

Grade 6 Applied

Math Syllabus 2026-27

Course Description/Goals:

This course modifies grade 6 mathematics content to meet the individual learning requirements of students as determined by the ARD committee. The primary focal areas in Grade 6 are number and operations; proportionality; expressions, equations, and relationships; and measurement and data. Students use concepts, algorithms, and properties of rational numbers to explore mathematical relationships and to describe increasingly complex situations; concepts of proportionality to explore, develop, and communicate mathematical relationships; algebraic thinking to describe how a change in one quantity in a relationship results in a change in the other; connect verbal, numeric, graphic, and symbolic representations of relationships, including equations and inequalities; geometric properties and relationships, as well as spatial reasoning, to model and analyze situations and solve problems; communicate information about geometric figures or situations by quantifying attributes, generalize procedures from measurement experiences, and use the procedures to solve problems; and appropriate statistics, representations of data, and reasoning to draw conclusions, evaluate arguments, and make recommendations.

Course TEKS/Objectives:

The 6th Grade TEKS (Texas Essential Knowledge and Skills) are organized into reporting categories, each focusing on a specific area of math. These categories include: Numerical Representations and Relationships; Computations and Algebraic Relationships; Geometry and Measurement; and Data Analysis and Personal Financial Literacy. Each category contains specific standards (TEKS) that students are expected to master.

Course Outline:

Semester 1	Semester 2
-Positive Rational Numbers -Integers and the Coordinate Plane -Integer Operations -Numeric and Algebraic Expressions -Represent and Solve Equations and Inequalities -Understand and Use Ratio and Rate	-Understand and Use Percent -Display, Describe, and Summarize Data -Use Area and Volume -Financial Math
