

Dear Students and Parents/Guardians,

Jesuit High School's nurse looks forward to partnering with you for the 2026-2027 school year! Below is some important information as we head into the new year.

The Health Room is located in the Dieringer School Office. **The nurse will be back on campus starting August 19.** Please feel free to stop by with questions or concerns, call directly at 503-291-5459 or email nurse@jesuitportland.org.

Consent for Medication Administration at School:

The Health Room keeps a small formulary of over-the-counter medicines at school for administration to students during the school day (e.g. Tylenol, Advil, Tums, etc.). If you would like your student to have the option for the Health Room to administer these, please consent to this in PowerSchool (use your login for this, not your student's login). Under "Forms," you will find the Medical/Health Information tab to update information. If you need to change your earlier submission, please contact the registrar at lforan@jesuitportland.org.

If your student is carrying any medications on campus during the school day the Nurse will need the [Self-Medication Agreement](#) signed and on file in the Health Room. These medications must be in original containers and may not be shared with other students. Please return the form to the Health Room to nurse@jesuitportland.org or by mail prior to the start of the 2026-2027 academic school year. These forms need to be filled out annually. If possible, we prefer that prescription medications not be taken during the school day.

Severe Allergies:

We must be made aware of students with severe, anaphylactic allergies where an EpiPen, inhaler, and/or Benadryl is required. Please indicate this in the Medical and Health Information section on PowerSchool. If you need to change your earlier submission, contact the registrar at lforan@jesuitportland.org. Students carrying EpiPens, inhalers, and/or Benadryl at school must fill out the aforementioned [Self-Medication Agreement](#). *In addition, the Health Room will also need the [Food Allergy & Anaphylaxis Emergency Care Plan](#) filled out, signed and returned.* Both forms need to be returned to the Health Room prior to the start of the academic year and signed annually. We recommend that students keep backup medications in the Health Room for emergency use in case a student's own supplies are not working/lost/expired.

Diabetes:

If your student has diabetes, mark the appropriate box in PowerSchool under Medical/Health Information and have your physician send a Diabetes Treatment Order Plan to the school. Extra supplies may be stored in the Health Room for emergency use. Please reach out if there are any specific concerns during the school day or school events that we may need to know for managing your student's diabetic health plan.

Concussions:

Please report all concussions to nurse@jesuitportland.org. The nurse will work with students, Jesuit's athletic trainer, counselors and vice principals for optimal return to school and athletics. Please visit the [Health & Wellness/Concussion](#) page on the Jesuit High School website for more resources, including Return to Learn and Return to Play Protocols.

Communicable Disease, Illness and Injury Accommodations:

If your student has a communicable disease such as influenza, Covid, pertussis, mono, pink eye, etc., or your child has an illness/injury that requires some level of accommodation, please update us at nurse@jesuitportland.org. As a general rule, students should not return to school if they have had a fever, diarrhea, or vomiting until they are symptom-free for 24 hours without the use of medication. More information on Student Health and Safety with links to resources can be found on the [Health & Wellness page](#).

Have a safe and fun remainder of summer. **If you have questions or concerns prior to August 19**, please contact Vice Principal Emily Hagelgans at ehagelgans@jesuitportland.org or Registrar Laura Foran at lforan@jesuitportland.org.

I look forward to working with you to keep Jesuit a safe and healthy community!

Laurie Lundy, RN BSN
