy, district procedures and individualized student plans such as an Individualized Education Program (IEP), Section 504 Service Agreement (Service Agreement), Individualized Healthcare Plan (IHP), or Emergency Care Plan (ECP).[2][3][8][9][10][11]

In order to maintain a student's health and safety, each student's individualized plan shall address what information will be provided to school staff and other adults who have responsibility for the student in the school setting.[2][9][12][13][14][15]

Student health records shall be confidential and maintained in accordance with state and federal laws and regulations.[13][14]

Student Self-Administration of Asthma Inhalers and Epinephrine Auto-Injectors

Before a student may possess or use an asthma inhaler or epinephrine auto-injector in the school setting, the Board shall require the following:[1][8]

1. A written request from the parent/guardian that the school complies with the order of the licensed physician, certified registered nurse practitioner or physician assistant.
2. A written statement from the parent/guardian acknowledging that the school is not responsible for ensuring the medication is taken and relieving the district and its employees of responsibility for the benefits or consequences of the prescribed medication.
3. A written statement from the licensed physician, certified registered nurse practitioner or physician assistant that states:
    a. Name of the drug.
    b. Prescribed dosage.
    c. Times medication is to be taken.
    d. Length of time medication is prescribed.
    e. Diagnosis or reason for medication is needed, unless confidential.
    f. Potential serious reaction or side-effects of medication.
    g. Emergency response.
    h. If a child is qualified and able to self-administer the medication.
4. A written acknowledgement from the school nurse that the student has demonstrated that s/he is capable of self-administration of the asthma inhaler and/or epinephrine auto-injector in the school setting. Determination of competency for self-administration shall be based on the student's age, cognitive function, maturity, and demonstration of responsible behavior.[1]
5. A written acknowledgement from the student that s/he has received instruction from the student's licensed physician, certified registered nurse practitioner or physician assistant on proper safety precautions for the handling and disposal of the asthma inhaler and/or epinephrine auto-injector, including acknowledgement that the student will not allow other students to have access to the prescribed medication and that s/he understands appropriate safeguards.

The district reserves the right to require a statement from the licensed physician, certified registered nurse practitioner or physician assistant for the continued use of a medication beyond the specified time period.[1]

A written request for student use of an asthma inhaler and/or epinephrine auto-injector shall be submitted annually, along with required written statements from the parent/guardian and an updated prescription. If there is a change in the student's prescribed care plan, level of self-management or school circumstances during the school year, the parent/guardian and the licensed physician, certified registered nurse practitioner or physician assistant shall update the written statements.[1]

The student shall notify the school nurse immediately following each use of an asthma inhaler or epinephrine auto-injector.[1]

Students shall be prohibited from sharing, giving, selling, and using an asthma inhaler or epinephrine auto-injector in any manner other than which it is prescribed during school hours, at any time while on school property, at any school-sponsored activity, and during the time spent traveling to and from school and school-sponsored activities. Violations of this policy, provisions of a Service Agreement or IEP, or demonstration of unwillingness or inability to safeguard the asthma inhaler or epinephrine auto-injector may result in loss of privilege to self-carry the asthma inhaler or epinephrine auto-injector and disciplinary action in accordance with Board policy and applicable procedural safeguards.[1][2][7][16][17]

If the district denies a student's request to self-carry an asthma inhaler or epinephrine auto-injector or the student has lost the privilege of self-carrying an asthma inhaler or epinephrine auto-injector, the student's prescribed medication shall be appropriately stored at a location in close proximity to the student. The school nurse, other designated school employees, and the student's classroom teachers shall be informed where the medication is stored and the means to access the medication.[1]

Standing Order from the School Physician

The school physician shall provide and annually renew a standing order for administration of stock epinephrine auto-injectors to students believed to be experiencing an anaphylactic reaction.

The standing order shall include at least the following information:

1. Type of epinephrine auto-injector.
2. Date of issue.
3. Dosage.
4. Signature of the school physician.

The standing order shall be maintained in the Superintendent's office, and copies of the standing order shall be kept in each location where a stock epinephrine auto-injector is stored.

One or more school employees shall be designated within each school to be responsible for the storage and use of the stock epinephrine auto-injectors.[3]

Stock epinephrine auto-injectors shall be safely stored in the school nurse's office or other location designated by the school nurse in accordance with the drug manufacturer's instructions.

Stock epinephrine auto-injectors shall be made readily accessible to those employees who have completed the required training to administer it in the event of a student experiencing an anaphylactic reaction. All properly trained employees shall be informed of the exact location where stock epinephrine auto-injectors are being stored within the school nurse's office or other location.

The school nurse shall obtain sufficient supplies of stock epinephrine auto-injectors pursuant to the standing order in the same manner as other medical supplies acquired for the school's health program. The school nurse or designee shall regularly inventory and refresh epinephrine auto-injector stocks, and maintain records thereof, in accordance with the established internal procedures, manufacturer recommendations and Pennsylvania Department of Health guidelines.

Administration of Stock Epinephrine Auto-Injectors

When responding to a student believed to be experiencing an anaphylactic reaction, a trained school employee shall:[3][18][19][20][21]

1. Administer an epinephrine auto-injector that meets the prescription on file for either the student or the district. If the student is authorized to self-administer an epinephrine auto-injector, the trained school employee may provide the student with an epinephrine auto-injector that meets the prescription on file for either the student or the district for self-administration.
2. Call for medical help immediately (dial 9-1-1).
3. Take additional precautions or steps outlined in emergency response procedures and training, including the administration of a second dose of epinephrine, if necessary.
4. Stay with the student until emergency medical help arrives.

A list of school district employees who successfully complete such training shall be maintained, updated, and kept in the school nurse's office and the school district administration office.

Indemnification

The school district shall indemnify and hold harmless any employee who administers an epinephrine auto-injector in good faith to a student experiencing anaphylaxis, if all of these conditions apply:[3][22][23][24]

1. The employee did not act with the intent to harm or with reckless indifference to a substantial risk or harm in administering the epinephrine auto-injector to the student.
2. The employee successfully completed the training required by this policy.
3. The employee promptly sought additional medical assistance before or immediately after administering the epinephrine auto-injector.
4. The employee administered the epinephrine auto-injector pursuant to this policy, and the student's individualized plan, if applicable.

At each level the student shall be afforded the opportunity to be heard personally by the school authority.

STUDENT EXPRESSION/DISTRIBUTION AND POSTING OF MATERIALS – 220

Purpose

The right of public-school students to freedom of speech is guaranteed by the Constitution of the United States and the constitution of the Commonwealth. The Board respects the right of students to express themselves in word or symbol and to distribute and post materials in areas designated for posting as a part of that expression. The Board also recognizes that the exercise of that right must be limited by the district's responsibility to maintain a safe and orderly school environment and to protect the rights of all members of the school community.[1]

This policy addresses student expression in general and distribution and posting of materials that are not part of district-sponsored activities. Materials sought to be distributed or posted as part of the curricular or extracurricular programs of the district shall be regulated as part of the school district's educational program.

