Welcome to Pearland ISD! We are excited you have joined our team and understand you may need to be out from time to time. Currently we use Frontline Absence Management to record employee absences. This system simplifies and streamlines the process of recording and managing absences and finding substitutes. The Frontline Absence Management solution will be available to you 24 hours a day, 7 days a week and is accessible via internet, phone or mobile app.

As part of the New Hire process, you created a Frontline Central account to complete your onboarding paperwork. Once your district email account is active, Single Sign On (SSO) will be enabled for your Frontline applications.

SSO allows you to securely access all Frontline applications, including Absence Management, Frontline Central, and Recruit and Hire, using your district username and password.

If you are not connected to the district network:

You must set up **Multi-Factor Authentication (MFA)** for your district account before enabling Single Sign-On (SSO) for Frontline.

MFA is required to access Microsoft 365 apps and services from outside the district network.

INSTRUCTIONS FOR SETTING UP MFA: Microsoft MFA - Setting up Multi-Factor Authentication for Your District Account - Self-Service Portal

If you need additional assistance, please contact Human Resource Services at 281-485-3203.
