

ELEMENTARY ACADEMY NEWS

August 2026

A NOTE FROM ELEMENTARY ACADEMY

We are excited to begin the new school year and look forward to helping your students grow! During the first week, classrooms will focus on getting to know one another and establishing routines and procedures. We are looking forward to building classroom community and connection with families. As a reminder, the parent acknowledgement portion of the planner is due back to homeroom teachers ASAP.

WHAT ARE WE LEARNING?

We are excited to begin a new school year with our 3rd, 4th, and 5th grade students! We warmly welcome all of our students and families and look forward to a year filled with learning, growth, and new experiences.

During our first week, we will focus on building strong classroom communities and learning our classroom expectations.

After that, we will jump right into our curriculum and begin an exciting year of learning!