Definitions

Distribution means students issuing non-school materials to others on school property or during school-sponsored events; placing upon desks, tables, on or in lockers; or engaging in any other manner of delivery of non-school materials to others while on school property or during school functions. When email, text messaging or other technological delivery is used as a means of distributing or accessing non-school materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after-hours distribution, including technological distribution, that does or is likely to materially or substantially interfere with the educational process, including school activities, schoolwork, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights is also covered by this policy.

Expression means verbal, written, technological, or symbolic representation or communication.

Non-school materials mean any printed, technological or written materials meant for posting or general distribution that are not prepared as part of the curricular or approved extracurricular programs of the district. This includes, but is not limited to, fliers, invitations, announcements, pamphlets, posters, Internet bulletin boards, personal websites and the like.

Posting means publicly displaying non-school materials on school property or at school-sponsored events, including but not limited to affixing such materials to walls, doors, bulletin boards, easels, the outside of lockers; on district-sponsored or student websites; through other district-owned technology and the like. When email, text messaging or other technological delivery is used as a means of posting non-school materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours posting, including technological posting, that does or is likely to materially or substantially interfere with the educational process, including school activities, schoolwork, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights is also covered by this policy.

Authority

Students have the right to express themselves unless such expression is likely to or does materially or substantially interfere with the educational process, including school activities, schoolwork, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights.[1]

Student expression that occurs on school property or at school-sponsored events is fully governed by this policy. In addition, off-campus or after hours expression is governed by this policy if the student expression involved constitutes unprotected expression as stated in this policy and provided the off-campus or after hours expression does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights.[1][2][3]

The Board requires that distribution and posting of non-school materials shall occur only at the places and during the times set forth in written procedures. Such procedures shall be written to permit the safe and orderly operation of schools, while recognizing the rights of students to engage in protected expression.[1][4]

Unprotected Student Expression

The Board reserves the right to designate and prohibit manifestations of student expression that are not protected by the right of free expression because they violate the rights of others or where such expression is likely to or does materially or substantially interfere with school activities, schoolwork, discipline, safety and order on school property or at school functions. While the following list is not intended to be exhaustive, such expression shall not be protected if it:

1. Violates federal, state or local laws, Board policy or district rules or procedures.
2. Is libelous, defamatory, obscene, lewd, vulgar or profane.[3]
3. Advocates the use or advertises the availability of any substance or material that may reasonably be believed to constitute a direct and serious danger to the health or welfare of students, such as tobacco/nicotine, alcohol or illegal drugs.
4. Incites violence, advocates use of force or threatens serious harm to the school or community.
5. Is likely to or does materially or substantially interfere with the educational process, such as school activities, schoolwork, discipline, safety and order on school property or at school functions.
6. Interferes with, or advocates interference with, the rights of any individual or the safe and orderly operation of the schools and their programs.
7. Violates written school district procedures on time, place and manner for posting and distribution of otherwise protected expression.

Spontaneous student expression which is otherwise protected speech is not prohibited by this section.

Discipline for Engaging in Unprotected Expression

The Board reserves the right to prohibit the posting or distribution of non-school materials containing unprotected expression and to prohibit students from engaging in other unprotected student expression, as well as to stop unprotected student expression when it occurs. The Board reserves the right to discipline students for engaging in unprotected expression. Where such

expression occurs off campus and away from school functions, a nexus between the unprotected expression and a material and substantial disruption of the school program must be established.

Distribution of Non-school Materials

The Board requires that students who wish to distribute or post non-school materials on school property shall submit them at least one (1) school day in advance of planned distribution or posting to the building principal or designee, who shall forward a copy to the Superintendent.[1]

If the non-school materials contain unprotected expression as stated in this policy, the building principal or designee shall notify the students that they may not post or distribute the materials because the materials constitute a violation of Board policy.

If notice is not given during the period between submission and the time for the planned distribution or posting, students may proceed with the planned distribution or posting, provided they comply with written procedures on time, place and manner of posting or distribution of non-school materials.

Students who post or distribute non-school materials in compliance with this provision may still be ordered to desist such distribution if the materials are later found to be unprotected expression under this policy.

Students who distribute printed materials shall be responsible for clearing any litter that results from their activity and shall schedule the event so that they do not miss instructional time themselves.

Posting of Non-school Materials

If a school building has an area where individuals are allowed to post non-school materials, students may post such items as well, if the materials do not constitute unprotected expression and the items are submitted for prior review in the same manner as if the students were going to distribute them.

Such materials shall be officially dated, and the district may remove the materials within ten (10) days of the posting or other reasonable time as stated in the procedures relating to posting.

Review of Student Expression

School officials shall not censor or restrict non-school materials or other student expression for the sole reason that it is critical of the school or its administration, or because the views espoused are unpopular or may make people uncomfortable.

Student-initiated religious expression is permissible and shall not be prohibited except as to time, place and manner of distribution, or if the expression involved violates some other part of this policy, e.g., because it is independently determined to be unprotected expression under the standards and definitions of this policy.

The review for unprotected expression shall be reasonable and not calculated to delay distribution.

Appeal of the reviewer's decision may be made to the Superintendent and then to the Board, in accordance with Board policy and district procedures.[5]

Delegation of Responsibility

The Superintendent shall assist the building principal in determining the designation of the places and times non-school materials may be distributed in each school building. Such designations may take into account maintenance of the flow of student traffic throughout the school and shall limit distribution of non-school materials to noninstructional times.

The building principal may determine disciplinary action for students who distribute or post non-school materials in violation of this policy and district procedures, or who continue the manifestation of unprotected expression after a person in authority orders that they desist. Disciplinary actions shall be included in the disciplinary Code of Student Conduct.[6]

This Board policy and any procedures written to implement this policy shall be referenced in student handbooks so that students can access them for further information.

DRESS AND GROOMING – 221

Purpose

The Board recognizes that each student's mode of dress and grooming is a manifestation of personal style and individual preference.

Authority

The Board has the authority to impose limitations on students' dress in school. The Board will not interfere with the right of students and their parents/guardians to make decisions regarding their appearance, except when their choices disrupt the educational program of the schools or constitute a health or safety hazard.[1][2]

Students may be required to wear certain types of clothing while participating in physical education classes, technical education, extracurricular activities, or other situations where special attire may be required to ensure the health or safety of the student.[2]

Delegation of Responsibility

The building principal or designee shall be responsible to monitor student dress and grooming, and to enforce Board policy and school rules governing student dress and grooming.

The Superintendent or designee shall ensure that all school rules implementing this policy impose only the minimum necessary restrictions on the exercise of the student's taste and individuality.[2]

Staff members shall be instructed to demonstrate, by example, positive attitudes toward neatness, cleanliness, propriety, modesty, and good sense in attire and appearance.[3]

TOBACCO AND VAPING PRODUCTS – 222

Purpose

The Board recognizes that tobacco and vaping products, including the product marketed as Juul and other electronic cigarettes, present a health and safety hazard that can have serious consequences for users, nonusers and the school environment. The purpose of this policy is to prohibit student possession, use, purchase and sale of tobacco and vaping products, including Juuls and other electronic cigarettes.

