

Release Pack Campus.2627 - June 2026

Academic Planning

Course Rotation Planning Rule Not Following Every Other Year Availability (SIS-196436)

Courses with planning rules set to make them available every other year were not appearing as available in the correct year in students' Course Plans. This has been corrected.

Path: [Student Information > Academic Planning > Course Plan](#)

Evaluate Credits From in District Edition Updated (SIS-198823)

The academic program in the district edition 'Evaluate Credits From' feature has been updated to accurately reflect the attributes published from the State. This resolves an issue where the information displayed did not match the official state records.

Path: [Student Information > Program Administration > Academic and Graduation Programs](#)

Academic Programs - State Managed Requires Extra Tool Right (SIS-198825)

An issue was identified in which users who had the appropriate tool rights to add a student to Graduation and Academic Programs via the Student Information > Academic Planning > Programs > Academic Programs tool were unable to do so for State Managed programs without being given additional rights. This has been corrected. Users can now add State Managed Academic programs for students without needing additional tool rights.

Path: [Student Information > Academic Planning > Programs > Academic Programs](#)

Credit Type Change Causing Regression of Behavior with Grading Tasks on Standards-Based Report Cards (SIS-199492)

The credit type change in the previous update caused a regression in the behavior of grading tasks on standards-based report cards, which affected the ability to properly report student grades. This has been corrected.

Path: [Grading & Standards > Grading Setup > Credit Group Setup](#)

Assessment

State Edition DIS Object Trigger Update – Test Score (SIS-189037) [Enhancement]

The logic for syncing the [Test Score database object](#) between the district and state editions was updated to send data via a database event change, in addition to the existing syncing methods of forcing a manual sync or saving on the UI.

Path: No specific path

Attendance

Classroom Monitor Load Times (SIS-199968)

An issue resulting in increased load times has been resolved.

Path: [Attendance Office > Attendance Management > Classroom Monitor](#)

Behavior

Behavior Attendance Audit Report Update (SIS-192508)

The RES ID column in the [Behavior Attendance Audit Report](#) was formatted to improve readability.

Path: [Attendance Office > Reports > Behavior Attendance Audit Report](#)

Update State Behavior Resolution Codes (SIS-198435)

The [State Behavior Resolution codes](#) in the Core Attribute Dictionary have been updated to align with the latest state documentation. The changes are as follows:

- Codes 00: Not Applicable and 01: Unilateral Removal by School Personnel have been combined into a single code 00: N/A-Unilateral Removal.
- Code 02: Removal based on a Hearing Officer's Determination has been deactivated, as it is no longer listed in the state documentation.

These updates ensure the behavior resolution codes in the system match the current state requirements.

Path: [Behavior Office > Settings > Resolution Type Setup](#)

Campus Document Repository Services

Error in CDR Account Creation Causing Application Performance Issues (SIS-199878)

If an error occurs during the [Campus Digital Repository](#) (CDR) lite account creation process (for districts that currently do not have an active CDR account), failure to complete it can result in severe SIS application performance issues. This issue was corrected.

Path: [Campus Digital Repository](#)

Campus Instruction

Viewing Seating Charts (SIS-192418)

Previously, if a teacher created a combined [seating chart](#) for two sections in the same period, was removed as the primary teacher from one of those sections, and then made a new seating chart for the remaining section, the “Attendance” tool still showed the original seating chart for the combined sections. Logic has been updated so that combined seating charts no longer display if a teacher is removed from one of the sections.

Path: [Instruction](#) > [Students](#) > [Attendance](#) > [Seating Chart](#)

Grades Message Filtering ([SIS-194551](#))

The issue with the [Grades Message](#) filter not working correctly has been fixed. Teachers can now properly filter the grade message recipients based on the selected grading task, such as sending messages only to students with a 'B' grade for the Semester Grade task.

