1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

The utilization of Prop 28 funding is directly aligned with the goals outlined in our School Plan for Student Achievement (SPSA), as well as our LEA and LCAP goals. Research shows that students learn in diverse ways, and that incorporating arts education can significantly enhance overall academic achievement. We anticipate that expanding arts education will effectively support both the social-emotional and academic needs of our students by offering alternative pathways to learning and helping students build confidence in their abilities and success at school. Below are several ways our schools are using Prop 28 funds to enrich arts education for students and families: Additional music teacher staffing - Providing music-based intervention as an alternative form of student support Added Art Technician staffing - Supporting student expression through hands-on art creation Evening family art shows, plays, and music/choir performances - Fostering stronger relationships between school staff, students, and families Supplies for art, choir, and band programs - Enhancing the quality and reach of music, drama, and visual arts education. Stipend staffing for Band, Drama, Floral Design, Stage Production, Costume Design, Color Guard, Dance, Winter guard, Drum Line and Music Through Movement - Broadening performing arts opportunities Expansion of Digital Media classes in secondary schools - Introducing students to new, creative media platforms and career pathways
