Ms. Janice Nadeau, *Technology Director*

Welcome to ParentSquare: Our New All-in-One School Communication Tool!

Dear Parents & Guardians,

We are excited to announce that this year our school district is adopting **ParentSquare** as our primary communication platform for district-wide updates, school announcements, and classroom messaging.

One of our top priorities is to simplify how we connect with families. ParentSquare provides a unified, secure, and user-friendly hub that replaces fragmented email chains and third-party apps, making it easier to stay engaged with your student's education and extracurricular activities.

What You Can Do with ParentSquare

- **Centralized Messaging:** Receive all district, school, and classroom communications via email, text message, or app notification—customized to your preferences.
- **Interactive Calendars:** View upcoming school and classroom events, track key dates, and RSVP directly.
- **Sign-Ups Made Easy:** Seamlessly sign up for parent-teacher conferences, volunteer opportunities, or requested classroom items.

How to Activate Your Account

Getting set up takes less than a minute:

1. **Watch for Your Invitation:** You will receive an invitation link via email or text message.
2. **Click & Activate:** Follow the link to confirm your contact details and set up a password.
3. **Download the App:** While you can access the platform on any web browser at www.parentsquare.com, we strongly recommend downloading the free **ParentSquare** app (available on iOS and Android) for real-time alerts on the go.

Here to Help

Our goal is 100% family participation so no one misses out on important classroom moments or urgent notifications.

Our IT department is actively monitoring the rollout to ensure a smooth transition. If you do not receive an invitation link, need to update your primary contact details on file, or run into any technical issues during registration, please don't hesitate to reach out to me. Thank you for your partnership as we streamline and improve our district communications!

Best regards,

Ms. Janice Nadeau