Path: [Instruction](#) > [Message Center](#) > [New](#)

Classroom Messenger - Grades Messenger Updating Students with Future Roster Ends Prior to Term End ([SIS-198340](#))

Previously, when teachers sent a grades message from [Classroom Messenger](#), any students who had a Roster End Date prior to the end of the term were not included in the recipient list, along with their messenger contacts. This issue has been corrected.

Path: [Instruction](#) > [Message Center](#) > [New](#)

Seating Charts Updates ([SIS-199146](#)) [[Enhancement](#)]

The [Seating Charts](#) tool has been redesigned to improve the usability, flexibility, and accessibility of the tool. Improvements include:

- Greater flexibility in seat placement to more closely mirror non-traditional classroom layouts and larger seating arrangements.
- Option to copy a seating chart between sections and years, allowing teachers to reuse a classroom setup rather than recreating it every term.
- Enhanced keyboard navigation.

These updates were previously included in an open beta release that districts could opt into and are now generally available to all users. See the [Comparison of Seating Charts](#) for a side-by-side comparison of the old and new designs.

With this release, users of Positive Attendance can no longer take attendance using a seating chart. Our research showed that very few teachers used this option, choosing instead to record Positive Attendance using in list mode, which is still fully supported.

Path: [Instruction](#) > [Students](#) > [Seating Chart](#)

Campus Learning

Curriculum Import Fix ([SIS-199343](#))

Previously, the [Curriculum Import](#) tool generated an error when multiple districts attempted an import using the same app server. This issue has been corrected.

Path: [Instruction > Curriculum Planning > My Curriculum > Import](#)

Quizzes - Screen Reader Text [\(SIS-199681\)](#)

The screen reader text for [questions](#) that use drag-and-drop functionality has been updated to improve accessibility.

Path: [Instruction > Curriculum > Curriculum > open a quiz](#)

Census

Displayed Gender: Rights, Form, and Reports [\(SIS-197376\)](#) [\[Enhancement\]](#)

Enhancements have been made to [gender display options](#) across the [system's rights](#), forms, and reports. Users can now control what gender information is shared and with whom.

See the [Displayed Gender Release Notification](#) for additional information.

Path: [System Settings > System Preferences > System Preferences; Tool Rights > Additional Access Rights > General > View Gender](#)

Classroom Integrations

Update to LTI 1.3 Placements [\(SIS-198375\)](#) [\[Enhancement\]](#)

Logic for LTI Placements have been updated. These placements determine where an LTI product can be viewed and launched in Campus and can be defined by a district on the LTI connection itself or by Campus. Logic has been updated to consider district-defined placements first and to function correctly for tools such as Learning Tools and My Curriculum.

Path: [Instruction > Settings > Digital Learning Applications Configuration > open an LTI provider > view a connection > Placements](#)

Update OneRoster Assessment Results API Documentation [\(SIS-199273\)](#)

The OneRoster Assessment Results API documentation has been updated to remove the scoreScale field from the example data.

Path: [No specific path](#)

Update OneRoster 1.1 to Include Primary Org Data for Users in Metadata [\(SIS-199463\)](#) [\[Enhancement\]](#)

The OneRoster 1.1 API is being updated to include primary organization (org) information for users in the metadata section for students, teachers, and admin/staff users. The org returned is the school GUID of the user's primary enrollment or employment assignment. This data is available through both

the list and single record endpoints for each user type. If a user has no primary enrollment or assignment, the primary org sourcedID is not returned.

Path: No specific path

Microsoft Education Links in My Curriculum (SIS-199788) [Enhancement]

Users can now add LTI links to Microsoft Education to curriculum in the My Curriculum tool.

Path: Instruction > Curriculum Planning > My Curriculum

Custom (Attributes, Elements, Tabs)

State Edition – Publish to Portal Button Removed from Custom Tool Setup (SIS-198541) [Enhancement]

The Publish to Portal button has been removed from [Custom Tool Setup](#) in State Editions because State Editions do not have a portal, and its presence could cause confusion.

