

Technology Updates for the 2026-27 School Year

ParentVUE Mobile App Update

If you use the ParentVUE mobile app to access your student's grades, attendance, class information, and other important school updates, please make sure you are using the current version of the app.

The previous version of the ParentVUE mobile app has been retired and is no longer supported. If you have not yet updated, please do so as soon as possible to ensure uninterrupted access to your student's information.

What You Need to Do

1. Download the new ParentVUE mobile app. Search for "**ParentVUE (New)**" in the [Apple App Store](#) or [Google Play Store](#). Be sure to download the version released in late 2025/early 2026.
2. Sign in using your existing ParentVUE username and password. Your current login credentials will work with the new app.
3. Delete the old ParentVUE app from your mobile device to avoid confusion.

Need Help?

For detailed instructions, screenshots of the new app, and links to download it, please visit the **Mobile Apps** section of our [ParentVUE/StudentVUE webpage](#).

Thank you for taking a few minutes to update your ParentVUE mobile app and helping ensure you continue to receive important information throughout the school year.

(For Secondary Students)

StudentVUE Mobile App Update

If you use the StudentVUE mobile app, please make sure you are using the current version.

The previous version of the StudentVUE app has been retired and is no longer supported. If you have not yet updated, please do so as soon as possible.

What You Need to Do

1. Download the new StudentVUE mobile app. Search for "StudentVUE (New)" in the [Apple App Store](#) and [Google Play Store](#). Be sure to download the version released in late 2025/early 2026.
2. Sign in using your existing StudentVUE username and password. Your current login credentials will work with the new app.
3. Delete the old StudentVUE app from your device to avoid confusion.

Need Help?

Visit the **Mobile Apps** section of the [StudentVUE/ParentVUE webpage](#) for download links and step-by-step instructions.

Please update your app before the start of the school year so you'll have access to StudentVUE when you need it.

Securly

Monitor and Control Chromebook Usage with Securly

The Securly Home App allows parents to monitor their child's school device activity, control internet access at home, and get a snapshot of weekly usage. This provides a better understanding of students' browsing behavior and encourages more effective internet usage habits at school and home. Additionally, the Home App allows parents to manage school-issued devices during out-of-school hours.

Securly Home Features

- Monitor your child's activity on their district-issued device
- Block categories when the school device is at home
- Set schedules to control access to the device at home and pause internet
- Receive a weekly snapshot email of internet activity

Accessing Securly Home Parent Dashboard and App

[Securly Home](#) has links to download the mobile app and an overview of the features. To access how to guides, please visit the [Securly for Parents](#) page and the [Parent Chromebook Management page](#). Parents will be able to access Securly for their HSD students at the start of school.