Definition

State law defines the term **tobacco product** to broadly encompass not only tobacco but also vaping products including Juuls and other electronic cigarettes (e-cigarettes). **Tobacco products**, for purposes of this policy and in accordance with state law, shall be defined to include the following:[1][2]

1. Any product containing, made or derived from tobacco or nicotine that is intended for human consumption, whether smoked, heated, chewed, absorbed, dissolved, inhaled, snorted, sniffed or ingested by any other means, including, but not limited to, a cigarette, cigar, little cigar, chewing tobacco, pipe tobacco, snuff and snus.

3. Any product containing, made or derived from either:

    a. Tobacco, whether in its natural or synthetic form; or

b. Nicotine, whether in its natural or synthetic form, which is regulated by the United States Food and Drug Administration as a deemed tobacco product.

4. Any component, part or accessory of the product or electronic device listed in this definition, whether or not sold separately.

The term **tobacco product** does not include the following:[1][2]

1. A product that has been approved by the United States Food and Drug Administration for sale as a tobacco cessation product or for other therapeutic purposes where the product is marketed and sold solely for such approved purpose, as long as the product is not inhaled. NOTE: *This exception shall be governed by Board policy relating to Medications.*[3]

2. A device, included under the definition of tobacco product above, if sold by a dispensary licensed in compliance with the Medical Marijuana Act. NOTE: *Guidance issued by the PA Department of Health directs schools to prohibit possession of any form of medical marijuana by students at any time on school property or during any school activities on school property. This exception shall be governed by Board policy relating to Controlled Substances/Paraphernalia.*[4]

Authority

The Board prohibits possession, use, purchase or sale of tobacco and vaping products, including the product marketed as Juul and other e-cigarettes, regardless of whether such products contain tobacco or nicotine, by or to students at any time in a school building; on school buses or other vehicles that are owned, leased or controlled by the school district; on property owned, leased or controlled by the school district; or at school-sponsored activities that are held off school property.[1][2][5]

The Board prohibits student possession or use of products marketed and sold as tobacco cessation products or for other therapeutic purposes, except as authorized in the Board's Medication policy.[3]

The Board prohibits student possession of any form of medical marijuana at any time in a school building; on school buses or other vehicles that are owned, leased, or controlled by the school district; on property owned, leased, or controlled by the school district; or at school-sponsored activities that are held off school property.[4]

The Board authorizes the confiscation and disposal of products prohibited by this policy.

Delegation of Responsibility

The Superintendent or designee shall develop administrative regulations to implement this policy.

The Superintendent or designee shall notify students, parents/guardians and staff about the Board's tobacco and vaping products policy by publishing information in student handbooks, parental newsletters, posters, and by other efficient methods, such as posted notices, signs and on the district website.[2]

Reporting

Parental Report –

The Superintendent or designee shall notify the parent/guardian of any student directly involved in an incident involving possession, use, purchase or sale of a tobacco or vaping product, including a Juul or other e-cigarette, immediately, as soon as practicable. The Superintendent or designee shall inform the parent/guardian whether the local police department that has jurisdiction over the school property has been or may be notified of the incident. The Superintendent or designee shall document attempts made to reach the parent/guardian.[6][7][8]

Office for Safe Schools Report -

The Superintendent shall annually, by July 31, report all incidents of possession, use or sale of tobacco and vaping products, including Juuls or other e-cigarettes, by students to the Office for Safe Schools on the required form.[8][9]

Law Enforcement Incident Report –

The Superintendent or designee may report incidents of possession, use or sale of tobacco and vaping products, including Juuls or other e-cigarettes, by students on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity to the school police, School Resource Officer (SRO) or to the local police department that has jurisdiction over the school's property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[1][2][6][8][9][10][11]

Guidelines

A student who violates this policy shall be subject to prosecution initiated by the district and, if convicted, shall be required to pay a fine for the benefit of the district, plus court costs. In lieu of the imposition of a fine, the court may admit the student to an adjudication alternative.[2]

Tampering with devices installed to detect use of tobacco or vaping products shall be deemed a violation of this policy and subject to disciplinary action.[12]

Students with Disabilities

In the case of a student with a disability, including a student for whom an evaluation is pending, the district shall take all steps required to comply with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[8][13][14][15][16][17]

SEARCHES – 226

Purpose

The Board acknowledges the need to respect the rights of students to be free from unreasonable searches and seizures while fulfilling the district's interest in protecting and preserving the health, safety and welfare of the school population, enforcing rules of conduct, and maintaining an appropriate atmosphere conducive to learning.

Authority

School officials have the authority to lawfully search students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, without a warrant, when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.[1][2][3][4]

The district has a compelling interest in protecting and preserving the health, safety, and welfare of the school population, which under certain circumstances may warrant general or random searches of students and their lockers, vehicles, or other belongings without individualized suspicion, for the purpose of finding or preventing entry onto school property of controlled substances, weapons, or other dangerous materials.[5][6][7]

Delegation of Responsibility

The Board authorizes the administration to conduct searches of students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions in accordance with the standards set forth in this policy.

The Superintendent or designee, in consultation with the district solicitor, shall develop guidelines and procedures to implement this policy, and shall ensure that school staff who are involved in carrying out searches or determining when searches will be conducted receive appropriate periodic training about such procedures and currently applicable legal standards.[3]

Students, parents/guardians and staff shall be notified at least annually, or more often if deemed appropriate by administration, about the standards and procedures in effect pursuant to this policy.

Guidelines

Individualized Suspicion Searches

Students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, may be searched without a warrant when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.[3]

In determining whether reasonable suspicion exists, the principal or designee always should be able to articulate what is being looked for, and why it is thought to be located in the particular place to be searched. The scope of a search should be limited to the place or places the item sought is believed to be.

Examination by school staff of text messages, call logs, files, images or other data contained in a student's mobile telephone or other electronic device, without the student's consent, normally constitutes a search that must be justified by reasonable suspicion that material in violation of law, district policy or school rules, or evidence of such a violation, is contained in the particular files, directories or other data locations being examined in the device.

Random or General Searches Without Individualized Suspicion

Under certain circumstances, random or general searches of students and their belongings, including student lockers or vehicles parked on school property, may be conducted during the school day or upon entry into school buildings or school activities, in the absence of suspicion focused on a particular student or students, for the purpose of finding or preventing entry onto school property or activities of controlled substances, weapons or other dangerous materials. Such searches normally will be conducted in a minimally intrusive manner using screening methods such as dogs or other animals trained to detect controlled substances, explosives or other harmful materials by smell, as well as metal detectors and other technology. When such screening methods provide a reasonable suspicion that particular students, items or places possess or contain controlled substances, weapons or other dangerous material, screening may be followed by physical searches of those particular students, items or places on an individualized basis.