Path: System Settings > Custom Data and Links > Custom Tool Setup

Dependent Care

Dependent Care Updates Summer 2026 (SIS-196005) [Enhancement]

The following updates have been made to the Dependent Care tool:

- Invoice Updates
 - Invoices are created at the Session level.
 - Invoice and Billing preferences are determined during session creation.
 - Users can determine if registrants are billed before or after services are rendered.
 - Users have more options for the date on which the invoice is run/delivered: Weekly (select the day of the week) or Monthly (1st, 15th, or last day of the month).
- Emergency Contacts are synced with Census. This means that updates made in Census are reflected in Dependent Care.
- Member Credits
 - Credits can be added at a member level.
 - The total balance of credits available for a student display student records.
 - Invoices pull in what is needed from available credits.
 - Reports reflect member credits.
- In office/ Manual Payments / Refunds / Disputes
 - A Make a payment option has been added to student records
 - Cash, Check or credit card transactions can be collected
 - Ability to refund Cash/Check from Student records
 - Communication in student records regarding disputed payment
- Flexible Scheduling & Attendance Based billing methods are now available.

Path: Dependent Care

Ed-Fi

Ed-Fi Import Mappings Update (SIS-186597)

The [Import Mappings tool](#) has been updated to include the Calendars, Class Periods, Grades, Grading Periods, Graduation Plans, Sessions, and Student Assessments resources, allowing users to import the Ed-Fi Resource Preferences mappings from a previous configuration.

Path: Reporting > Ed-Fi > Configuration > Resource Preferences

Ed-Fi – Encrypt Client Secret (SIS-196733)

The Ed-Fi Client Secret is now encrypted in the database when an [Ed-Fi Configuration](#) is saved. The Client Secret will appear as ***** in the User Interface when pulling up Ed-Fi Configuration details.

Path: Reporting > Ed-Fi

Ed-Fi – Grading Periods Resource Preferences Delete Button (SIS-199557)

The [Grading Periods mapping](#) table has been updated to resize columns and ensure the delete button is always visible.

Path: Reporting > Ed-Fi > Configuration > Resource Preferences

Food Service

Partial Food Service Refund Displays as Credit Rather Than Debit (SIS-190144)

Resolved an issue where partial refunds for Food Service transactions via [Payments Reporter](#) showed as credit instead of debit, even though the balance was correctly reduced.

Path: System Settings > Payments > Payments Reporter

FRAM Eligibility Record (SIS-194686)

Resolved an issue where students would get charged the PAID rate on the end date of the [FRAM eligibility](#) record, even if they were free or reduced.

Path: FRAM > Application Processing > Eligibility

Adjustment Date Posts as Current Date (SIS-194818)

Resolved an issue where, when adjusting a [POS account](#), the present date appeared on the adjustment rather than the date entered.

Path: Food Service > Information > Account Journal

Transaction Summary Report Enhancement (SIS-195604) [Enhancement]

The [Transaction Summary Report](#) has been updated to improve usability and functionality.

Path: Food Service > Reports > Transaction Summary Report

Cashier Report Enhancement (SIS-195611) [Enhancement]

The [Cashier Report](#) has been updated to improve usability and functionality.

Path: Food Service > Reports > Cashier Report

Patron Preference Shows First Student Name for Family Accounts (SIS-195673)

Resolved an issue where the [Patron Preference](#) shows the first student's name for all students in a family account.

Path: Food Service > Setup > General Preferences

Disputed Payments for Food Service (SIS-196848) [Enhancement]

Added disputed payment statuses to the transactions in the [Account Journal](#). Food Service Deposits will be immediately voided from the POS account when a credit card dispute is opened. If won, the deposit will be automatically credited back to the POS account.

Path: Food Service > Information > Account Journal

Food Service Item Summary Report (SIS-198514)

Resolved an issue where the [Item Summary Report](#) date defaults to the first of the month rather than the current date.

