AI Teacher Standards & Expectations

Essential framework for integrating artificial intelligence ethically, effectively, and professionally in education.

DISTRICT EDUCATOR GUIDELINES

Overview

AI Teacher Standards

Goals:

1) Aid teachers in productivity, efficiency, personalized feedback, and differentiation.

2) Provide responsible AI engagement for students where AI is used as a collaborative partner in a controlled, teacher-monitored environment.

Establishing clear protocols for professional growth, instructional application, and responsible classroom management.

Professional Development

Growth & Collaboration

- Attend district-provided AI training sessions
- Stay updated on AI tools and educational applications
- Collaborate with colleagues on best practices
- Report concerns or issues to administrators

Acceptable Use Examples

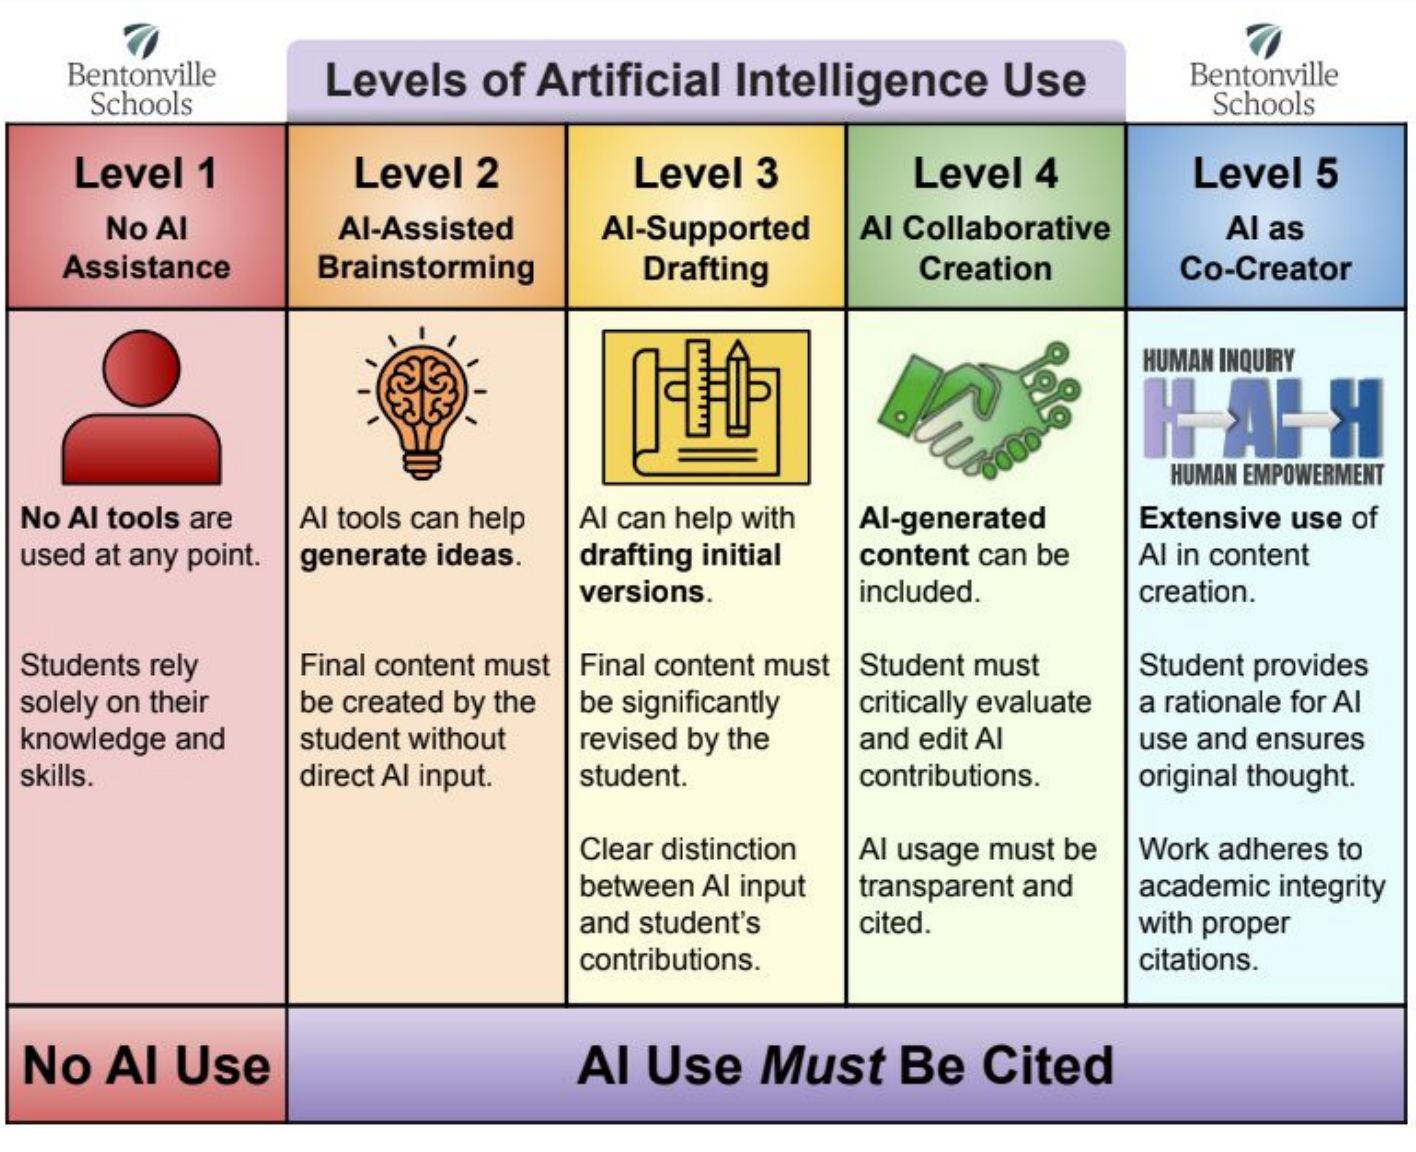

- Drafting and review of correspondence
- Creation of lesson plans
- Assistance in providing real-time feedback to students such as writing evaluation

Responsibilities

Student Direction & Modeling

- Clearly communicate level of AI use allowed
- Clearly communicate AI policies to students
- Determine appropriateness, timing and scope of student use of AI tools
- **Review and confirm all AI-generated material or feedback before sharing with students.**
- Model appropriate AI usage with citations when appropriate

Sample Classroom-Level Matrix

Responsibilities

- Teach the review of AI of bias and
- Integrate AI literacy into courses
- Use AI tools and applications vetted and approved by the District
- Ensure equitable access to AI tools

Example Citation

Standard Attribution Disclosure

When utilizing AI tools to draft communications or instructional materials, you have the *option* to include the following mandatory disclosure statement:

- ***AI assistance was used in the creation of this assignment.***