Random or general searches for weapons may be conducted when there are circumstances, information or events tending to indicate increased likelihood that students may be armed or headed for physical confrontation because of community strife or tensions, or as a continuation or escalation of a prior incident, in or out of school, which threatens to spill over into school, into a school-sponsored activity, or into other times and places that students are under school supervision.

Random or general searches for controlled substances may be conducted when there are circumstances, events or information tending to indicate significant drug use, possession or trafficking among students in school.

Random or general searches not based on individualized suspicion must be approved in advance by the Superintendent or designee, in consultation with the district solicitor. Coordination with law enforcement officials will be accomplished as provided in the memorandum of understanding with the applicable law enforcement agency.[8]

Searches Upon Consent

Searches may be conducted at any time, with or without reasonable suspicion, if the student has given knowing and voluntary consent specific to the place to be searched.

The administration may establish rules and procedures governing certain privileges enjoyed by students, such as the privilege of parking a vehicle on school grounds, that make the student's consent to random searches or inspections a condition of access to the privilege.[6]

Searches by or at the Request of Law Enforcement Officials

The legal standards governing searches initiated by school officials are less strict than the standards applicable to law enforcement authorities in many situations. When searches of students, student belongings, vehicles or lockers are conducted by or at the request of law enforcement officials, with or without the involvement of school staff, the law enforcement officials are solely responsible for ensuring that a warrant has been issued or that the circumstances otherwise permit the search to be lawfully conducted in accordance with the standards applicable to law enforcement actions. School staff will not interfere with or obstruct searches initiated by law enforcement but may assist when law enforcement officials have requested such assistance and have represented that a warrant has been issued or that they otherwise have proper authority for a lawful search.[8]

Locker Inspections and Searches

Lockers are assigned to or otherwise made available to students as a convenience for the safe storage of books, clothing, school materials and limited personal property, and to facilitate movement between classes and activities and to and from school. Such lockers are and shall remain the property of the school district, and to the extent students have any expectation of privacy of lockers at all, it is very limited.

No student may place or keep in a locker any substance or object that is prohibited by law, Board policy or school rules, or that constitutes a threat to the health, safety or welfare of the occupants of the school building or the building itself. Students are required to ensure that their lockers do not contain spoiled food items or beverages, or soiled clothing which may attract pests, create odors or cause unhealthy conditions. A student locker may be opened and inspected for cleanliness, with or without the consent of the student, whenever there are odors, pests or other indications that a locker contains spoiled food, soiled clothing in need of laundering or similarly unhealthy matter.

Students are exclusively responsible for locking their assigned lockers to ensure the security of their personal belongings and school property entrusted to them. Students are permitted to secure their assigned lockers only with locks provided by the district, or if the district does not provide locks, personal combination locks for which the combination has been provided to designated school staff.

Prior to an individual locker search or inspection, the student to whom the locker is assigned shall be notified and be given a reasonable opportunity to be present. However, when there is a reasonable suspicion that a locker contains materials which pose a threat to the health, welfare or safety of the school population, student lockers may be searched without prior notice to the student.

The principal or a designated staff person shall be present whenever a student locker is inspected for cleanliness or is searched. The principal or designee shall maintain written records of all occasions when a locker is searched or inspected. Such records shall include the reason(s) for the search, persons present, objects found and their disposition.

Searches Involving Removal of Clothing or Examination Beneath Clothing

Searches of students involving the removal of undergarments or examination beneath undergarments are subject to stricter standards than are required to justify other searches of a student's person or belongings. Such searches are permitted only when the basis for suspicion establishes either:

1. That the reasons for believing that the items being searched for are concealed specifically inside undergarments are stronger reasons than grounds that would support only a more general reasonable suspicion that the student is in possession of the items or has them somewhere on the student's person; or,

2. That the quantity or nature of the items being sought present a higher level of danger to the school population than other kinds of contraband.

Searches involving the removal of or examination beneath any clothing of a student, other than jackets, coats or other outerwear, shall be conducted only by a staff person of the same gender as the student, with at least one (1) other staff person of the same gender present as a witness, and in a location assuring privacy from observation by persons not involved in the search or of the opposite sex.

Searches involving the removal of undergarments or examination beneath undergarments will be conducted only after consultation with the district solicitor.

Handling and Disposal of Items Found in the Course of Searches

Any items or material found during a search or inspection, the student's possession of which is in violation of law, district policies or school rules, or otherwise is evidence of such a violation, may be confiscated, and may be used as evidence in student discipline proceedings or a criminal investigation, even if such items or material were not the original objective of the search or inspection.

The principal shall be responsible to ensure that confiscated items or material are properly inventoried and secured until the conclusion of disciplinary action, if any, and are then properly disposed of if not appropriate to be returned to the student. Items or materials that are evidence of a criminal offense, or that are not lawful for ordinary citizens to possess will be promptly turned over to proper law enforcement authorities for custody or disposal.

CONTROLLED SUBSTANCES /PARAPHERNALIA – 227

Purpose

The Board recognizes that the abuse of controlled substances is a serious problem with legal, physical and social implications for the whole school community. As an educational institution, the schools shall strive to prevent abuse of controlled substances.

Definitions

For purposes of this policy, **controlled substances** shall include all:[1][2]

1. Controlled substances prohibited by federal and state laws.
2. Look-alike drugs.
3. Alcoholic beverages.
4. Anabolic steroids.
5. Drug paraphernalia.
6. Any volatile solvents or inhalants, such as but not limited to glue and aerosol products.
7. Substances that when ingested cause a physiological effect that is similar to the effect of a controlled substance as defined by state or federal laws.
8. Prescription or nonprescription (over the counter) medications, except those for which permission for use in school has been granted pursuant to Board policy.[3][4]

For purposes of this policy, **under the influence** shall include any consumption or ingestion of controlled substances by a student.

For purposes of this policy, **look-alike drug** shall include any pill, capsule, tablet, powder, plant matter or other item or substance that is designed or intended to resemble a controlled substance prohibited by this policy, or is used in a manner likely to induce others to believe the material is a controlled substance.

Authority

The Board prohibits students from using, possessing, distributing, and being under the influence of any controlled substances during school hours, at any time while on school property, at any school-sponsored activity, and during the time spent traveling to and from school and to and from school-sponsored activities.[5][6][7]

The Board may require participation in drug counseling, rehabilitation, testing or other programs as a condition of reinstatement into the school's educational, extracurricular or athletic programs resulting from violations of this policy.