Path: Food Service > Reports > Item Summary Report

Edit Check Maximum Enrollment Calculation (SIS-198630)

Resolved an issue where the [Maximum Enrollment Total](#) was reporting as 0 if Paid, Reduced, or Free Maximum Enrollments were 0.

Path: Food Service > Reports > Edit Check

Point of Sale Version 4.0.1 (SIS-199646)

The following updates have been made to the Point of Sale tool:

- Updates to FRAM transaction stored procedures.
- Improvements to the Food Service [End of Day Report](#) to correctly record the Submitted count.

Path: Point of Sale

Purchasable Items with Same Name (SIS-200024)

Resolved an issue where the [Purchasable Items](#) tool was saving multiple items with the same name.

Path: [Food Service > Administration > Purchasable Items](#)

FRAM

Food Service Transaction Stored Procedure (SIS-195815) [Enhancement]

The Food Service transaction stored procedure has been updated to be consistent between the POS Terminal, Quick Serve, Journal, and Class Serve tools.

Path: N/A

Meal Benefits Application Buttons (SIS-198507)

Resolved an issue where the buttons on step 6 of the meal benefits application were displaying incorrectly.

Path: [Campus Parent](#)

Grading Setup

Standards Import - Character Limit for Version (SIS-194761)

The character limit for the version field has been increased to accommodate additional frameworks.

Path: [Grading & Standards > Standards Administration > Standards Bank > Import](#)

Standards Import - Renaming CASE Network 2 (SIS-197027) [Enhancement]

References to the CASE Network 2 have been updated to the new branding and URLs from 1EdTech. The service is now called Satchel Rosetta.

Path: [Grading & Standards > Standards Setup > Standards Bank > Import](#)

Health

Vaccine Mappings Updates (SIS-198286)

Additional CPT/CVX codes were added to the [Vaccine Mapping](#) dictionary.

Path: [System Settings > Custom Data and Links > Core Attribute/Dictionary > Vaccine_Vaccine CDC](#)

Generic Immunization Extract Update (SIS-198720)

The [Generic Immunization Extract](#) now handles scenarios where students' compliance status displays correctly, even when linked vaccines are not included in the report extract. For example, MMR

displays as Compliant when the student has MMRV doses, even when MMRV is not included in the report.

Path: [Health Office > Health Reports > Generic Immunization Extract](#)

RSV Vaccine Added (SIS-199494)

The Respiratory Syncytial Virus (RSV) vaccine was added to the Core Attribute/Dictionary for all states.

Path: [Student Information > Health Administration > Vaccine Setup, System Settings > Custom Data and Links > Core Attribute/Dictionary > Vaccine > Vaccine Code](#)

Nightly Immunization Compliance Job Fix (SIS-199699)

An issue was fixed in which the nightly immunization job was not completing or updating student immunization compliance statuses on the [Immunizations](#) tool.

Path: [Student Information > Health > Immunizations](#)

Learner Planning

Special Ed Documents Save Button Fix (SIS-199263)

An issue was fixed in which the save button on [Special Ed Documents](#) was disabled after canceling the Confirm Auto Not Needed dialog.

Path: [Student Information > Special Ed > Special Ed Documents](#)

Messenger

Canceled Scheduled Messages in Messenger 2.0 (SIS-187744)

Resolved an issue where deleting a Scheduled Message in [Messenger 2.0](#) did not remove it from the All Messages display.

Path: [Communication > Messenger > Messenger 2.0](#)

Display Status Reason Column in Recipient Log Reports (SIS-199121) [Enhancement]

The Status Reason column was added to the [Recipient Log Reports](#) to display additional information to help clarify voice/text status returned by Voxology.

Path: [Communication > Messenger Administration > Recipient Log](#)

Recurring Messages Display Caller ID (SIS-199743)

Caller ID information is now included in the Message Details of the [Sent Message Log](#) and export reports of [Sent Message Log 2.0](#) for recurring scheduled messages.

