Who We Are

We are professionals. We support creating a professional community that attracts more quality teachers into the profession. Strong professionals gravitate to work in environments where they have a chance to succeed. We believe this requires a professional compensation system that has the best chance of attracting quality educators into the profession.

We are the single most important factor in a child's education. We believe in high-quality educators delivering a well-rounded public education experience that is multifaceted and multi-dimensional, integrates curriculum with practical career applications, and teaches problem solving, collaboration and analytical skills.

We are invested in the Adams County community. 70% of our members live in Adams County, but ALL of our members work hard to foster partnerships within the Adams County community for the advancement of public education.

What We Do

DTEA is the District Twelve Educators' association—We are the collective voice of thousands of educators across Adams 12. We have been a member-run organization for over fifty years.

We advocate for YOUR voice to be included at all levels of decision making— building, district, local, state, and national— and for your rights and needs as an educator.

We elevate our collective voice, action, and strength to achieve our vision and to help ensure that each of us are adequately equipped to be the most effective educators we can be.

We are the Champions of our Public Schools!

"Coming together is a beginning; keeping together is progress; working together is success."

Henry Ford

We do better, together

The District Twelve Educators' Association works collectively to ensure high quality equitable opportunities for all students, create a unified Adams 12 community, and lead our district into the future.

We must work together to achieve and protect:

- Safety & security, community involvement, and positive staff-administration relations
- Reasonable class sizes, continued education & professional support, and a voice in the process
- A well-rounded curriculum, time to teach & time to learn, and meaningful, non-punitive assessments
- Equal access to early childhood education and community supports for students & their families
- Public schools that are equipped to meet the needs of *every* learner, regardless of background or demographic, and a charter school program with consistent standards for transparency and accountability
