

Third Grade Standards Alignment

2024 i-Ready Classroom Mathematics

*Bolded NC standards beside lessons/topics are OCS identified Priority Standards (blue highlight below unit information)

*Lower case Roman numerals after a standard reference bullet point within a standard.

(i.e., NC.3.NBT.2.i would be the first bullet point of: Use estimation strategies to assess reasonableness of answers.)

****Calculator Active vs. Inactive is based off the Released EOG from NCDPI**

****NC Third Grade Math Unpacking-Revised June 2025-Visit the website for the “Clarification” and “Checking for Understanding” sections.**

3rd Grade Standards Alignment: 2024 i-Ready Classroom Lessons

Calculator Active/Inactive Revised 3/26

Unit 1: Three-Digit Numbers: Place Value, Addition, and Subtraction			
Duration: 21 days (4 weeks)			
Lesson	Topic	NC Standard	Calculator Active vs. Inactive**
1	Use Place Value to Round Numbers	NC.3.NBT.2.i	
2	Add Three-Digit Numbers	NC.3.NBT.2. i, NC.3.NBT.2.ii, NC.3.NBT.2.iii	
3	Subtract Three-Digit Numbers	NC.3.NBT.2. i, NC.3.NBT.2.ii, NC.3.NBT.2.iii	

Use place value to add and subtract.

NC.3.NBT.2 Add and subtract whole numbers up to and including 1,000.

- Use estimation strategies to assess reasonableness of answers.
- Model and explain how the relationship between addition and subtraction can be applied to solve addition and subtraction problems.
- Use expanded form to decompose numbers and then find sums and differences.

Unit 2 Multiplication and Division: Concepts, Relationships, and Patterns Duration: 42 days (8.5 weeks)			
Lesson	Topic	NC Standard	Calculator Active vs. Inactive**
4	Understand the Meaning of Multiplication	NC.3.OA.1. i, NC.3.OA.1.ii	
5	Multiply with 0, 1, 2, 5, and 10	NC.3.OA.1.ii, NC.3.OA.3.i, NC.3.OA.7.i	
6	Multiply with 3, 4, and 6	NC.3.OA.1.ii, NC.3.OA.3.i, NC.3.OA.7.i	
7	Multiply with 7, 8, and 9	NC.3.OA.1.ii, NC.3.OA.3.i, NC.3.OA.7.i	
8	Use Order and Grouping to Multiply	NC.3.OA.1.ii	
9	Use Place Value to Multiply	NC.3.NBT.3	
10	Understand the Meaning of Division	NC.3.OA.2. i, NC.3.OA.2.ii	
11	Understand How Multiplication and Division are Connected	NC.3.OA.2.i, NC.3.OA.2. ii, NC.3.OA.6, NC.3.OA.7.ii	
12	Multiplication and Division Facts	NC.3.OA.7.i, NC.3.OA.7.iii	
13	Understand Patterns	NC.3.OA.9	

Represent and solve problems involving multiplication and division.

NC.3.OA.1 For products of whole numbers with two factors up to and including 10:

- Interpret the factors as representing the number of equal groups and the number of objects in each group.
- Illustrate and explain strategies including arrays, repeated addition, decomposing a factor, and applying the commutative and associative properties.

NC.3.OA.2 For whole-number quotients of whole numbers with a one-digit divisor and a one-digit quotient:

- Interpret the divisor and quotient in a division equation as representing the number of equal groups and the number of objects in each group.
- Illustrate and explain strategies including arrays, repeated addition, or subtraction, and decomposing a factor.

NC.3.OA.3 Represent, interpret, and solve one-step problems involving multiplication and division.

- Solve multiplication word problems with factors up to and including 10. Represent the problem using arrays, pictures, and/or equations with a symbol for the unknown number to represent the problem.
- Solve division word problems with a divisor and quotient up to and including 10. Represent the problem using arrays, pictures, repeated subtraction and/or equations with a symbol for the unknown number to represent the problem.