Path: Communication > Messenger > Sent Message Log and Communication > Messenger > Sent Message Log 2.0

Messenger 2.0 Send Enhancement (SIS-199868) [Enhancement]

The Send button on Step 3 of the [Messenger 2.0](#) process has been changed to Review, allowing users to review recipient counts, view more recipient details, or return to the message before sending.

Path: Communication > Messenger > Messenger 2.0

Messenger 2.0 In-Progress Message Cancellation (SIS-199978)

Resolved an issue where users were unable to cancel in-progress [Messenger 2.0](#) messages through the Messenger 2.0 In-Progress tab. Messages can be canceled through Sent Message Log 1.0.

Path: Communication > Messenger > Messenger 2.0

Online Payments

Tax Details Enhancement (SIS-196926) [Enhancement]

The Payment Setup has been updated to include a [Tax Details](#) section where users can enter an email address and view the Stripe 1099 tax form. Once users select paperless delivery, they can add an email address for the 1099 communication and later access the tax form within the Tax Details section.

Path: System Settings > Payments > Payments Setup.

Tax Document Viewing (SIS-197871) [Enhancement]

A Tax Documents button has been added within [Tax Details](#), which displays a page with information on when tax documents are available if Paperless delivery is selected.

Path: System Settings > Payments > Payments Setup

Device Management Update (SIS-199158) [Enhancement]

Added a [Device Management](#) link under System Settings > Payments and adding a new device has been moved from a side panel to a full page.

Path: System Settings > Payments > Device Management

Program Participation / State Programs

Create Summer EBT Federal Program (SIS-197843)

The Federal Summer Electronic Benefits Transfer (Summer EBT) program tool is now available to any state that wishes to use it. Districts can use the Summer EBT tool to record information about students associated with this program. Summer EBT is included in Student Records Transfer and National Records Exchange.

This tool is read-only for state level State Edition users. Some options and selections may vary by state.

Path: [Student Information > Program Participation > Summer EBT](#)

FERPA: Cannot Save NULL Values on Data Opt Out (SIS-198752)

An issue was identified in which data values could not be removed from the Data Opt Out field after a value had been added and the record saved. This has been corrected. Users can now remove Data Opt Out values from FERPA records and save the record with a NULL value.

Path: [Student Information > Program Participation > FERPA](#)

Migrant Programs Updates (SIS-199003)

Updates have been made to the Migrant programs to address printing and display issues with the new Migrant Eligibility, Migrant Enrollment, and Migrant Services tools.

Path: [Student Information > Program Participation > Migrant Eligibility, Migrant Enrollment, Migrant Services](#)

Migrant Services Tool Requires Incorrect Tool Right to Print (SIS-199195)

The Migrant Services tool was erroneously requiring the "Migrant Enrollment" tool right in order to print the Migrant Service summary. This has been corrected.

Path: [Student Information > Program Participation > Program Services](#)

Programs Detail View Missing Modified By Information (SIS-199516)

An issue was discovered in which the Modified By information was not displaying on records for some programs in various states. This has been corrected.

Path: [Student Information > State Programs](#)

Scheduling

Request and Rosters - Roster Date Changes when User Time Zone does not match the server (SIS-195847)

When a user's time zone does not match the server's time zone, the [roster date](#) changed unexpectedly when the user viewed or interacted with the roster. This has been corrected.

Path: [Scheduling & Courses > Scheduling > Requests & Rosters](#)

Course Information Value Displayed on Section Override Fields (SIS-196103)

[Section fields that are override](#) values for the same fields that display on Course Information now include information text that displays the values entered on the Course Information fields. This allows a user to remain on the Section Information tool without having to switch back to Course Information to see the already assigned values.

Path: [Scheduling & Courses > Courses > Section Information](#)

Requests and Rosters Not Loading with Cross-Site Enrollment (SIS-196971)

An issue was identified where the [Requests and Rosters](#) screen failed to fully load when a student transferred from one school to another but retained a cross-site enrollment back to the original school. This has been corrected to properly handle students with prior enrollments and active Cross-Site Enrollments at the same school.

