BBHCSD Web Calendar Links

This page contains links to Google Calendars for the district and each of the schools. These calendars are used to manage the events in the district calendar, which also appears on the district web site.

Please note that athletic events and lunch menus are NOT managed through Google calendars.

To add the calendar to your Google Calendar account, look at "Other Calendars" on the left side in Google Calendars. At the bottom of the list, click "Add" and then "Add by URL." Copy the address of the calendar you want from the list below and paste it into the box. Then, click "Add Calendar."