Understand properties of multiplication and the relationship between multiplication and division.

NC.3.OA.6 Solve an unknown-factor problem, by using division strategies and/or changing it to a multiplication problem.

Multiply and divide within 100.

NC.3.OA.7 Demonstrate fluency with multiplication and division with factors, quotients, and divisors up to and including 10.

- Know from memory all products with factors up to and including 10.
- Illustrate and explain using the relationship between multiplication and division.
- Determine the unknown whole number in a multiplication or division equation relating three whole numbers.

Explore patterns of numbers.

NC.3.OA.9 Interpret patterns of multiplication on a hundreds board and/or multiplication table.

Generalize place value understanding for multi-digit numbers.

NC.3.NBT.3 Use concrete and pictorial models, based on place value and the properties of operations, to find the product of a one-digit whole number by a multiple of 10 in the range 10–90.

Unit 3: Multiplication: Finding Area, Solving Word Problems, and Using Scaled Graphs Duration: 30 days (6 weeks)			
Lesson	Topic	NC Standard	Calculator Active vs. Inactive**
14	Understand Area	NC.3.MD.5	
15	Multiply to Find Area	NC.3.MD.7. i, NC.3.MD.7.ii	
16	Add Areas	NC.3.MD.7.iii, NC.3. G.1.i	
17	Solve One-Step word Problems Using the Four Operations	NC.3.OA.3. i, NC.3.OA.3.ii	
18	Solve Two-Step	NC.3.OA.8	
19	Scaled Graphs	NC.3.MD.3. i, NC.3.MD.3.ii, NC.3.MD.3.iii	

Represent and solve problems involving multiplication and division.

NC.3.OA.3 Represent, interpret, and solve one-step problems involving multiplication and division.

- Solve multiplication word problems with factors up to and including 10. Represent the problem using arrays, pictures, and/or equations with a symbol for the unknown number to represent the problem.
- Solve division word problems with a divisor and quotient up to and including 10. Represent the problem using arrays, pictures, repeated subtraction and/or equations with a symbol for the unknown number to represent the problem.

Solve two-step problems.

NC.3.OA.8 Solve two-step word problems using addition, subtraction, and multiplication, representing problems using equations with a symbol for the unknown number.

Represent and interpret data.

NC.3.MD.3 Represent and interpret scaled picture and bar graphs:

- Collect data by asking a question that yields data in up to four categories.
- Make a representation of data and interpret data in a frequency table, scaled picture graph, and/or scaled bar graph with axes provided.
- Solve one and two-step “how many more” and “how many less” problems using information from these graphs.

Understand the concept of area.

NC.3.MD.5 Find the area of a rectangle with whole-number side lengths by tiling without gaps or overlaps and counting unit squares.

NC.3.MD.7 Relate area to the operations of multiplication and addition.

- Find the area of a rectangle with whole-number side lengths by tiling it and show that the area is the same as would be found by multiplying the side lengths.
- Multiply side lengths to find areas of rectangles with whole-number side lengths in the context of solving problems and represent whole-number products as rectangular areas in mathematical reasoning.
- Use tiles and/or arrays to illustrate and explain that the area of a rectangle can be found by partitioning it into two smaller rectangles, and that the area of the large rectangle is the sum of the two smaller rectangles.

Reason with shapes and their attributes.

NC.3.G.1 Reason with two-dimensional shapes and their attributes.

- Investigate, describe, and reason about composing triangles and quadrilaterals and decomposing quadrilaterals.
- Recognize and draw examples and non-examples of types of quadrilaterals including rhombuses, rectangles, squares, parallelograms, and trapezoids.