Path: [Scheduling & Courses > Scheduling > Requests & Rosters](#)

Scheduling Board - Same Teacher, Same Period Rule Issue (SIS-199332)

The [Scheduling Board](#) was not correctly building courses when a teacher is assigned to the same period across multiple courses and the course had a Scheduling Rule of Same Teacher, Same Period. This has been corrected.

Path: [Scheduling & Courses > Courses > Course Rules; Scheduling & Courses > Scheduling > Scheduling Board](#)

Security

User Accounts Linked Through Cross-District Enrollment Password Reset Issue (SIS-182101)

User accounts linked through cross-district enrollment could get stuck in a scenario where on district has flagged the account for password reset but the user isn't able to enter the old password because they are being logged in through the cross-district login process. Updates were made to avoid this scenario.

Path: N/A

Use SSL Changed to Use TLS and on by Default for LDAP Configurations (SIS-188812) [Enhancement]

The Use SSL (Strongly Recommended) checkbox has been renamed to Use TLS (Strongly Recommended) and is now checked by default for LDAP connections set up in the [LDAP Configuration](#) tool.

Path: [User Management > Settings > LDAP Configuration](#)

Database-inserted Passwords Now Hashed Nightly (SIS-189024)

To improve security, passwords inserted into the database are now automatically hashed nightly. Also, password hashing is now on by default for all customers.

Path: N/A

SIF

SIF Unity – Object Viewer Error Fix (SIS-199528)

An error causing the [Object Viewer tool](#) to error for the LEAInfo object has been fixed.

Path: System Settings > SIF Unity > Configuration > Object Viewer

SIF Unity - Configuration Fields Update (SIS-200071)

The [SIF Unity Configuration tool](#) has been updated to no longer autocomplete the Client Service field.

Path: System Settings > SIF Unity > Configuration

Transportation

Transportation 2.0 Enrollments not displaying (SIS-198806)

An issue where student enrollments were not visible to [transportation](#) staff when multiple enrollments in the same calendar existed for a student has been resolved. Enrollments for transportation students now display correctly.

Path: Student Information > General > Transportation

New York

New York SIRS Student Daily Attendance Updates (SIS-198461)

The logic for reporting the AttendanceCodeLong and Modality data elements on the [SIRS Student Daily Attendance](#) extract was updated to report two records when the student has a state-mapped attendance code of ISS or OSS (In-School Suspension or Out-of-School Suspension).

Path: Reporting > NY State Reporting > SIRS Extracts > Student Daily Attendance

New York Course Information Updates (SIS-198537)

The options available in the SCED Course ID and SCED Subject Area fields on the New York [Course Information](#) tool were updated.

Path: Scheduling & Courses > Courses > Course Information

New York SIRS Programs Fact Fix (SIS-198553)

The report population for the [SIRS Programs Fact](#) extract was updated to include only students with an Eligibility Determination of Free or Reduced. Previously, the extract was pulling in students with Paid and Non-reimbursable Eligibilities and causing errors.

Path: [Reporting > NY State Reporting > SIRS Extracts > Programs Fact](#)

New York SIRS Student Lite Updates (SIS-198692)

The [SIRS Student Lite](#) Home Phone and Address report logic was updated for New York. Home Phone logic was updated to report the area code plus trailing zeroes when the Private checkbox is marked, and the household phone number when it is not. The highest emergency priority Guardian phone reports when the household phone is null.

Address was updated to report the most recent inactive address when a student has no active addresses.

Path: [Reporting > NY State Reporting > SIRS Extracts > Student Lite](#)

New York SIRS Student Lite Update (SIS-200105)

The default value for the District Code of Residence data element on the SIRS Student Lite extract was updated to report "NY" followed by the State District Number instead of a null value.

Path: [Reporting > NY State Reporting > SIRS Extracts > Student Lite](#)
