

TECHNOLOGY DEVICE FEE

Supporting Student Learning Technology

Beginning 2026–27

Beginning in the 2026-27 school year, students in grades 3-12 who receive a district-issued take-home device will pay a \$40 annual device fee (\$25 for free and reduced lunch).

WHY IT MATTERS

A district-issued device is an essential tool for learning. The device fee helps maintain, support, and repair the technology students use every day for learning.

What does this fee help support?

Device maintenance & repairs

Replacement of aging devices

Device management & security

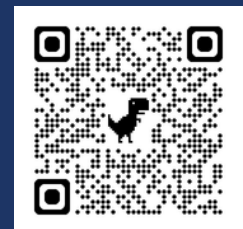

WHAT'S COVERED?

Students who pay the annual fee are eligible for one repair or replacement due to accidental damage of their district device. Without the fee, repair or replacement costs can exceed \$400, depending on the extent of the damage. Any additional incidents of accidental damage or any intentional damage will be assessed accordingly.

PAYMENT OPTIONS

**PAY WITH
REVTRAK**

Financial assistance may be available for qualifying families. For more information, scan the QR code.

GOOD NEWS!

Paying the device usage fee will clear any previous outstanding device fines.
