

Maintaining a Positive School Climate

A Sample of Prevention Programs

Elementary Classroom Meetings - are held routinely to build a classroom community by teaching positive approaches to problem solving and conflict resolution.

LifeSkills Program* - is a research-based program with demonstrated efficacy in decreasing the initiation of and early use of drugs and alcohol.

Penn Resiliency Program for Children and Adolescents - is designed to teach social problem-solving skills such as impulse control, perspective-taking, goal setting and decision making.

Olweus Bullying Prevention Program* - is designed to reduce and prevent bullying at school in grades K-8.

Student Assistance Program (SAP) - is a systematic process to assist school personnel in identifying issues, including problems with alcohol and drugs, which pose a barrier to student learning and success in school. Working with community agencies, SAP teams identify school supports and assist families in accessing community services.

Risk Assessments - are conducted for students whose behavior appears to be a threat to the student or to others. Conducted by certified mental health professionals, the assessments serve to determine whether or not the behaviors are genuinely threatening.

Suspicious Activity Notification - is a response to any report of suspicious persons or activities near a bus stop or school. The protocol details communication with police, parents, students and school staff.

Peer Mediation - a student group trained to mediate peer conflicts, the goal of peer mediation is to promote conflict resolution, anger management and tolerance.

Digital Citizenship - lessons are delivered to students on how to use technology appropriately.

** Recognized by the United States Department of Health and Human Services Substance Abuse and Mental Health Services Administration.*

Organization

District Safety Plan

The District Emergency Operations Plan encompasses *prevention*, including fostering of a healthy school climate, *intervention*, the response to incidents that compromise school safety and security, and *postvention*, procedures to implement after certain kinds of incidents.

District Safety Committee

The District Safety meets regularly to discuss school safety. It is comprised of professional staff from each school, administrators, local law enforcement, first responders, and community members.

School Board Policies

Board Policies and Administrative Regulations relating to school safety are listed below and can be seen in full at www.tesd.net

- #5401 - Student Discipline
- #5405 - Student Substance Abuse
- #5412 - Searches
- #5436 - Reporting Suspected Child Abuse
- #5461 – Maintaining Appropriate Boundaries with Students
- #6141 - Non-Discrimination
- #8040 - Safety and Security
- #8060 - Security of District Facilities
- #8070 - Recording in Schools and on School Buses/Vehicles

Building Security

Buzz-In Entry Systems allow school staff to screen visitors prior to granting access to the school. After the start of the school day, visitors must use an intercom system to enter the building. Visitors not recognized by school staff will be asked to show photo identification, sign in and wear a visitor badge while in the school.

School Lobby Staff greet visitors to identify the reason for their visit and direct them to the appropriate areas.

ID Badges are worn by all school personnel.

Staff and Volunteer Clearances are required for those responsible for students.

Crisis Response Information is available in all school rooms in the form of a flip chart.

Surveillance Cameras at all schools provide school-wide coverage of the hallways, cafeteria, building entrances, and outside areas. Buses may be equipped with video and audio recording devices for safety purposes.

Building and Parking Lot Security personnel help maintain order during the school day and at evening events. Parking lots at Conestoga are monitored by security personnel, cameras and emergency call system equipment. Field signage is posted in designated areas to restrict unauthorized access/entrance onto school property.

Crisis Response

Fire/Evacuation Drills are conducted, as required by law, each month in all schools. Additional evacuation drills are conducted to train students to respond in the event of more unusual situations.

Lockdown Drills are practice containment drills to train students and staff to react to threats from outside forces.

Emotional, Mental and Physical Health Services

School Counselors

The foundation of student support in every building, school counselors are involved in a wide range of student and school issues including personal/social development, goal setting, student discussion groups, course selection and post-secondary planning, individual and group assessment, school climate and student activities.

School Psychologists

These individuals provide mandated individualized assessments to determine students' learning strengths and needs, assist with determining appropriate interventions and consult with students, families and school personnel.

Mental Health Specialists

Certified specialists are available to all schools for coordination of private services, facilitation of student discussion groups and consultation with student assistance and IEP teams.

Nurses

School health services are offered to assist all students with their needs.
