COM-SFISD Dual Credit Crosswalk
2026-2027

The purpose of this crosswalk is to help students and parents understand which courses are included in the weighted GPA calculation, GPA scale, and the number of high school credits earned for each course. Beginning with the Class of 2026, weighted GPA calculations will include only core courses identified in the Texas high school curriculum. As a result, this crosswalk serves as an important resource for academic planning. Unweighted courses will not be included in the weighted GPA calculation; however, they will appear on the transcript and count toward elective credit requirements.
