

Guidelines for Keeping Kids Home from School

Keeping sick children home helps protect classmates, teachers, and staff while giving your child the time they need to recover.

- **Fever:** If your child has a temperature of 100.4°F or higher. They may return to school after being fever-free for 24 hours without fever-reducing medication.
- **Vomiting/Diarrhea:** Keep your child home until they have been free from vomiting and diarrhea for 24 hours.
- **Red Eyes with Drainage:** Keep your child home if they have red, irritated eyes with drainage, crusting, or discharge. Students may return when symptoms have resolved, or with a doctor's note clearing them to return to school.
- **Rash:** Students with a rash should remain home until the rash has completely cleared or with a doctor's note clearing them to return to school.

For further guidance regarding school attendance and health concerns, please contact your school administration or the school health clinic.

Thank You for Helping Keep Our School Healthy!