In the case of a student with a disability, including a student for whom an evaluation is pending, the district shall take all steps required to comply with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[8][9][10][11][12][13]

Off-Campus Activities

This policy shall also apply to student conduct that occurs off school property and would otherwise violate the Code of Student Conduct if any of the following circumstances exist:[14]

1. The conduct occurs during the time the student is traveling to and from school or traveling to and from school-sponsored activities, whether or not via school district furnished transportation.
2. The student is a member of an extracurricular activity and has been notified that particular off-campus conduct could result in exclusion from such activities.[15][16]
3. Student expression or conduct materially and substantially disrupts the operations of the school, or the administration reasonably anticipates that the expression or conduct is likely to materially and substantially disrupt the operations of the school.
4. The conduct has a direct nexus to attendance at school or a school-sponsored activity, for example, a transaction conducted outside of school pursuant to an agreement made in school, that would violate the Code of Student Conduct if conducted in school.
5. The conduct involves the theft or vandalism of school property.
6. There is otherwise a nexus between the proximity or timing of the conduct in relation to the student's attendance at school or school-sponsored activities.

Delegation of Responsibility

The Superintendent or designee shall develop administrative regulations to identify and control substance abuse in the schools which:

1. Establish procedures to appropriately manage situations involving students suspected of using, possessing, being under the influence, or distributing controlled substances.[17][18][19]
2. Disseminate to students, parents/guardians and staff the Board policy and administrative regulations governing student use of controlled substances.

3. Provide education concerning the dangers of abusing controlled substances.

4. Establish procedures for education and readmission to school of students convicted of offenses involving controlled substances.

Guidelines

Violations of this policy may result in disciplinary action up to and including expulsion and referral for prosecution.[14][20]

The Superintendent or designee shall immediately report required incidents and may report discretionary incidents involving possession, use or sale of controlled substances on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity to the local police department that has jurisdiction over the school's property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[13][17][18][21][22][23]

The Superintendent or designee shall notify the parent/guardian of any student directly involved in an incident involving possession, use or sale of controlled substances as a victim or suspect immediately, as soon as practicable. The Superintendent or designee shall inform the parent/guardian whether or not the local police department that has jurisdiction over the school property has been or may be notified of the incident. The Superintendent or designee shall document attempts made to reach the parent/guardian.[13][21][24]

In accordance with state law, the Superintendent shall annually, by July 31, report all incidents of possession, use or sale of controlled substances to the Office for Safe Schools.[13][18]

In all cases involving students and controlled substances, the need to protect the school community from undue harm and exposure to drugs shall be recognized.

No student may be admitted to a program that seeks to identify and rehabilitate the potential abuser without the intelligent, voluntary and aware consent of the student and parent/guardian.

Anabolic Steroids

The Board prohibits the use of anabolic steroids by students involved in school-related athletics, except for a valid medical purpose. Body building and muscle enhancement, increasing muscle bulk or strength, or the enhancement of athletic ability are not valid medical purposes. Human Growth Hormone (HGH) shall not be included as an anabolic steroid.[25]

Students shall be made aware of the dangers of steroid use; that anabolic steroids are classified as controlled substances; and that their use, unauthorized possession, purchase, or sale could subject students to suspension, expulsion and/or criminal prosecution.[20][26]

Reasonable Suspicion/Testing

If based on the student's behavior, medical symptoms, vital signs or other observable factors, the building principal has reasonable suspicion that the student is under the influence of a controlled substance, the student may be required to submit to drug or alcohol testing. The testing may include but is not limited to the analysis of blood, urine, saliva, or the administration of a Breathalyzer test.

STUDENT FUNDRAISING - 229

Purpose

The Board acknowledges that solicitation of funds from students must be limited because compulsory attendance laws make the student a captive donor and such solicitation may disrupt the educational program of the schools.

Definition

For purposes of this policy, **student fundraising** shall include solicitation and collection of money by students in exchange for goods or services.

Authority

The Board prohibits the collection of money by a student for personal benefit in school buildings, on school property or at any school-sponsored activity.

District students are not obligated to conduct door-to-door sales for fundraising activities.

Delegation of Responsibility

Collection of money by approved school organizations may be permitted by the building principal.[1]

Collections by students on behalf of school organizations outside the schools may be permitted only by the Superintendent or designee.

The Superintendent or designee shall develop administrative regulations to implement this policy.

The building principal shall distribute this policy and relevant procedures to each student organization granted permission to solicit funds.

Funds solicited shall be controlled by Policy 618.[2]

SUSPENSIONS AND EXPULSION – 233

Purpose

The Board recognizes that exclusion from the educational program of the schools, whether by suspension or expulsion, is the most severe sanction that can be imposed on a student and one that cannot be imposed without due process. The Board shall define and publish the types of offenses that would lead to exclusion from school. Exclusions affecting students with disabilities shall be governed by applicable state and federal law and regulations.[1][2][3][4][5]

Authority

The Board may, after a proper hearing, suspend or expel a student for such time as it deems necessary, or may permanently expel a student.[1][6][7]

Guidelines

Exclusion From School - Suspension

The principal or person in charge of the school may suspend any student for disobedience or misconduct for a period of one (1) to ten (10) consecutive school days and shall immediately notify the parent/guardian and the Superintendent in writing when the student is suspended.[1][7]

No student may be suspended without notice of the reasons for which s/he is suspended and an opportunity to be heard on his/her own behalf before the school official who holds the authority to reinstate the student. Prior notice is not required where it is clear that the health, safety or welfare of the school population is threatened. Suspensions may not be made to run consecutively beyond the ten-school day period.[1]

When a suspension exceeds three (3) school days, the student and parent/guardian shall be given the opportunity for an informal hearing with the designated school official. Such hearing shall take place as soon as possible after the suspension, and the district shall offer to hold it within the first five (5) days of the suspension.[1][6]

Informal hearings under this provision shall be conducted by the building principal.

Purpose of Informal Hearing

The purpose of the informal hearing is to permit the student to explain the circumstances surrounding the event leading to the suspension, to show why the student should not be suspended, and to discuss ways to avoid future offenses.[6]

Due Process Requirements for Informal Hearing[6]

1. The student and parent/guardian shall be given written notice of the reasons for the suspension.
2. The student and parent/guardian shall receive sufficient notice of the time and place of the informal hearing.
3. The student may question any witnesses present at the informal hearing.
4. The student may speak and produce witnesses who may speak at the informal hearing.
5. The district shall offer to hold the informal hearing within five (5) days of the suspension.

