Purpose

The Drug-Free Workplace Act and the Drug-Free Schools and Communities Act are federal laws requiring schools in receipt of federal funding to maintain drug- and alcohol-free workplaces and learning environment by enforcing policies against unlawful possession, use, or distribution of illicit drugs and alcohol. Bismarck Public Schools is committed to a safe, healthy, and productive working and learning environment for its employees and students. To promote this goal, the District is a drug- and alcohol-free workplace, and employees are required to report to work unimpaired in any way by the use of alcohol or drugs. Further, the District explicitly prohibits employees from the use, manufacturing, possession, distribution, dispensing, or being under the influence of drugs or alcohol while on school property, unless such use is (1) at the instruction of a treating medical provider, the treating provider has advised that such use shall not affect the employee's ability to perform duties and maintain the safety of themselves and others, and (2) the employee has reported such use and engaged in an interactive process with the District in

accordance with applicable state and federal law. Employees are also prohibited from knowingly or intentionally aiding or abetting in any of the above activities.

An employee must immediately inform their immediate supervisor, who is then responsible for informing the Human Resources Director, when the employee's ability to perform job duties is affected or impaired due to on- or off-duty drug or alcohol use.

Students must abide by District policy FFA, Student Alcohol and Other Drug Use/ Abuse.

This policy applies to all school employees during all working hours, on all school property, at all school-sponsored events, and at all other times when employees are representing or conducting business for the District (whether on or off school property and whether during or outside of normal working hours). The Superintendent shall post this policy on the BPS website. Employees are responsible for reviewing it annually.

Reasonable Suspicion Testing

All employees are subject to the District's Drug and Alcohol Testing Program. Employees working in covered and safety-sensitive positions as defined under district policy DBBA shall be subject to pre-employment, reasonable suspicion, random, post-accident, return-to-duty and follow-up alcohol and drug testing pursuant to procedures set out in the federal regulations or as allowed by applicable law.

Failure of the

employee to report accordance with this policy within the time prescribed may lead to disciplinary action up to and including discharge.