Unit 4: Fractions: Equivalence and Comparison, Measurement, and Data			
Duration: 28 days (6 weeks)			
Lesson	Topic	NC Standard	Calculator Active vs. Inactive**
20	Understand What a Fraction is	NC.3.NF.1. i, NC.3.NF.1.ii	
21	Understand Fractions on a Number Line	NC.3.NF.1. ii, NC.3.NF.2. i, NC.3.NF.2. ii, NC.3.NF.3.ii	
22	Understand Equivalent Fractions	NC.3.NF.3.i	
23	Find Equivalent Fractions	NC.3.NF.3.i, NC.3.NF.3.iii	
24	Understand Comparing Fractions	NC.3.NF.4	
25	Use Symbols to Compare Fractions	NC.3.NF.4	
26	Measure Length and Plot Data on Line Plots	NC.3.MD.2.i	

Understand fractions as numbers.

NC.3.NF.1 Interpret unit fractions with denominators of 2, 3, 4, 6, and 8 as quantities formed when a whole is partitioned into equal parts;

- Explain that a unit fraction is one of those parts.
- Represent and identify unit fractions using area and length models.

NC.3.NF.2 Interpret fractions with denominators of 2, 3, 4, 6, and 8 using area and length models.

- Using an area model, explain that the numerator of a fraction represents the number of equal parts of the unit fraction.
- Using a number line, explain that the numerator of a fraction represents the number of lengths of the unit fraction from 0.

NC.3.NF.3 Represent equivalent fractions with area and length models by:

- Composing and decomposing fractions into equivalent fractions using related fractions: halves, fourths and eighths; thirds and sixths.
- Explaining that a fraction with the same numerator and denominator equals one whole.
- Expressing whole numbers as fractions and recognize fractions that are equivalent to whole numbers.

NC.3.NF.4 Compare two fractions with the same numerator or the same denominator by reasoning about their size, using area and length models, and using the $>$, $<$, and $=$ symbols. Recognize that comparisons are valid only when the two fractions refer to the same whole with denominators: halves, fourths, and eighths; thirds and sixths.

Solve problems involving measurement.

NC.3.MD.2 Solve problems involving customary measurement.

- Estimate and measure lengths in customary units to the quarter-inch and half-inch, and feet and yards to the whole unit.
- Estimate and measure capacity and weight in customary units to a whole number: cups, pints, quarts, gallons, ounces, and pounds. (Not addressed in this unit)
- Add, subtract, multiply, or divide to solve one-step word problems involving whole number measurements of length, weight, and capacity in the same customary units. (Not addressed in this unit)

Unit 5: Measurement: Time, Liquid Volume, and Mass Duration: 16 days (3 weeks)			
Lesson	Topic	NC Standard	Calculator Active vs. Inactive**
27	Time	NC.3.MD.1	
28	Liquid Volume	No NC Standard	
29	Mass	No NC Standard	

Solve problems involving measurement.

NC.3.MD.1 Tell and write time to the nearest minute. Solve word problems involving addition and subtraction of time intervals within the same hour.

Unit 6: Shapes: Attributes and Categories, Perimeter and Area, and Partitioning Duration: 18 days (3.5 weeks)			
Lesson	Topic	NC Standard	Calculator Active vs. Inactive**
30	Understand Categories of Shapes	NC.3. G.1.ii	
31	Classify Quadrilaterals	NC.3. G.1.ii	
32	Area and Perimeter of Shapes	NC.3.MD.8	
33	Partition Shapes into Parts with Equal Areas	No NC Standard	

Reason with shapes and their attributes.

NC.3.G.1 Reason with two-dimensional shapes and their attributes.

- Investigate, describe, and reason about composing triangles and quadrilaterals and decomposing quadrilaterals. (Not addressed in this unit)
- Recognize and draw examples and non-examples of types of quadrilaterals including rhombuses, rectangles, squares, parallelograms, and trapezoids.

Understand the concept of perimeter.

NC.3.MD.8 Solve problems involving perimeters of polygons, including finding the perimeter given the side lengths, and finding an unknown side length.
