

Governor Wentworth Regional School District
Memo to School Board
Submitted by Scott Laliberte

August, 2026

Superintendent's Report

To this point in the summer, members of the school district staff have been invaluable in welcoming me and orienting me to the district. I have been conducting visits to each of the schools in the district, and meeting with both building leaders and members of the staff who may be present in their schools. These visits have allowed us to focus our attention on areas of impact quickly, which is particularly important given the one-year timeframe of my assignment as superintendent.

Summer Building Work

Our buildings and grounds staff have been doing outstanding work as always, and the buildings are on schedule for the start of school later this month. No major issues to report. The playground renovation is underway at Ossipee Central School, with the removal of the old equipment complete as of this writing.

General Assurances Authorization and Authorization to Suspend (Student Discipline)

The Authorization to Suspend appearing on this agenda fulfills the requirements of Policy JICD, as well as the cited RSA. The General Assurances Authorization that normally appears on the agenda for August is no longer required, and has been omitted from this agenda. .

Carpenter School Update

We have been informed that work on the Carpenter School is nearing completion, and is on schedule for the opening of school. Ms. Komst will be submitting further information.
