PowerSchool Directions

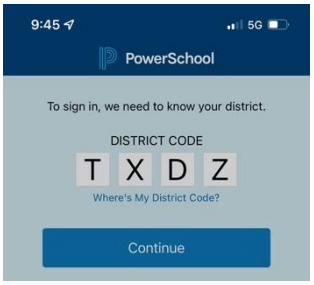

- Use PowerSchool to track your student's grades and attendance.
- PowerSchool Parent Login Site: baldwinco.powerschool.com
- The first time you log in you will need to use the website, not the app. After the initial account creation, you can download and use the app on a mobile device.

    - When you log in for the first time, select "Create Account" and complete all prompts on the screen.
    - When you attach students to your account, you will need their access IDs and password, only available in the Parent Web Access letter in PowerSchool. The following staff members can send you the parent PowerSchool form if you need it:
        - Michael Schaffer, mschaffer@bcbe.org
        - Drew Glass, Assistant Principal, hglass@bcbe.org

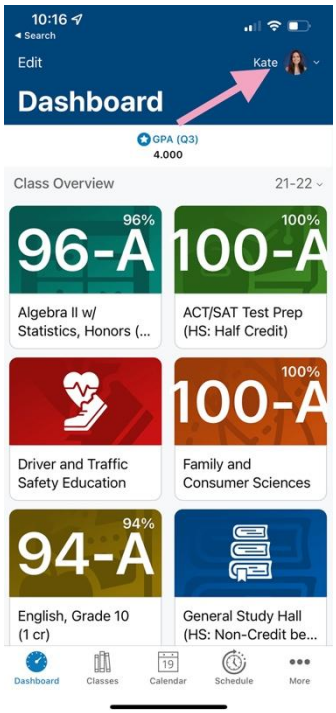

Get the PowerSchool App

- When you first open the app, it will ask for a district code. The district code for Baldwin County Public Schools is TXDZ.
- Select "I'm a Parent."
- Enter the username and password you previously created on the website.

PowerSchool App Dashboard

- In the top right, you will see the student icon indicated by your student's picture or initials.
    - Click on the student icon to switch between multiple students on your account.
- The dashboard (home page) gives you access to the following information:
    - Class Overview - shows current courses and semester grades
        - click on a course for detailed information about assignments that are missing, late, complete, or incomplete. This includes teacher comments if applicable.

    - Assignments - shows upcoming or recent assignments as well as assignments that a teacher has marked as Missing, Incomplete, or Late
    - Attendance - shows list of absences
