

6th Grade Applied ELA Course Syllabus 2026-27

Course Description/Goals:

Students in 6th Grade Applied ELA will engage in modified Language Arts content to meet the individual learning requirements of the students as determined by the ARD committee. Applied Language Arts is designed to teach the basic communication processes of listening, speaking, reading, and writing that are essential for full participation in society. Growth in these processes is developmental and occurs as concepts and skills are integrated and developed in meaningful situations. Students are expected to think critically, present ideas logically, and use language effectively. The program also promotes an enjoyment and appreciation of literature. **Placement in this course is determined by the ARD committee.**

Course TEKS/Objectives:

The 6th Grade ELA TEKS (Texas Essential Knowledge and Skills) embody the interconnected nature of listening, speaking, reading, writing, and thinking through seven integrated strands. These strands include: developing and sustaining foundational language skills; comprehension; response; multiple genres; author's purpose and craft; composition; and inquiry and research. The strands focus on proficiency in oral expression and comprehension, authentic reading, and reflective writing. The strands are recursive, integrated, and progressive with students continuing to develop knowledge and skills with increased complexity in order to think critically and adapt to the ever-evolving nature of language and literacy.