Exclusion From Class - In-School Suspension

No student may receive an in-school suspension without notice of the reasons for which s/he is suspended and an opportunity to be heard prior to the time the suspension becomes effective. The parent/guardian shall be informed of the suspension action taken by the school.[2]

Should the in-school suspension exceed ten (10) consecutive school days, the student and parent/guardian shall be offered an informal hearing with the building principal. Such hearing shall take place prior to the eleventh day of the in-school suspension. The procedure shall be the same as the procedure for informal hearings held in connection with out-of-school suspensions.[2][6]

The district shall provide for the student's education during the period of in-school suspension.[2]

Expulsion

Expulsion is exclusion from school by the Board for a period exceeding ten (10) consecutive school days. The Board may permanently expel from the district rolls any student whose misconduct or disobedience warrants this sanction. No student shall be expelled without an opportunity for a formal hearing before the Board, a duly authorized committee of the Board, or a qualified hearing examiner appointed by the Board, and upon action taken by the Board after the hearing.[1][6][7]

Expulsion Hearings

A formal hearing shall be required in all expulsion actions.[1][6][7][8]

The formal hearing shall observe the due process requirements of:[6]

1. Notification of the charges in writing by certified mail to the student's parent/guardian.
2. At least three (3) days' notice of the time and place of the hearing, which shall include a copy of this policy, hearing procedures, and notice of the right to representation by legal counsel. A student may request the rescheduling of the hearing when s/he demonstrates good cause for an extension.
3. The hearing shall be private unless the student or parent/guardian requests a public hearing.
4. Representation by counsel at the parent's/guardian's expense and parent/guardian may attend the hearing.
5. Disclosure of the names of witnesses against the student and copies of their written statements or affidavits.
6. The right to request that witnesses against the student appear in person and answer questions or be cross-examined.
7. The right to testify and present witnesses on the student's behalf.
8. A written or audio record shall be kept of the hearing and a copy made available to the student at the student's expense, or at no charge if the student is indigent.
9. The hearing shall be held within fifteen (15) school days of the notice of charges, unless a delay is mutually agreed to by both parties or is delayed by:
    a. The need for laboratory reports from law enforcement agencies.
    b. Evaluations or other court or administrative proceedings are pending due to a student's invoking his/her rights under the Individuals with Disabilities Education Act (IDEA).
    c. Delay is necessary due to the condition or best interests of the victim in cases of juvenile or criminal court involving sexual assault or serious bodily injury.
10. Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

Adjudication

A written adjudication shall be issued after the Board has acted to expel a student. The adjudication may include additional conditions or sanctions.[9]

Attendance/School Work During Suspension and Prior to Expulsion

Students serving an out-of-school suspension must make up missed exams and work, and shall be permitted to complete assignments pursuant to established guidelines.[1][10]

Students who are facing an expulsion hearing must be placed in their normal classes if the formal hearing is not held within the ten-school day suspension.

If it is not possible to hold the formal hearing within the first ten (10) school days, the school district may exclude such a student from class for up to five (5) additional – fifteen (15) total – school days if, after an informal hearing, it is determined that the student's presence in his/her normal class would constitute a threat to the health, safety or welfare of others.

Any further exclusion prior to a formal hearing may be only by mutual agreement. Such students shall be given alternative education, which may include home study.

Attendance/School Work After Expulsion

Students who are under seventeen (17) years of age are still subject to compulsory school attendance even though expelled and shall be provided an education. Beginning with the academic year 2020-2021, compulsory school age shall mean no later than age six (6) until age eighteen (18); at that time, students under eighteen (18) years of age shall be subject to compulsory school attendance, and even though expelled, shall be provided an education.[1][10][11]

The parent/guardian has the initial responsibility of providing the required education and shall, within thirty (30) days, submit written evidence to the school that the required education is being provided or that they are unable to do so. If the parent/guardian is unable to provide for the required education, the school district shall, within ten (10) days of receipt of the parent's/guardian's notification, make provision for the student's education.

The Board may provide an educational program to the student immediately upon expulsion and may waive the 30-day period, at its discretion.

Students With Disabilities

A student with a disability shall be provided educational services as required by state and federal laws and regulations and Board policies.[12][13]

Delegation of Responsibility

The Superintendent or designee shall develop administrative regulations to implement this policy which include:

1. Publication of a Code of Student Conduct, in accordance with Board policy on student discipline.[14]
2. Procedures that ensure due process when a student is being deprived of the right to attend school.
3. Regulations regarding student records which require that records of disciplinary suspension be maintained in accordance with Board policy on student records.[15]
4. The name of a student who has been disciplined shall not become part of the agenda or minutes of a public meeting, nor part of any public record of the Board. Such students may be designated by code.
5. Any student who has been expelled may apply for readmission to school upon such conditions as may be imposed by the Board.

STUDENT RIGHTS AND RESPONSIBILITIES – 235

Purpose

This policy sets forth guidelines by which student rights and responsibilities are determined, consistent with law and regulations.

Authority

The Board has the authority and responsibility to establish reasonable rules and regulations for the conduct and deportment of district students. At the same time, no student shall be deprived of equal treatment and equal access to the educational program, due process, a presumption of innocence, and free expression and association, in accordance with Board policy and school rules.[1][2][3][4][5][6]

Guidelines

Attendant upon the rights established for each student are certain responsibilities, which include regular attendance; conscientious effort in classroom work and homework; conformance to Board policies and school rules and regulations; respect for the rights of teachers, students, administrators and all others who are involved in the educational process; and expression of ideas and opinions in a respectful manner.[4][7][8][9][10][11]

It shall be the responsibility of the student to:[7]

1. Be aware of all policies, rules and regulations for student behavior and conduct him/herself accordingly. Each student shall assume that, until a rule is waived, altered, or repealed in writing, it is in effect.[10]
2. Volunteer information in matters relating to the health, safety and welfare of the school community and the protection of school property.
3. Dress and groom to meet standards of safety and health, and not to cause substantial disruption to the educational processes.[12]
4. Assist the school staff in operating a safe school.
5. Comply with federal, state and local laws.
6. Exercise proper care when using district facilities, school supplies and equipment.[13]
7. Attend school daily and be on time to all classes and other school functions.[9]
8. Make up work when absent from school.
9. Pursue and attempt to satisfactorily complete the courses of study prescribed by local school authorities.
10. Report accurately in student media.[11]
11. Not use obscene language in student media or on school property.[11]

Violations of this policy may result in disciplinary action, consistent with the Code of Student Conduct and Board policy.[10][14]

A listing of students' rights and responsibilities shall be included in the Code of Student Conduct, which shall be distributed annually to students and parents/guardians.[4][10]

Delegation of Responsibility

The Superintendent or designee shall develop administrative regulations consistent with law and Board policy to ensure that student rights under specific conditions are properly recognized and maintained.

ELECTRONIC DEVICES - 237

Purpose

The Board adopts this policy in order to maintain an educational environment that is safe and secure for district students and employees.

Definition

Electronic devices shall include all devices that can take photographs; record audio or video data; store, transmit or receive messages or images; or provide a wireless, unfiltered connection to the Internet. Examples of these electronic devices include, but shall not be limited to, radios, Walkman, CD players, iPods, MP3 players, DVD players, handheld game consoles, Personal Digital Assistants (PDAs), cellular telephones, Blackberries', and laptop computers, as well as any new technology developed with similar capabilities.

Authority

The Board prohibits use of electronic devices by students during the school day in district buildings; on district property; on district buses and vehicles; during the time students are under the supervision of the district; and in locker rooms, bathrooms, health suites and other changing areas at any time.[1]

The Board prohibits possession of laser pointers and attachments and telephone paging devices/beepers by students in district buildings; on district property; on district buses and vehicles; and at school-sponsored activities.[2]

The district shall not be liable for the loss, damage or misuse of any electronic device.

