Hello Class of 2027,

Welcome to 6th grade! I'm Mr. Guinan, and this will be my sixth year teaching sixth grade. There's a lot of fun activities to look forward to, and one thing in particular makes sixth grade more fun than any other grade:

Super hard, super difficult, and super long MATH TESTS! They're AWESOME!

(Just kidding. Even teachers know that there are fun things in life besides math . . . such as homework, essays, and projects!)

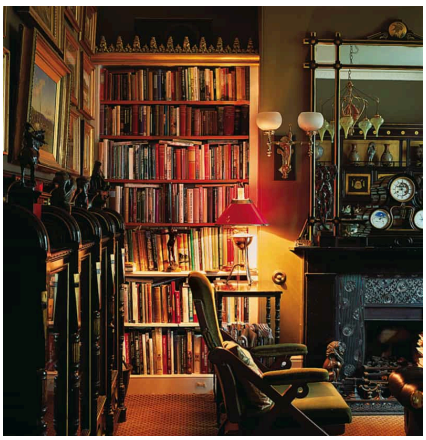

On the first day of school, please bring some pictures of your favorite activities and interests. We will use these to decorate your notebooks, and it'll be a great way to get to know each other. They can be photographs, printed images, or drawings you've made yourself. Here are some examples of my own:

Can you guess what each one is?

You'll love this year's field trips, such as our trip to New York:

Something unexpected always happens on each trip, and they'll leave you with plenty of memories.

I went to Antolini when I was a kid too, so I know what it feels like to be entering sixth grade. Please feel free to email me at guinanm@newhtfd.org if you have any questions, or if you just want to say hello.

I'm looking forward to meeting you soon!

Sincerely,

Mr. Guinan

(Supply List on Next Page)

Sixth Grade Team