Electronic Images and Photographs

This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child care institutions, and pre-adoptive homes. School of origin is the school in which a child is enrolled at the time of placement in foster care. If a child's foster care placement changes, the school of origin would then be considered the school in which the child is enrolled at the time of the placement change.

1. Local children and youth agency to:

Transportation

The district shall ensure that children in foster care needing transportation to their school of origin will promptly receive transportation in a cost-effective manner.[2][11]

To ensure that transportation for children in foster care is provided, arranged, and funded, the district shall collaborate with the local children and youth agency to develop a local transportation plan.[2]

The transportation plan shall address the following:[2]

WEB PUBLISHING – 815.1

Purpose

The Board adopts this policy to establish a clear district-wide policy concerning web publishing and the nature of information that should be provided within classroom, school and district websites. During the past

several years, many teachers, administrators, and students have expressed an interest in creating and publishing on the Internet/World Wide Web. These pages assist with the dissemination of district-wide, individual school and classroom information. They publicize our accomplishments and provide valuable information about the school community.

Authority

The Board recognizes that at each level, students, teachers, school building administrators and district administrators all play an important role in ensuring that information published on the Internet is accurate, is not used for any illegal activity, transmitting offensive materials, communicating discriminatory remarks, nor posting/communicating any information that is indecent, profane or obscene. Likewise, teacher/classroom, school and district websites should only contain information that is factual in nature and does not reflect any one person's opinion, political affiliations or editorials. Such websites shall not be construed as public forums. Rather such websites are solely for the dissemination of school approved information. The school district, through its central and building administrators, retains the right to edit or remove any material on such websites.

Greensburg Salem School District encourages each school to post and maintain its own webpages and the development of classroom webpages by teachers. Posting or maintaining a website and webpages, however, is a privilege and not a right. The following policy should be followed by all students, district employees and schools who publish on the World Wide Web where the information being published originates from a school or district-maintained web server, or from any server currently in use by the school system through a lease or subscription service by Greensburg Salem School District. An example of this would be a web portal, which is a paid subscription service whose server is used by the district but is maintained and housed off-site, and does not reside on district property.

Delegation of Responsibility

Teachers overseeing students in an approved Webpage Development course have a responsibility to ensure that information posted to the Internet and/or linked to the school website meets the criteria of the curriculum and this policy prior to posting information live to the Internet. Pages created by students should only be posted live to the Internet by the supervising teacher after all hyperlinks, pictures, graphics and written content are scrutinized.

School building administrators have the responsibility to periodically check posted teacher/classroom and student webpages to ensure that information posted to the Internet meets the criteria of this policy. Principals will maintain a list annually of the students whose parents/guardians do not provide approval of the multimedia notice.

The Superintendent and/or designee shall have the responsibility to ensure that information posted to the Internet via the district website meets the criteria of this policy.

Guidelines

Online Images of Students in Grades PK-12

Images of students may appear on district, school and classroom websites. Prior to publishing student pictures on the World Wide Web, employees must first ensure that parents/guardians of those students have not chosen to exercise their right to opt-out under the "Multimedia Opt-Out" notification. Principals will maintain an annual list of parents/guardians exercising their right to opt-out.

When possible, an attempt should be made to avoid portrait and individual student photographs. Large and small group photos showing engagement are best. When using a photograph of students, ensure the student(s) provide verbal permission prior to publishing in addition to checking that the student's parents/guardians have not exercised their right to opt-out.

Online Publication of Student Names in Grades PK-12

First and last names of students should not appear on district, school and classroom websites. When identifying student work or students in a picture, the use of first and last initials is preferred. In rare cases, where a student is being recognized as the recipient of an award, participation in a project or program, or notable accomplishment, the student's name may appear on the district website.

Prior to publishing student names on the World Wide Web, schools must first ensure that parents/guardians of those students have not chosen to exercise their right to opt-out under the "Multimedia Opt-Out" notification.

Intellectual Property Rights

Schools must protect individual rights concerning the publishing of student-produced work, such as poems, short stories, and art. Prior to publishing student work on the World Wide Web, schools must first ensure that parents/guardians of those students have not chosen to exercise their right to opt-out under the "Multimedia Opt-Out" notification.

Before posting student-generated work, schools must take reasonable care that the content of that work is owned solely by the student. Plagiarism in any form is not permitted.

Webpage Content

Each school should review carefully the content included on its own webpages. These pages should be attractive in appearance, in good taste, and each page must contain the last revision date at the bottom of the webpage. Teachers, students, and administrators should use the following criteria when judging the appropriateness of content:

1. Only three (3) types of webpages should be created:
    a. Teacher/Classroom Webpages.
    b. School Webpages.
    c. District Webpages.
2. Classroom, school or district webpages will not be linked to personal webpages or any webpage that is a part of a social networking site.
3. Classroom, school or district webpages will not be linked to commercial pages unless that link provides access to educationally-relevant information.
4. Any hyperlinks created on classroom, school or district webpages must provide access to only educationally-relevant information.
5. A student's personal email address, personal webpage URL, home address, phone number, pager number, social security number, student identification number or any other personally identifiable information should never appear on a classroom, school or district website.
6. Webpages written by employees and students are not to contain any language offensive to others. In addition, they must not contain profanity, obscene comments, sexually explicit material, nor expressions of bigotry, racism, or hate. These pages must not include hyperlinks to any other sites containing any of the language or material listed above.
7. No webpages written by employees or students may promote or encourage illegal or immoral activities. No link from these pages may lead users directly to any other page which promotes or encourages illegal or immoral activities.

The methods of intervention utilized by the district include, but are not limited to, responding to suicide threats, suicide attempts in school, suicide attempts outside of school, and suicide death. Suicide intervention procedures shall address the development of a safety plan for students identified as being at increased risk of suicide.

Prior to a student returning to school after a behavioral health crisis, a district-employed behavioral health professional, the building principal or suicide prevention coordinator shall meet with the parents/guardians of the student and, if appropriate, meet with the student to ensure the student's readiness to return to school and to create an individual re-entry plan.

Authority

The Board may adopt and enforce reasonable rules and regulations governing volunteers and their participation in the activities of the district.[1]

The Board directs that all volunteers shall be informed of conduct that is prohibited and the disciplinary actions that may be applied for violation of Board policies, administrative regulations, rules and procedures.[1]

All volunteers shall be expected to maintain professional, moral, and ethical relationships with district students that are conducive to an effective, safe learning environment.[2]

Definitions

The following words and phrases, when used in this policy, shall have the meaning given to them in this section:

Adult - an individual eighteen (18) years of age or older.[3]

Certifications - refers to the child abuse history clearance statement; the state criminal history background check; and where applicable, the federal criminal history background check, required by the Child Protective Services Law.[4][5]

Routine interaction - regular and repeated contact that is integral to a person's volunteer responsibilities.[3]

Visitor - a parent/guardian, adult resident, educator, official or other individual who is not a school employee or independent contractor, and who visits a school or attends or participates in an event or activity at a school, but whose role is less substantial than would be sufficient to meet the definition of volunteer for purposes of this policy.[6]

Volunteer – is an adult, whose role is more than that of a visitor, who voluntarily offers a service to the district without receiving compensation from the district. A volunteer is not a school employee.[5]

The two (2) classifications of volunteers are:

1. **Position Volunteer** - an adult applying for or holding an unpaid position with a school or a program, activity or service, as a person responsible for the child's welfare or having direct volunteer contact with children. Examples include, but are not limited to, field trip chaperones, tutors, coaches, activity advisor, recess or library aides, etc.

2. **Guest Volunteer** - an adult who voluntarily provides a service to the district, without compensation, who: (1) works directly under the supervision and direction of a school administrator, a teacher or other member of the school staff; and (2) does not have direct volunteer contact. Examples include, but are not limited to, volunteering to assist in classroom celebrations, school assemblies, or school concerts; reading to students; collecting tickets at sporting events; working concession stands; participating in "Career Day," etc.

Delegation of Responsibility

The Superintendent or designee shall be responsible for the selection and management of volunteers and for ensuring compliance with Board policies, administrative regulations, rules and procedures.

At the discretion of the Superintendent or designee, a volunteer's service may be discontinued at any time.

The Superintendent or designee shall develop administrative regulations to implement this policy and manage the selection, use and supervision of volunteers.

Guidelines

Each prospective position volunteer shall complete and submit a volunteer application.

The names of all position volunteers shall be submitted for approval by the Board.

The names of all guest volunteers shall be submitted for approval by the building principal or designee.

Upon approval, volunteers shall be placed on the list of approved volunteers.

2. PA State Police Criminal History Record Information - which must be less than sixty (60) months old.[5]

3. Disclosure Statement for Volunteers - which is a statement swearing or affirming the applicant has not been disqualified from service by reason of conviction of designated criminal offenses or

being listed as the perpetrator in a founded report of child abuse.[4][5][7]

If a position volunteer has not been a resident of Pennsylvania during the entirety of the previous ten (10) year period, the position volunteer must also submit the following information:[5]

1. Federal Criminal History Report - issued at any time since the volunteer established residency.

The Superintendent or designee shall review the information and determine if information is disclosed that precludes service as a volunteer.

Information submitted by volunteers in accordance with this policy shall be maintained centrally in a manner similar to that used for school employees.

Position volunteers shall obtain and submit new certifications every sixty (60) months.[8]

A student, eighteen (18) years of age or older, who is volunteering for an event or activity sponsored by the school in which the student is enrolled and occurring on the school's grounds, shall not be required to submit certifications except when the event or activity is for children in the care of a child-care service or the student will otherwise be responsible for the welfare of a child.[5]

Tuberculosis Test

Prior to participating in student activities, volunteers shall undergo a test for tuberculosis, when required by and in accordance with the regulations and guidance of the Pennsylvania Department of Health.[9][10]

Arrest or Conviction Reporting Requirements

Position volunteers shall report to the Superintendent or designee, in writing, within seventy-two (72) hours, an arrest or conviction required to be reported by law or notification that the volunteer has been named as a perpetrator in a founded or indicated report pursuant to the Child Protective Services Law.[7]

The Superintendent or designee shall immediately require a position volunteer to submit new certifications if the Superintendent or designee has a reasonable belief that the volunteer was arrested for or has been convicted of an offense required to be reported by law, was named as a perpetrator in a founded or indicated report, or has provided written notice of such occurrence.[7]

Failure to accurately report such occurrences may subject the position volunteer to disciplinary action up to and including denial of volunteer service and criminal prosecution.[7]

Child Abuse Reporting

All volunteers who have reasonable cause to suspect that a child is the victim of child abuse shall make a report of suspected child abuse in accordance with applicable law, Board policy and administrative regulations.[11][12]

When training is provided for school employees relating to the legal obligations of employers and educational institutions, consideration shall be given to which volunteers should also receive that training.[12][13][14][15]

Confidentiality

No volunteer shall be permitted access to confidential student information unless the supervisor has determined that such access is necessary for the volunteer to fulfill his/her responsibilities. Volunteers with access to confidential student information shall maintain the confidentiality of that information in accordance with district policies and procedures and applicable law. If a volunteer has questions about the confidentiality of student information, the volunteer should consult with the building principal.[16]

Liability Insurance

The district shall provide liability insurance coverage for volunteers appropriate to the nature of their roles and the risk management needs of the district.

Acknowledgement

PARENTAL/FAMILY INVOLVEMENT – 917

Purpose

The Board recognizes the vital role parents/guardians and family play in the education, welfare and values of their children. The district is committed to the belief that all students can learn and acknowledges that schools and families share a commitment to the educational success of students.

Definition

Parental and family involvement shall be defined as an ongoing process that assists parents/guardians and families to meet their basic obligation as a child's first educator, promotes clear two-way dialogue between home and school, and supports parents/guardians as leaders and decision-makers concerning the education of their children at all levels.

Authority

The Board recognizes that the responsibility for each student's education is shared by the school and the family and acknowledges that schools and families must work as knowledgeable, cooperative partners to effectively educate all students. To this end, the Board shall support the development, implementation, and continuing evaluation of a parental and family involvement program that will involve parents/guardians at all grade levels in a variety of roles.

Delegation of Responsibility

The Superintendent or designee shall regularly evaluate and report to the Board on the effectiveness of the district's parental involvement efforts, including, but not limited to, input from parents/guardians and district staff on the adequacy of parental involvement opportunities and barriers that may inhibit parent/guardian participation.

Guidelines

Because parents/guardians are familiar with the needs, problems and abilities of their children, staff should communicate with and seek their input throughout the school year.

The parental and family involvement program may include the following:

1. Support for parents/guardians as school leaders and decision-makers, in addition to serving in advisory roles.
2. Promotion of clear two-way communication between the school and the family about school programs and student progress.
3. Assistance to parents/guardians and families in developing parenting skills to foster positive relationships at home, to support children's educational efforts, and to assist their children with learning at home.
4. Involvement of parents/guardians, with appropriate training, in instructional and support roles at the school.

Education for Homeless Children and Youth (Act of 2001)

Education for Homeless Children and Youth (Act of 2001) The McKinney-Vento Homeless Assistance Act was established in 1987 and amended by Every Student Succeeds Act of 2015. The Act defines the term "homeless children and youths" as individuals who lack a fixed, regular, and adequate night time residence, including:

- Children and youth sharing the housing of other persons due to loss of housing (doubled-up), economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds; are living in emergency or transitional shelters, are abandoned in hospitals or are awaiting foster care placement

- Children and youth who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings

- Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations or similar settings; and

- Migratory children to include immigrant children who qualify as homeless because they are living in circumstances described above.

The federal mandate ensures that homeless children and youth have access to the same free and appropriate public education as other children. Children who are homeless may qualify for assistance with school lunch, school supplies, tutoring and transportation so that they can remain in their school of origin. If you believe that your child may qualify for this service, please contact the principal of your child's school.
